Rom Chronological Events

2007

9-21-2007 First time master talks to me about UFOs and the history of Atlantis.

9-23-2007 Master tells me I'll be working with ETs. I learn from occult history that Many UFO groups have been working with mankind since its birth.

11-9-2007 Master teaches me about UFOs.

11-18-2007 More briefing by spirit on occult and UFO history. (see 8/25/2010)
(Not Entered Here. See Notes in Time Book #10 for Details.)

11-22-2007 I first saw a UFO but didn't realize it at the time. Driving out to Tommy Jay's and saw a very strange jeweled light that was the size of the moon over Groveport Ohio.

12-5-2007 Driving out to Tommy Jay's. Saw about 15 UFOs. Freeway was at a stand still. First telepathic contact with Rom. Ended up in Cloumb Ohio
35 minutes from Tom's. Was very upset. Ask Tom If any news reports about UFOs? During the filming of the Jayfish cover "don't cry no tears" I challenge ROM to prove he is real. Tom thinks I'm nuts.

12-26-2007 Confirmed ROM-UFO are real but still I don't believe it.

12-28-2007 Rom installs Devices (see 9-23-2007) Polio starts to get better slowly. In a dream I talk with Rom about his Tech

2008

3-12-2008 Master says the 1947 Roswell UFO crash where aliens were from Mars. **(Ben Crème confirms: It was a deliberate sacrifice on the part of the crew. Boyd Bushman a Lockheed senior research scientist says he knew the fighter pilot who thinks he shot the UFO down.)** Rom tells me I am his contact. I notice his mindset is nothing like humans. Rom is very funny at times.

4-11-2008 Tommy Jay and I see a flickering light outside his home. On the drive at home I see 3 types of UFOs up close at 300 feet. Later I see same ships posted on YouTube. I point this out to Tom.

Mike Rep's party) ROM says they (Nordic ETs) are building a base in the
Himalayas.

5-4-2008 I hear Rom laugh for the first time. Like nothing I have ever experienced. Rom stops Grey's from testing me when I freak out. Some people say Grays are clones used for ET security. Not Confirmed.

5-8-2008 Master says I will do something with Rom.

Van Allen Belt & Dome City On Mars

5-14-2008 ROM telepathically showed me a Retz Mothership in orbit. ROM gives me a tour of his ship. Rom show me a UFO power station in space which may help generate the Van Allen Belt around the earth. Ship is a pyramid shaped and maybe glass like metal. Show me a domed city Retz on Venus Telepathically. It was Solid Physical.***(See Omnec Onec's book "FROM VENUS I CAME". This was years before I had even heard of Omnec Onec)***

Additional Late Entry Made For Jet-fish.

6-20-2008 Rom says he will telepathically show me mars. (confirmed later but no log entry. At the time I saw a 'jet-fish' in a Martian lake. It was kind of like a cross between a goldfish and jet with one intake up front and two jets in back. Kind of jetted around without using fins.) ***(See my Notes In Time Book 8 for details.)***

6-23-2008 Rom says he will telepathically show me Venus. Says I will speak for their delegation on earth. (confirmed later but made no log entry. Saw a light yellowish dome city Retz from about a mile away.)

6-28-2008 Telepathic message. You have been selected for a mission to the moon.

8-2-2008 I am told that Rom will show me proof 1st hand. (I will confirm later. Post UFO video on YouTube.)

8-7-2008 I am told about Black Hats creating UFO hoaxes and staging abductions.

9-3-2008 Rom warns me about hoaxes. Rom watches sun ritual at Slow Springs Nevada. Says I am to tell the truth about his delegation. Has trouble on his ship and has to cut me off abruptly.

9-5-2008 Rom looks over my shoulder. "every move you make is considered by the star group"

9-12-2008 Rom says my roll is a very small one but very important to my friends and me.

9-25-2008 Rom confirms the sighting. Says I can ID ships by their twinkling.

9-26-2008 I see a UFO. Master Maitreya says I will get video proof soon.

10-1-2008 Rom is excited.

10-13-2008 Rom says I will video his ship before Xmas

10-26-2008 Rom watches me.

11-15-2008 Rom says I will represent his delegation. My role is small and limited but very important.

11-17-2008 Tommy Jay and I get really stoned. Rom makes a request to take Tommy outside for a close flyby of his ship. I refuse because we are both so stoned and I don't think Tom could handle it yet.

11-26-2008 UFO turns its lights off and on to confirm my telepathic request. (see 10-13-2008)

11-30-2008 Rom says that Tom and I will be flown to an airbase to film a UFO ship As of 2024 this never happened.

Bowllock

10-15-2009 Rom introduces me to another type of ET. (Telepathic photo of "Bowllock"). He has a big head and bright orange skin with a black "SS Nazi" type pattern all over his body. I think this group are the ones that Alison Kruse of Murrysville, Pa have been filming and posting on You Tube.com

10-18-2009 UFO flyby video. First up close video. Other footage shot. Rom

confirms
my request for a blue star UFO. I will post it.

Flop

10-25-2009 Info on Rom's family pet called "flop". *(See Book: "From India To The Planet Mars" Pg-117- Theodore Flournoy. Astane's Martian Pet.)*

11-16-2009 Telepathic message about solar flares.

12-1-2009 Tons of UFO sighting. 24/7 shot.

12-1-2009 UFO sightings shot

Norway Spiral UFO Event

12-9-2009 Norway spiral UFO. Black Hats lies! Say it was a errant missile fired from a Russian submarine. Media purposely misleading us on the true nature of this event in resistance to the coming of Maitreya and All the changes he will bring to mankind. In fact, at first the Russians denied that they had launched a missile. Master Maitreya, Ben Crème and Rom Confirm this to me personally.

12-7-2009 UFO footage 24/7

12-18-2009 ET dream experiment. Rom telepathic message.

12-31-2009 Rom and other ETs do another medical intervention on my body. Next In the morning I confirm the tumors are removed.

2010

1-6-2010 Rom confirms the tumors are removed.

1-12-2010 Tons of UFO sightings 24/7

1-21-2010 Rom and staff begin to prepare for ground landing. Not sure when.

2-7-2010 Rom tells me of a flight trip and the wonderful sights I will see while
on board. I will be alone. Must work on my 3rd eye so I can better see on the sightseeing tour that is being planned.

2-15-2010 Some UFO activity. (2-25-2010 Notes in Time Book #9 for more details) Rom had to show up at the foot of my bed while I was waking up from sleep. I sensed him with my 3rd eye. but could not see him with my eyes. Did see a ghost-like shadow outline of him. Rom all most 6' 2" tall. *(Confirmed: Clifford Stone book "Eyes Only" PG -32- Also Stan Romanek Books)*

2-28-2010 Experimented with my form of CSETI Protocol by Steven Greer to see if

I can summon UFOs.

3-1-2010 Great night of shooting UFO footage. Don't need protocol because of equipment Rom installed on my body keeps me tracked by ETs. Ask ETs to guide me to a place outdoors where I can mediate and they can land.

3-4-2010 Message from Rom on how to handle the public. Rom says we will meet soon.

3-8-2010 Rom has spare time on ship to talk. Said 3 to 4 other races from other galaxies are helping him to watch me. They take environmental samples and do research. With plants it is like collecting snowflakes. I would be amazed with the plants of other worlds. ETs test themselves with emergency evacuation drills just in case they have to get 7 billion humans off the planet in a hurry. Said he would look into my new health issues. Most scout ships can hold about 25 to 40 humans in an emergency. Summer of 2010 the air will be real bad and people will notice skin burning. By 2015 they'll phase out cars that use oil. I asked him about the world economy collapsing. He said Master Maitreya's group was handling that side and he did not know. Seem like the ETs have an army-like type of set up? Seems like Rom is busy with monitoring tasks and such. Rom wants me to log our talks for later reference. Seems like the ETs on duty 24/7 watching over us. Made Rom laugh. Said within 6-8 months, the UFO will start to come closure and closure, until they are right in your face. That’s when the Black Hats will run for the hills.

3-14-2010 Thought ETs were protecting me from the cops but find out that they were blocking the Black Hat Rogues from staging a car accident of my death.

3-17-2010 Great UFO footage tonight.

1st Psychotropic Attack

3-19-2010 Cleveland NASA Glen Research Center uses a psychotropic non-lethal weapon on me, which causes great itching and disorientation. Rom steps in and puts some type of charge on my hands that block psychotropic attack. (After a few days of these stressful attacks I learn how to escape using Doctor Steven Greer's meditation defense. Later on I successfully remote view the lab tech that is remote viewing me and ask him to, "please stop". He is ashamed and tries to hide his face but I can see him clearly. He says he is only doing his job and has a family to support.) Rom said at first only I will be at the landings, then later others will come on board. Rom makes a joke. (Over the next few weeks I begin to see the neutrino light around Rom when he comes into my room late at night. Rom is always in an astral etheric state when he visits. He has to adjust the installed Devices on my body every once in a while. I sense that Rom really enjoys seeing me and my grand-daughter at play.)

3-22-2010 Black Hats crashes my computer. Need $120 cash to fix. Stop my postings.

3-25-2010 Rom hand charge worn off. Black Hats psychotropic attack. Different type. Bubble of energy sticks to my body. Very bad. Like poison ivy all

over. Kept itching for 2 ½ hours very bad. This is a new weapon. Steven

Greer's meditation defense didn't help. Took a shower, which seem to kill the bubble of energy. They want me to keep my mouth shut on Internet about Rom and Master. Appears that they are now using two types of weapons: one badly disorients and confuses, the other itches the hell out of you. Http://youtu.be/YeHeRpBa6uw

4-3-2010 Now two other people have joined me in filming Maitreya's Star. Started talking with this guy next door and we saw-dancing lights. His women saw the Star too. Star keeps showing up in same place since august 2009. Briefed a new guy. Ask Rom for a flyby to show the new guy. The UFO moved close but no flyby. New guy went home and then I got

a good flyby. Other contactee showing up on you You Tube.com They are posting the same type of videos as I am. They are seeing the same type of ships.

4-4-2010 New guy and I filmed tons of UFOs.

4-7-2010 New guy and I are filming UFOs. Ask for a close flyby so the new guy can see. No luck. New guy goes to bed and I get a 2nd close flyby. Heard jet roar 50ft overhead but it was a UFO. (Few days later he tells

me he saw a UFO flyby by himself late at night)

4-10-2010 New guy and I are now seeing up close flybys. (Master Maitreya, "Rom will make his desires known to you. He will never say no to you in your requests. He will honor your requests at the time of his choosing")

4-13-2010 Black hats infiltrate contactee groups with bribes and misinformation about UFOs. Some of the other you Tube.com people are being fucked with. Fake 747 jetliners followed me into Columbus. (10:30 AM Clear Sky. 250ft. No sound. Micro Center Computer Store. I could see the Lights and ETs inside the windows. No video.)

4-20-2010 Rom says I am being watched very carefully and in detail. He will tell me when to go to the media. I have requested information on the new Orange ET. Ask Rom to confirm his name (Bowllock)

4-25-2010 Rom says they have to adjust their 3rd eye to deal with riding in a UFO.

2rd Psychotropic Attack

5-4-2010 Another Black Hat psychotropic attack! Got a rush of confusion and disorientation for about 20 seconds. Ducked up into my soul by using Doctor Steven Greer's meditation defense. They can't get me there. I just suck my personality up into my higher self and watch the wave of electromagnetism passes below me. There is nothing for the wave to grab

hold on.

Buzz & The Pig File

5-18-2010 Telepathic contact with a new insect-human ET named "Buzz". That's what he wants me to call him. They come from both inside and outside our solar system. Buzz is a co-worker of Rom's. Buzz sent a file of data (pig file) into my subconscious to be used at a later date as needed. It was in the image of a pig. Buzz said I was chosen for

another task which has to do with other ET races.

6-1-2010 Rom said OK to call orange ET "Bowllock". Said I will learn (see log 3-12-2010) about other ET Races.

6-3-2010 ETs are rotating staff for shore leave. Slow down in UFO sightings then it picks back up at the end of July.

Department Of Defense Per ET Request to General: Hire Daughter.

6-4-2010 Have UFOs and Probes been landing in the soccer field behind my house? (12:PM -noon clear sky?) low flying plane “sound” over soccer field but no plane? Rom and others advise retiring General in the *Department of Defense to hire my daughter and many others like her all over the USA*. Feds wave security screening for daughter. Might have seen Buzz late at night looking through the fence at me-not sure.

6-8-2010 Dematerialize UFO Probe is resting 2ft from my back door. I can not see it but I sense it. It is about a 2 1/2-foot disk. It has been imploding nuke atoms.

6-9-2010 ET confirms Dematerialize UFO around me 24-7 on guard duty. They are neutralizing negative thoughts. Daylight sightings are coming soon.

6-10-2010 Buzz the ET says they are short handed right now on staff. Said others will seek me out.

6-30-2010 Saw 4 or 5 UFOs tonight.

7-30-2010 Sent telepathic message to ETs asking for a flyby and hover at 100ft for 20 seconds so I could film. Only sightings, too far off to film UFO.

7-11-2010 Tom Jones and I were driving to his home drunk. A UFO Star showed up.

7-18-2010 I got a briefing on why UFO sightings are slowing down.

7-20-2010 ETs woke me from sleep. I film UFO

7-21-2010 Rom back from shore leave. Bowllock (Orange ET) is from Jupiter. Rom said Venusian's have sex. Sex comes through their hands. They don't climax physically, they climax emotionally. I don't understand how the fluids go from male to female through the hands. Rom activated Pig file which will let me handle coming events. This will help me deal with the unknown experiences better.

7-25-2010 I got a UFO briefing update.

8-15-2010 UFO following me 24-7.

Abena

8-21-2010 New ET. Abena the Orion. I have filmed her ship too. Phil Coeski(Contactee. Northeastern USA. Orange and Ulster Counties) of New York State in contact with her. Http://youtu.be/VmcIeTE6ktQ Phil says

she is from Orion. My info is she is not. She works with and sometimes fills in for Rom, Bowllock and Buzz as needed.

8-30-2010 Now seeing two of master's stars. One at sunset the other just before Sunrise. Also see light orb phenomenon during the day along with amazing sunsets, UFOs and flames in the sky. Will video and post on you-tube.

9-5-2010 Telepathically shown the type of ship and an ET who might take me on a ride If I so choose.

9-8-2010 Bowllock eats minerals. His main job is mostly to collect and collate data on plants and soils. He is very low-key. Does not talk or joke much. Very reserved. Buzz is a party boy. He is like me. Loves to play around and have fun. Buzz is a huge ham for photo-ops. He has three kids staying on Neptune. Buzz flashed me with Red because he knew I was going to get my dreams tested when I went to sleep. I had told the ETs that if they need to experiment on me it was OK, just don't hurt me. For some reason the ETs are interested in the relations between fear and consciousness. Why does our consciousness fear non-consciousness or voidness? What is consciousness anyway? I don't think the ETs understand what fear is? They study my fear reactions while I'm asleep.
For humans fear comes from the fight or flight response of the mind, emotions or body. The ETs seem to be studying something higher than these-maybe their source?

Tommy Jay & Nudge Squidfish Flyby

9-19-2010 Rom told me he was going to do a flyby. Took Tommy Jay outside his home. His eyes are fucked up due to operations. He doesn't see that well. Tommy, me and Bill Klause had been partying before Rom's flyby. I wasn't drinking. I show them the Rom UFO white star. Soon a another light appeared and slowly changed into an airplane and flew overhead at about 1500 feet. Tom didn't believe it was a UFO. He said it was just a airplane. I then ask Tom why we could not hear a motor? Tommy didn't reply. But, both Bill and Tom blew me off. I told them it was Rom's ship. Neither Bill nor Tom wanted to deal with it. I shot a video of the experience and posted it on YouTube. Later on Tom did acknowledged that UFOs might be real. Later, Rom and his staff followed me back home to Delaware Ohio. ***(Not Entered in Notes in Time Book #10)***

9-30-2010 Shot great videos of the UFOs tonight. ETs come into my room and adjusted my polio equipment after I went to bed. Heard ETs singing in my sleep. ETs land outside my house. Very active UFO sounds coming from outside my home.

10-2-2010 The ETs must think I am a good driver? I have to drive and film at the same time to get good footage. Ever since ETs re-adjusted my equipment I feel like I am 31 again. Whoopee! Not tried. Full of action.

10-3-2010 Hearing sounds at night Telepathically.

10-5-2010 Abena says Rom on shore leave because of his kids. She is filling in. Telepathically showed me the **"Rules Room"** on her ship. This is where they have staff meetings on her ship concerning the work on earth. There are rules they must follow. Her ship was congested and cluttered with all kinds of stuff. Nothing like Rom's ship. **Phil Coeski** stated on YouTube the she was just promoted from captain to **major**. Each of the four ETs I am in contact with have very different personalities.

10-12-2010 ETs flashed me with red. A group came into my room and tested me for toxins. They also tested the trash can for toxins. Need to keep me in good running order so I can speak out on their behalf.

10-17-2010 ETs are making sounds in my room and outside my home at night when I am in bed. Seeing flames in the sky. Starting to get daylight UFO videos.

11-7-2010 Been seeing very cool UFOs but didn't get videos of them. Why do they keep to the edge of my 5 senses? Why do they watch me 24/7? What do they see in me? Why do they act the way they do?

3rd Psychotropic Attack.

11-8-2010 Black Hats yesterday and last night attacked with their psychotropic weapon. I began to itch like hell. But last night I ducked (used mediation) up into my soul. It stopped. (see 5-4-2010) This time I send the wave back at them. Should not do things like that. They pissed me off-bad squid. I get tired of the phone and internet harassment. Mysterious missile lights up sky over Pacific Ocean, 35 miles west of LA, North of Catalina Island. Left a large condensation contrail. I knew it was a UFO. *(Benjamin Crème confirms that is was a spaceship from Mars in Share Dec 10th Issue)*

11-10-2010 Rom gave me a pep talk. They watch all my relationships 24/7. ETs don't Care about my flaws. I think they are happy with my performance so far. Buzz is amazing. He works his ass off all night long in his ship trying to get noticed by humans. The ETs never quit. I think they don't know how?

11-11-2010 Black hats attack. Not very strong. Very weak. I duck up into my soul.

11-12-2010 Black Hats backing off. (phone and internet harassment since Xmas 2007)

11-24-2010 ETs on shore leave.

11-28-2010 Buzz said they take blood samples from my ear to measure the evolution of my personality. (this confirms marks appearing on my ear over the past year.) Something in the blood can measure the quality of the personality. Also, I can sometimes see outlines in the etheric/astral state. (see 3-19-2010) I can see shadows of outlines in the neutrino light. Also, Buzz has wrinkly skin like an elephant.

12-4-2010 Telepathic message about issues concerning the ETs. They watch all my

actions 24/7. They will allow me to help the public understand their P.O.V. on these issues as they arise. There is much discussion about your work on their behalf. They are quite concerned about my path. “You are not in trouble. You are doing what you should do at this point”. “You will be informed at the right time what to do” “Let them guide you. Your questions will be answered one by one. They listen to all of your conversations.”

12-6-2010 The dream testing done on me seem to be about building a psychological Map of my soul’s attributes. This is needed due to reincarnation. This may be needed for another lifetime. How does my soul respond to fight or flight? What are the moral and ethical responses? How does my soul deal with the unknown? I think the ETs are trying to control the life-force to the degree where one’s free-will is not violated? I think they are trying to understand the nature of life so as to help it advance? A lot of these tests have to do with stress. Other tests have to do with human interactions. A few rare tests have to do with the complete unknown; with no experience to draw upon. It seems that the Masters of wisdom have gone on break with their education testing, and the ETs have taken over. Can not think of a dream where the ETs teach me something? Only the Masters teach me and test me on what I have learned. I have no problem with this at all. I’ve learned a thing or two about this psychological map on my soul. But for the life of me I can’t figure out what are the ETs after?

12-8-2010 More ET dream testing.

12-10-2010 Video UFO after babysitting tonight.

12-15-2010 UFOs twice streaked in the night sky with a contrail of light after babysitting. (Maybe 7 seconds and ½ mile in length. Very cool. Never experience this before.) When son open the door Buzz had parked his UFO at about 5000 ft. Son chickened out and went inside. Rom and Buzz followed me home.

Pig File Update.

12-23-2010 I now know what the pig file is for. (5-18-2010 & 7-21-2010) I am in this hyper-stress cycle with family, friends, world events, dream testing & health. The pig file (Happy like a pig in shit) keeps my subconscious and conscious detached, balanced and happy. It acts like a happy pill for them. Wow. (confirmed: see Howard Menger's “from outer ***space to you Pg-172-)***

RED FLARE UFO

12-24-2010 Got lost on the way home from family Xmas. Became upset. New type of ET told me I was on the right road after about 1 hour wandering in the dark. When I got to the police station in downtown Westerville Ohio & saw a new type of UFO appear at 500 ft above the station. Sky was dark and cloudy with neon glow bouncing off ground into the snowing sky. Saw this Red flare UFO disk. It was about 20 ft in size. Look like a road flare in the sky. I stopped. It moved up close. Wow! They wanted to let me know they were there. I thank them. I was kind of pissed I didn’t have my camcorder. Next morning they reminded me I had my cell phone camera with me.

12-26-2010 Very bad people (see 3-19-2010) keep hacking my computer. It keeps costing me money I don’t have to make videos of UFOs for YouTube. not sure what to do? Turn off the net? That would hurt ETs. How do I

post?

New Years Eve

Me and Mike Rep saw Rom's ship. But Rep claimed it was just Jupiter! Rep then challenged Rom for proof.

1-1-2011 ETs dream testing me again. The movie "inception" is something I've been dealing with for the last year or so. I know my way around dreams.

1-5-2011 Fucking weird UFO shit going on at night? I was tracking this UFO. Went inside to grab camcorder. The UFO was heading southeast. Started to recorded it. Later, when I looked at the footage it looked like I might have shot a street light? I am now getting lots of light phenomena. the ETs doing what Maitreya and Master Jesus do at Benjamin Crème's transmission lectures? Got a telepathic message to "post it". Can't tell if it came from me or the ETs? Will meditate for advice. Did I see the ETs using the "familiar" process used by Maitreya or Jesus?

1-20-2011 garyandnicole9@youtube posted on Sept 20th 2009 (Buzz?) UFO. Cairns, Australia.

1-26-2011 Got to be a reason for the ETs checking in all the time? I'm Old, but I still feel like I am 40? The ETs keep me in good running order.

2-14-2011 On good days the ETs like to show up early around 5:30 am, about an hour before sunrise. They appear southeast over Route-23 to catch the traffic going to work in Columbus, Ohio from Delaware, Ohio. I shot some video today. In China they seem to be doing daylight sightings. Here in Ohio almost always the sightings are at night. Maybe they want the workers to notice them on their way into work? So far I've posted 70 UFO videos on YouTube Not sure if I should keep posting the same kind of sightings over and over. The ETs confirmed it was Bowllock I saw today. They are only allowed to do a certain amount of daylight sightings here in Ohio.

2-15-2011 Last night I babysat my grandchild. I had back pain big time. On the way home the ETs followed me. They were out in force! When I got home I tried to video them but fell hard on the ice. (Boom) I think that bothered the ETs. In bed they came into my room and scanned me. Then said that they had to adjust the equipment on my body. Next day I woke up and back pain was gone!

2-18-2011 The dream stress testing by the ETs is done. I've reached the 90,000 "humars" units of stress. They said they have been building my stress resistance up for some time. (see 12-9-2011) A unit of stress is one human unit. They used the word "HUMARS" to describe this.

Medical Intervention

2-28-2011 Did the ETs operate on me? I saw a mark on my right knee. Maybe 3 or 4 inches long. 5am. UFO by the moon. Black Helicopter show up. No markings. Helicopter starts flashing like a UFO. I video event and posted on you-tube. Helicopter follows me around for 45 minutes. Sun Rises. I bust Helicopter. Real UFO by the moon dances in victory over Black Helicopter.

Fukushima

3-14-2011 (Rom Telepathically give me a underwater tour off the coast of Fukushima Japan) the ETs allowed me on board telepathically to tour underwater lava vents. They are not allowed to fix the problems but are cleaning nuke dust as best they can over Japan. I could see bubbles streaming from underwater vents. Heard a wave-like hum of the ship motor. Rom let me P.A. my thanks to all the ETs cleaning up the mess. No one will ever know how hard they work. No one will know how much they have helped us.

3-16-2011 "Facebook and YouTube is your public face so to speak". Rom says, "Answer their questions slowly. Speak when spoken to".

3-17-2011 (Telepathically) Met the master of Tokyo in spirit yesterday. His vibration is very detached and serious, but powerful. A little like Master DK I should think. Si Baba is funny. More so than Maitreya or Jesus. Like Buzz and me he likes to be crazy. Rom too, but he has a streak of seriousness in him. Bowllock is quiet and serious. He is about business. Yesterday I was at my computer and the ETs flashed me with Red. Kind of stoned me a tiny bit. Said they had to adjust my equipment.

3-20-2011 Surprise! Black hats attacked me with itches (see 3-19-2010)1st time in a long time. Must be my YouTube re-post!

4-14-2011 (Rom Flash Me Red)Better proof comes. Will introduce you to more ETs

4-17-2011 (Rom says)Lieutenant Commander multi-contact squad. Trip to Sierra mountains.

5-1-2011 UFO activity increases all around you 24-7. Film as much as you can, post it also. ETS will gladly assist you in your efforts. They're here to assist you in your needs. Just ask. They will respond to all of your request. UFO return in force.

5-4-2011 Buzz says he is waiting for the right kind of weather. Will give closer photos ops then.

6-2-2011 UFO out the wazoo last night! Big time sightings! Campus cops stop to ask me what I was doing. (Parking Lot) I explained UFO sightings to him. Oh well! I'm nuts anyway so it is no big deal!

6-3-2011 More UFOs last night!

6-8-2011 More UFOs at sunrise-5:30 am.

6-13-2011 UFOs appear then disappear before I can shoot them. They move back and forth (left and right) to let me know it is them and not a star! They tease me.

6-28-2011 Rom said I will go on board his ship in my etheric physical state. They will lower their vibrations (for a time)for my trip. A room is prepared to contain my form. It will not interfere with their ship's operations. He said I can go anywhere. Rom said they have been preparing me for this

trip. I will get to see their operations while on board.

7-7-2011 Shot good UFO footage.

7-12-2011 Better sightings and readings soon. Right in your face with it. We will guide you through this. Right in your face UFO sightings meant to impress. A platform for later uses as needed. Impressive to people. Some people flip out and can not accept it. Attacks against you on the rise! Can't be helped. Part of the job. You will do fine with it. You will rise above the personal attacks. Even some friends turn on you. Can't be helped! In time they come around. Personal attacks mean spirited. Meant to piss you off. You will do well with these attacks. Your words are our words! Don't doubt yourself! Roll with it.

7-14-2011 ETs very supportive of my choices.

7-24-2011 ETs adjusted my equipment to speed up metabolism. Will help with weight. I felt the ETs turn off my equipment and adjust it. They used sound. When the equipment was off it was like a fireworks show! Then they turned it back on and it was peaceful and smooth.

8-1-2011 Rom is a captain? Saw UFO coming home from Harrisburg gig. Yellow-white lights. Lots of close-up sightings but always when I don't have my camcorder. Really need tripod! No $$$. Hard to tell what the ETs are asking. Best to let them show me. They park their ship most nights outside my home.

8-9-2011 The ETs keep showing themselves to me but won't let me video. It's like they want me to know they got my back.

8-11-2011 Been seeing UFOs in the morning. Have not been shooting. Owe the ETs a huge debt. On the way to my grandson's birth I saw a shiny UFO. The ETs were very happy. They wished me joy with my grandson. They would not let
me video. But they let me know they were there. Saw 2 dancing UFOs harmoniously on the drive to the hospital. They flashed me. Then saw 4 or 5 UFO sightings later!

8-13-2011 Camcorder OD! I thought, "I'm done posting UFOs on YouTube." But then, on the drive home the ETs came down and low.(20 feet top tree top level)
All the way home they were giving me great shots! I told them I would put it on my credit card if I had too. They wanted me to keep on posting. They made that very clear! Why didn't they just use telepathic message? They chose to use "actions" and I had to figure out what they wanted. They could've just told me? Oh well! They are sure hard to understand. They make me jump through hoops! No point in bitching about it. We all owe them too much! I just do what I think they want. They always keep me in the dark. Boy, they were about 20 feet above the trees. New type of UFO-never seen before. UFO coming down over Perkins observatory. Flashing colors UFO over water tower on London road, Delaware city. 4 yellow lights UFO cross my path.

8-19-2011 Rom is a captain. (see 8-1-2011)ETS guards my driving home late at night. They said want to stop attempts to kill or hurt me. Rom said my video problem will be solved. Rom's ship's supply room taking on stock. Build up stores. Everything is neat and organized. Ship Shape! Rom has a crew of 5 on this ship. Bigger than most scout ships. 3

decks.

Rec Room. Fun time there. “You will visit soon, in person on my ship. All is ready. You will be surprised! You will have a very good time there. Soon, real soon.”

8-21-2011 Rom was saying they are thinking about giving me another type of file. Said his bosses are thinking about it. Said it would help me cope with being inside a UFO. Ask me what to call it? I said a “bird file”.

8-24-2011 Coming home from babysitting saw UFO cross Rt23 coming down the hill by Perkins observatory! They have been giving me great close ups. Ordered new camcorder.

Jerry The ET. Rom’s Brother.

8-31-2011 Working closely with the ETs. Before I got this new camcorder the UFOs where coming down low and slow. Right in your Face! Started posting again. Sometimes ETS block me. New ET name Jerry! (10-1-2011,9-2-2011, 4-14-2011)

9-15-2011 Seeing close ups of UFO but without my camcorder. Master confirms my Black helicopter UFO event from last spring. “You know, the world is governed by the rich, and the police and military are owned by them”.

9-1-2011 Rom came and adjusted equipment on my right foot. Then my 5 fingers. Stuck a tube in my mouth that went into my heart. It did something? Got footage last night!

Jeff Regis

9-25-2011 New ETs called “Jeff Regis”. He is the only one on duty tonight. He is subbing in for them. Lots of footage the last few days. Showed maintenance man photos of UFOs. Jeff the ET help to fix leg and back pain by 80%. Not allowed to do 100%. He must follow rules. Jeff told me to go to the library. Said I’d find something I like. I did. I hit pay dirt!

9-28-2011 Got confirmation on **“Jerry”** the ET. I think? (see 10-1-2011) Need to be sure. If so, that brings the total to 6 ETs! Rom, Bowllock, Buzz, Abena,Jeff Regis, and Jerry. Should have logged it when they told me to. Waited too long. I forgot. Hard to recall info. So far, twice I felt like they were coming for me to land. Maybe it's a test? It felt real? I tell myself I’m ready. If they land I would not freak out.

10-1-2011 Jerry the ET is a brother to Rom in two ways: their spiritual mission to earth and by bloodline. Jerry from Venus too. Command and control job. Gets resources to where the UFOs are needed or working. Jerry works with about 25 other ships or ETs Confirmed he is real by telepathic contact. Rom sent a joke to me through Jerry. Jerry patched me into com-link and I thanked staff for all their hard work. I am now in contact with 6 ETs: Abena, Rom, Bowllock, Buzz, Jeff Regis, and Jerry. (see 9-28-2011, 8-31-2011)

10-9-2011 Talked with a mental health guy last night in the parking lot around 10:30pm about UFOs. UFOs put on a show for him big time! He seem to be into it.

10-11-2011 Lots of UFOs last night. ETs like to play games with me big time! They like to give me shit!

10-15-2011 Devices Rom installed on 12-28-2007 to help me with polio and tracking; also, they purify nuclear etheric radiation in my atmosphere, water and food. That is why Rom was testing my trash can which I keep by the dryer. Protective objects for earth's humans must be Constructed from the element and minerals of earth in order for them to blend with the frequencies of our bodies.

10-31-2011 Saw UFO control systems Telepathically. Saw pilot interface to AI of ship. Main system thought controlled. Back up system manual-just in case
AI goes offline.

11-6-2011 ETs showed up at about 6:30 am out my backdoor. Most times I don't film. It's hard to understand their cycle. If they get in my face I film. If not I just watch. It seems important that they let me know I'm watched 24/7. They like to follow me when I drive.

11-12-2011 Saw a UFO while babysitting last night. Lots of UFOs when I got home. Shot footage.

11-20-2011 The ETs never give up once they commit. They are always on guard 24/7 around me. They are never lazy. They are relentless in their duties. They love it when I play with my grand kids. The ETs are extremely shy. Their nature is playful. My sense of reality has been tested. I've seen and heard things so strange and wonderful. I've seen great displays of their knowledge! They are very kind. But I just don't understand their actions or friendship. I clearly see the cycles and patterns but I don't grasp their reasons.

11-23-2011 ETs came and adjusted my equipment last. Without their help I'd be in a wheelchair.

11-28-2011 ETs are always watching me 24/7. Been shooting footage off and on. When I sleep the ETs show me their UFOs flying in the sky. Not sure Why? While I am dreaming they Telepathically show me their ships.

12-1-2011 ETs adjusted equipment. They touched me a few times. I was chasing a UFO in my car last night. Shot video. At some places it felt like they wanted to land.

12-4-2011 Shot UFOs last night. Imagine a 360 degree circle cut up into 4 parts. UFOs can cut off radar waves to any part. For example, if the North part is blocked out the people from the south could still see their light ship morphing. The people in the north would not see zip. Also, UFOs can transform into clouds, telephone poles or mailboxes at Will. I have seen this. A normal human wouldn't have a clue.

12-5-2011 Shot UFOs.

12-9-2011 ETs digging up problems from my subconscious while I'm asleep. Never thought that was possible. They can explore your subconscious history.

5 Stadium Light Poles

12-14-2011 The ETs love to play games with my sense of reality. They pretend to be clouds, aircraft and light poles within the stadium where I live. The other day I filmed 5 light poles. There was a bright spot lights Shining in my backdoor. Went I walked over to the parking lot I saw the poles I thought I was wrong. A few days later I noticed the 5 poles

were gone? What the fuck? It might have been real or it may have been a dream. But I swear that there was a bright light on the pole near my front door. I checked-not there now! I have busted some UFOs trying to fake me out. Also, I'm seeing a lot of light phenomena. **(see 12-4-2011 share vol 30, #10 confirms UFOs can disguise themselves as clouds.)**
Also, all objects in our world have a etheric counterpart.

12-19-2011 Recorded a song about ROM called "*you who*" with Ted lust. Song is very funny in places. That night ROM started playing peek-a-boo games with me. He was so funny! I think he may have liked the song. ROM said he has
his whole family on board his ship for training. ETs sometimes train with family.

Age Of Pisces Cycle Ends

12-21-2011 Telepathic message from ROM. "Big phenomenon coming in 2012". This will shake people up. UFO activities in the public's face big time.

12-25-2011 Went to my aunt's for Xmas with my sister and husband. UFO follows me. Showed husband a UFO with a rainbow sparkling chem-trail 4 or 5 UFOs Hanging around. Next day sissy husband tells me that experience shook him up.

1-6-2012 Tons of UFOs around me 24/7.

1-12-2012 While I was on my treadmill working out Rom and another ET came and adjusted the equipment on my body. They tweaked it for workouts.

1-14-2012 Last night a part of my equipment failed. ETs came and ask me to not cough. Said it would take and hour to build a new part which must be made from earth elements.

Spokesman-Herald

1-17-2012 Last night spirit came to me and said I've been recommend for a new post. I am to be "a symbol standing in the light". I am to inspire others towards change. I am to inspire a new system for society. This passion to serve and help comes from my soul.

Rom's UFO Video

1-20-2012 Did a gig with Tommy Jay and Mike Rep. When I got home Rom told me to Video his Ship. Http://youtu.be/i5pOpUztVpQ

1-31-2012 ETs came into my bedroom. Did two scans of my body. Also, deleted a file in my subconscious. (See log 5-18-2010 & 12-23-2010) ETs soaked up bad spiritual dust from my head crown. Lectured me about the role of human sex. I have a high level of creative force. As an ET contactee I have been passed to the next level. Not all contactee have passed. ETs say I have power and authority in my words. Others respect me big time. Mediation is the husk of the flower for me now. Effortless contact with spirit now. I will undergo a creative explosion with my art. People will be impressed.

2-1-2012 Bowllock told me about his wife passing. His son is also in the Space Brothers task force. His daughter is back on Saturn. I touched his pain. I was so thoughtless to ask. He still shared himself completely. I feel so sad about his loss. He is a good loving man. Now I know why he is so serious all the time.

2-7-2012 Spirit said things are changing. The old forms are being cleansed by fire. Next water will wash away the ashes and clean the foundation of

society. Then the new forms will start to grow. I'll get to see it start before I die.

2-10-2012 WOW! Last night as I was taking a bath Master Ben Crème touched with me. It was the first time that has ever happened. I think he may have bounced the signal off a UFO? Anyway, I saw him very clearly.

2-15-2012 Last night I was awakened by a flash of bright light. (Some shit was going down.) Rom said they are moving the fleet to the other side of the world. Rom said the ETs have upgraded their matter converters so they can go to one side of the earth or the other in a flash. Said there was trouble. ETs on red alert. I guess the pig file was to get me through a bad stress cycle. They were thinking about another file download but must have thought I could handle it (the next stress cycle) without it.

2-19-2012 Wow! ETs are back. I didn't think it would be so quick? ETs say "the government is watching you 24/7. You have been ID-ed as a contactee. All your movements are watched. You live in an ET zone. There is an ET base just west of you".

2-26-2012 Genuine contact with UFO confirmed. **(see Share international vol-31 #1 Jan/Feb 2012- Gerard Aartsen)**

The Zeta

3-8-2012 A new race of ETs called the Zeta (Purple-ish, Slug-like, Worm-like, Humanoid, Almond Shaped Heads with White Hair) They are building up my ability to understand other levels of Conscious. "You will grasp higher levels of understanding than ever before. The Zeta will show you things, as you requested, that most humans can not understand". In answer to my question, "when the lessor attacks the greater for the gain of power or knowledge, the greater will make sacrifices so as to contain or block the lessor. This is done in accordance with the divine plan or will. If the greater must lose it's life-so be it!" "When you talk to your soul about your future reincarnations the ETs get wow-ed out big time! It's a big big deal to them!" Call Rom's wife Sara. She will meet you in the flesh. Rom has traveled around. He has seen lots of other ET cultures. (NOTE: The Zetas work to build up the intelligence of humans and other ET Races)I made a request to build up my abilities to grasp some ET notions. The ETs responded with 3 dreams. After each dream they woke me up to review my understanding. These dreams dealt with ET history. I then ask about the source of all life. The ETs didn't know. They don't understand the absolute unknowable all either! They were stumped too. However, the ETs see it all-the good; the bad, the ugly in humans. They installed an anti-nuke device on my equipment. This will imploded the etheric nuke particles. **(Device confirmed on 9-28-2012 "here to help: UFO and the space brothers by Gerard Aartsen page 104)** ETs told me to go inside and not film due to dirty air last night. They love me very much. I told them I don't care if I go inside their ships or not. I can now send messages out to the fleet if needed. Rom said there are ET cultures that even he don't understand. The solar storm hitting the earth is

bringing blessings to the selfless and troubles to the selfish.

3-12-2012 ETs say I caught a hybrid cold/cough. Part virus, part bacteria. They used an etheric spray inside my lungs. Lungs better when I got out of bed, but, got a head cold due to damp wet rain last night. Important message-Said I will video landing. Want me to post what I have shot on you tube. ETs said my you tube posting problems will get cleared up.

3-26-2012 Rom says, "it all works out for the best. Let go and see where it takes you"

3-29-2012 (telepathically board Rom's UFO)Flew Rom's ship. Took a tour of the ship. Very clean and pure inside ship. Rom let me take controls. Saw earth. I couldn't grasp important question as to why they fake people out. Rom said I must be a 3rd degree initiate to understand why. Good telepathic hook up! Heard other ETs talking. Their world ain't nothing like ours! They play games with our 5 senses/reality. *Zero = one but one does not = Zero!* **(Refer to Kabbalah) The "ALL" = one, but the one doesn't = the "ALL"! "Disbelief proceeds belief.** Both must be built up. Without paradox the young soul would go insane! They could not understand or handle it. Their disbelief must be build up so as to protect the undeveloped mind. Paradox gives them a way out. But, with the developed mind paradox builds up the understanding and knowledge of things. I got a video of Bowllock's orange UFO last night.

4-1-2012 Played gospel show at church. Rom and about 15 UFOs show up as we left the gig. All during sermon, when the pastor was talking trash about giving "your life to Jesus" Rom kept fucking with P.A. system doing weird shit to the sound. Pastor was confused. He said they have never had problems with the P.A. before. Anyway, I was totally straight but by the time the service was over I felt like I had drop some really good acid! I was fucking stoned without doing any drugs! At 11 AM Going to the parking lot the UFOs were all over the place. The people did their best to blow them off! I video some and posted on YouTube I was supercharged by the time I got home and had a bitch of a headache! Rom talked with me at home about his culture.

4-7-2012 When I dream, or just before I fall asleep at nights, the ETs project images of their ships into my mind. It has been going on for a while. I've seen many different types of ships in many different places. Mostly in space or above the clouds.

4-13-2012 Dealing with selfish humans. ETs neutralize my negative thoughts about being treated so badly by others. Heard strange sounds in my sleep. Seeing 4 or 5 UFO ships to the west every night. Two are white stars. The big white one is Rom's ship. Also, every night to the east over my house is an orange UFO and three smaller multicolored UFOs. Was contacted by BBC on doing a program about Rom. **Cheyanne.Dillenberger@rawtelevision.co.uk** Seeing during daylight colors in the sky on the way home. Seems like I can telepathically talk to the ETs at will. Most of our talks happen at night. They said I was promoted to the next level of contact. Sometimes I get this strong feeling at night that they want to land or come closer. Maybe I am just fooling myself? It is hard to tell.

4-17-2012 The video I've shot suggests that the UFOs are coming in closer.

Spirit says I will get two new assignments soon. One I'll love the other, I'll hate. I'm in too deep to back out now. Sometimes I get afraid. No matter what, I'll have to deal with the fame issue. Funny, as a young musician that's all I wanted, but now, in my old age, I dread it! Fame brings out the worst in people! I thought I had a small role to play? Looks like my role got upgraded by spirit. They have been telling me my fame has been growing.

4-18-2012 Posted YouTube videos.

4-22-2012 Changes are coming for the better-some for the worst. You watch from a fence post-these are not your matters. You are going to the next level as a rep for the ETs. Take it as it comes. Don't worry about it just flow with it. (ROM telepathically show me the storage area on a ship)Saw packages go up and down. Kind of like UPS. Freight area. "Come on board AL, have a look around with Rom." Saw a map of the solar system with a 360 degree view. Still using paperwork to plan missions. Saw control room with stars in the windows! Rom says, I am to go on board his ship in solid form many, many times. It will get to be old hat. Rom will let me know before I am to board.

4-23-2012 I have my doubts about landing and boarding in my solid form. Yet, I have seen solid UFOs at night and sometimes during the day.

4-30-2012 Rom touched my arm. I thanked the space brothers fleet for helping us humans. I am now at 1.6 (initiate cycle) point of evolution. The ETs clapped after my thank you speech. I was able to grab Rom's arm while he was in the etheric state. I am being promoted by the ETs -go figure? ETs say I'm one of their better workers-go figure? I just focus on my mission to help others and duck the slings and arrows.

5-18-2012 (10 pm) Took a ride last night. ETs told me to go north. Out in the middle of nowhere with UFOs all over! I was pull over on the road side. They wanted to land but I said "abort" cause 3 cars were coming up the road behind me. Not comfortable with situation. I need first face to face to be private. Also, the farmers might shoot me for trespassing.

7-5-2012 Rom told me to post this: beginning the end of July and peaking the end of December of 2012 UFO Mother-ships will gradually start appearing over cities around the world with a population of a 100,000 or more. Also, telepathically tour the control room of a UFO mother-ship Saw about 300 ETs or so running flight control ops.

7-13-2012 Rom said I will see him face to face! Also, if a telepathic message takes a moment for my mind to figure out you know it's real.

7-23-2012 (telepathically) Saw wooden crate w/straw inside for scientific parts. ETs say It's safer to use straw. Saw a leather seat the ETs made for me due to my skin problems. Chair spins 360 degrees. Also saw engine room. Motor changes its shape with the vibration used. ETs said we'll take you on a sightseeing trip. This is meant to expand your mind. Rom will guide you.

7-25-2012 They want the US Government to know (NSA psychics/phone tap) so I am to talk about what is coming on the phone. Was told the West of Delaware

County Ohio is going to get destroyed by winds and storms. ETs also want a place where first contact can happen away from people in private.

7-27-2012 Forest location selected. That's where ETs will land. There's a small stream and pond. Closer to your son's home. Will take 5 to 10 minutes to drive there. Yes it will still be in Delaware County Ohio. (telepathically) Saw a pyramid shaped UFO Landed. Has a ramp. Saw Purple body ETs outside ship.

7-31-2012 Was recording a James Brown like funky song when I saw a coal-black small 3 foot ET with sea-horse ears appear in a flash. What a Surprise! Had to pause-then busted out gut laughing to tears. Rom was fucking with me! Later on saw the same ET change into white! Rom is a real joker! Will try to telepathically scan NSA psychics. Lt. Colonel Erie Smith. Underground bunker connected to White House Washington D.C., Was drafted Vietnam. Saw pals die. This helped his spiritual development unfold-his life sucks too! Brief him on face-to-face with Rom. He can call me on phone.

8-1-2012 Erie Smith scanned me 3 times! Plus, had 5 or 6 other psychics scan me too! They are gathering info on me about reports.

8-5-2012 ETs are allowed to neutralize negative thoughts and send you positive thoughts. 99% of the time this tool works on humans. It seems to be a main tool, This does not interfere with your free-will. If the ETs give me some info and I don't understand what they are talking about, but later I get it then I know it was a real telepathic contact. Rom is helping me find new place to live.

8-13-2012 Rom has 3 other contactees. 2 know zip about what's going on. One has a sense of Rom but knows zip also. Looks like later I might become a go between them and Rom. After I move I'll spend more face time on Rom's ship than with my grandchildren. Told Google will be replaced by word-of-mouth. Told word-of-mouth will become like TV or Radio. Told Rom's ship has Artificial Intelligence and it will teach me how to fly it. Rom will put the safety on so I won't crash. They want me to learn about etheric matter. ETs have blocked some of the NSA scans of me. This group of NSA psychics seems to be good people. If I forget some of the info Rom gives me He'll refresh this info. When I am in Rom's ship face–to-face others will only see me disappear-I'll still be there yet they won't see me.

8-15-2012 Fell out of bed. Hurt bad. Sore. ETs said they were sorry.

8-17-2012 Rom says, "You will come aboard I promise". A fleet of UFO ships protect and watch. Do not fear the NSA -They take their orders from us. There are a few bad psychics -NSA. Not your problem. Trouble makers. Sore losers. Hopeful but sore. The great watcher watches. He judges all the ET plans. Bad plans are rejected. New ET wants to be called "AM". (See Enrique Barrios book character Ami. Same being?) I will be working with "AM" when I go on board. Rom's staff; Lots of ETs to meet. "You will see our operations". One of the NSA psychics is Asian. Your ET

contacts will grow.

8-24-2012 It feels like the ETs want to land.

9-2-2012 Rom showed up last night. Ask if I was OK? He told me to “suck it up”.

9-11-2012 Rom plugged me telepathically into his ship by way of a etheric probe. I saw the probe in darkness. Kind of like being in a cave and in the total blackness seeing a shadow. Also, I could feel a pulsing wave of magnetic energy. The same feeling you get when your mother get you a loving hug. His ship is almost like a human person only much smarter than me. The sense of ship’s mind is hard to put in words. To interface you must be in a state of mediation. I just can not put it into words. ETs seem to think I can fly their ships with much more dream training. However, they can only train me in little bits over time. It’s kind of like reading all 5 of H.P. Blavatsky major works with understanding. Took me 20 years of hard study.

9-15-2012 Lots of UFOs sighting but no up close footage.

9-24-2012 Coming back from Columbus (3:45 PM No Clouds)UFO flashing Red & White in blue sky. *(Book: Here to Help by Gerard Aartsen says, **“UFOs Apparently bend the space of their location so as to become invisible”***, Also, **“UFOs are protected from intrusion of strangers by a circle of illusion”** Pages #78 & #79) For the last 2 nights ETs have been sending wave after wave positive energy. The ETs were out in full force today all day long. It was like they were saying, Hey we’re getting right in your face humans!

Shanna

10-4-2012 Filmed UFOs. New Female ET. No Name? But wow-hot babe!

10-13-2012 Telepathically toured UFO Weather Station. UFO Factories on Mars are running at 100%. However they can’t keep up with demand.

10-16-2012 Rom was looking for ions in my home last night. He found zip! He was puzzled.(an ion is a particle of matter moving in an electric field.)

10-17-2011 ETs keep showing me their ships, many ships, when I dream. Why?

10-18-2012 In Dream saw lot of UFO ships. They even play games with me in my sleep. I can feel the ETs scan my body when I sleep.

10-19-2012 Rom is working in Rocky Mountains. Trouble. He can’t fix it but is still trying. Fires causing pollution. We are showing you our ships for a purpose. You are being watched closely by the military. They seek info from you. You are a rich source of info. They track you 24/7 always. The dream testing is about developing etheric vision. On Mars demand for new ships outweigh production. Falling behind. Newer ships coming to earth for special purposes-clean up work. Build up of toxins in your air bad for everyone. You are protected from this. We keep your air clean. That’s why our ship are always there night & day. We follow you when you travel. We are on the job 24/7. 7 crews working with you off & on as needed.

NSA Psychic Spy

10-20-2012 One NSA psychic is an Asian. Maybe Dad was US military? Born on lower west coast of Japan. Has “WI” and “WA” in his name. Moved to Hong

Kong. Went to Stanford University. Did readings $500 a pop at Stanford to help with tuition. Grandfather in Japan show him how to make craved wooden chart. Used to track Sun and Moon when mediating. Helps with readings. Age 28. Black Hair. He tracks 4 of us full time and 2 other part time for NSA. I am one of the 4. Bunker on Arlington side of the river in Washington D.C. 2 other contacts live in Virginia (one is a trucker.) Last one lives in lower California. I am his main interest. He thinks I am funny. ETs block his scans most of the time.

10-24-2012 Was playing tag with Rom's brother Jerry last night. Jerry was trying to sync his UFO to my body moves. I call this "space tag". He tried to match me move for move. Funny! I kicked his ass! Lots of flybys last night. ETs still working in my dreams.

10-25-2012 UFOs will come in much closer. You will be amazed with details. This will continue for a while. They won't land yet-not allowed. Will come in 10-15 feet. You will see ETs in the windows. You will video a lot of this. You will be amazed. ETs consider you to be a good friend.

11-6-2012 Just got done playing space tag with one of Rom's staff. Had a blast! He tried to match my body moves with his ship. If they don't use their tech and just play mind to mind I can win! I can think in 3 motions paradoxical so it's hard for them to read my thoughts. I can thinks two moves at the same time! But over time they study and adapt. Rom said he is betting on his staff. What a blast!

11-13-2012 **Lauren James TV producer** contacted me for London England about Rom.

11-17-2012 Rom's staff is funny. They like to catch me off guard. Had 2 ETs checking my trash can around 10am. They touched me.

11-19-2012 ETs flashed me with blue light while I was driving my car. Talked with Bowllock He gave me info. He is so serious and reserved.

11-23-2012 Rom is so funny! I was mixing down a song I recorded and all of a sudden Rom added reverb to the mix! At first I was shocked! But then I broken out belly laughing because Rom's no George Martin!

11-26-2012 Was told out west an observatory watches ET/UFOs work on the moon. Mt Palomar/NASA. (This was before I heard of Adamski) Friends Tom, Jerry, Bill, Ted, and Jane all said they have been having strange dreams. Been playing games with Rom's staff. Big fun! Was joking about Rom's big eyes! "Jeepers creepers where you get those peepers. Jeepers creeper, where you get those eyes!"

11-29-2012 I beat the 1st UFO in space tag but this chick ET beat me real bad in the 2rd match. What a blast! (Shanna?)

12-2-2012 Have been playing space tag with Rom and staff. ETs are very playful. Have the black hats been at me again with attacks? Skin burning off/on last week or so. I take showers to stop it. 4 or 5 Mysterious phone calls a day now. I just disconnect the phone.

12-4-2012 ETs said the equipment has caused some kind of growth in my spine. This Will make my back sore sometimes but is very good for my nerves. They ask me if I wanted them to remove it. I told them no. Right now my

back feels great but I have noticed some days when I get up - soreness.
But it goes away quickly. Shooting video most days and nights. Told Alison (seeUFOsPa @ You Tube) about playing space tag.

12-5-2012 3 ETs came into my room to adjust my equipment. Next morning I woke up with a hard on! 1st time in a long time for that! Rom is so very funny!
He stuck his face right up into my face. For the 1st time I could see their light bodies. Not shadows in the dark like before. Rom said burning skin was caused by equipment. Rom is a joker big time. Way too much video footage. Seems like they are coming in closer. I think landing and training on hold until after Master speaks at the UN. After
that, I look for the next cycle of learning how to fly their ships. Maybe just a pipe-dream, but time will tell. Sometimes they keep me from filming their crafts. Was told that ETs have a form of money but it is not based on values like humans. It is based on "Meaningful Activity". All their needs are met. If they want something they put in a request. If it is "Meaningful Activity" to their souls they get it.

12-9-2012 Sent request to Steven Greer to attend a contact session. Most likely a
bad idea. Mer let me video his UFO. Http://youtu.be/HQXj-HvoaEo

MER

Rom showed me waves in 4 dimensions (time-height-length-depth). I saw waves within waves inside a "cube" of time/space. Each wave was of a different colors. They moved like ripples on a pond but in 4 dimensions. This is how they read the future. Also, they sync these wave patterns with the advice from the masters. All of this they keep on file within their computers. This is how they know what will happen before it occurs. I've agreed to learn this wave pattern knowledge in my sleep. Rom adjusted my equipment. I saw a flash of white light in my
nails. Also, they adjusted my sex energy. ETs made a mistake in understanding my sex energy in the past. They now understand it. Rom introduced me to a new ET from Mars. On Mars there are 3 classes (Gods,
those who are allowed to fly UFOs; and those who are not allowed to fly
UFOs) The lowest class live and work on Mars. This class builds UFOs for our solar system. "MER" is from this lower class. Rom is training Mer. Mer had trouble with telepathic communications with me. He was only able to show me a picture of his web-like hand. I was told he has an octopus-like shaped head. Rom says they are "*Bi-humans*" and are nicknamed "**Thin Skulls**". They wear a helmet like headgear for protection. Mer touched my arm. His grasp is like an octopus tentacle which he wrapped around my hand. He is almost boneless. Mer's spiritual
development is an exception for his class. This is why he made the team. Mer is humanoid. He has 2 arms,2 legs and a head. Bipedal. I'm not sure what Rom means by the term "Bi-humans". It does not have anything to do with the sex organs. Mer has not mastered Rom's UFO Tech
He is a student-trainee. I like Mer. He strikes me as an underdog ET. You don't make staff unless you have a good heart. Last night I had the

ETs in my room. NASA was scanning me because the ETS granted them permission. Also, the Master's group was checking in too. It was a very
Busy night! I could sense all 3 groups doing their boogies.

12-12-2012 Rom showed up and adjusted my equipment. He is a stand-up comedian! God, he is so funny! What a joker!

12-13-2012 Rom showed up and we hung out. I think he is testing me to see if I can
socialize when the time comes for me to go into his UFO. He is slowly preparing me one step at a time. 9:45AM. Saw 6 or 7 UFO in daylight with chem-trails A few of them flash their sun-lights at me to say hello. None of the other Xmas shoppers noticed.

12-16-2012 Was advised UFOs would come in very close at treetop level but would only allow me to see and film them. Other people will not see Zip.

12-24-2012 Might have had contact with a new type of ET? Energy being in 3 parts? “Ohm” is his name? Not Sure. Need to confirm.

2013

1-2-2013 ETs begin Stress Testing in my Dreams. Cycle of very strange Dreams. Sleeping 2 hours then awake for 15 mins. 2 hours depending of types of tests. Get up every 2 hours. Awake or dreaming I can control my reality by way of my will. Awake or asleep I can telepathically talk
to ETs. They’re beginning to teach me how to use my etheric body. They’re starting to show me their ships. While in a deep sleep I can see their ships Fly over my roof. I see probes and ETs come into my room. They wake me up and tell me to video their flybys. When awaken I can see “shadow beings” walking and talking to me in my rooms when the
lights are turned off.

1-7-2013 Mer put this bracelet on my right wrist. He said it will protect me in an emergency.(see 4-13-2013 ET killed)Rom said the old cycle is ending. New cycle of action (ET breeding program)is beginning. I don't understand. Rom said I would be invited to a UFO Event (See 1-28-2013) (also, Mufon speaker Thomas Wertman @ Westerville public library 3-10-2018)

1st Landing

1-9-2013 Me and a neighbor see a blue UFO ship in the stadium at 7:47 PM Jan 7th 2013. Http://youtu.be/QIy5jdqafCI Jane-Anne my daughter confirmed that it was a UFO Landing with her Orbs. I posted video of sighting on YouTube. She has been attracting balls of light that show up on any

photo she takes. She has a yes/no system for asking these orbs questions. She'll ask a question and if an orbs appears in the photo it

I mean yes. If not then it means no reply. The orbs only answer questions with a yes. Also, we have notice that there are human and gray ETs faces that show up in the orbs. Still having very strange dreams at night on & off. The many UFO ships I have been filming are making very strange sounds when the flyby. Saw a helicopter that sounded like a jet a plane flew over my head. As I was posting the landing footage on you tube three black (no markings) Chinook helicopters flew at treetop level over my head? WFT? Was able to get a video of their retreat.

2rd Landing

1-10-2013 2rd UFO Landing. The ETs can trick our 5 senses. They can block us from seeing or hearing them. They can make us see & hear stuff that isn't there. They change their ship and their bodies into any form they choose. Sometimes they use light rays, other times they use etheric matter. On the way home from my doctor's I saw Rainbow Cloud on a very a sunny day. ETs go out of their way to let me know they're around.

1-17-2013 More black helicopters fly over my home.

1-19-2013 ET tech can make an object that can not move appear to be moving. Janie's orb confirmed that the landings on the 7th & 10th were real.

1-29-2013 Ruff time with testing. Now being tested hard in both states. Can't seem to tell what is real and what is fake.

1-31-2013 The ETs and my Masters were touching my body last night. The frequencies were at different levels or channels. 2 distinct & different levels or channels. They both probed my body. They never did that before? The ETs then telepathically showed me the inside & outside of many UFO ships. I now firmly believe that I did see landed UFO craft on the 7th. Having a very rough time coping with my experiences lately.

Not sure what the hell is going on? Being pushed to the edge by the ETs

2-1-2013 The body probing on the 31st was a medical exam by the ETs and Masters.

Me and two other people are up for a new post? (ET Breeding Program. Did Not Known This at the Time)

2-4-2013 ETs still show me many of the ships at night when I'm in bed.

2-5-2013 ETs are making very strange sounds when I'm sleeping. They wake me up. Seems like they're playing a game with me?

2-8-2013 Phone in my bedroom making very strange sounds? WTF? Wakes me! Then ETS tells me to go out at night and Video flybys.

Squid's Shrink

2-12-2013 I told my shrink about seeing and hearing stuff. He wants to give me pills that will stop it. I hope he doesn't lock me up in the nuthouse.

2-19-2013 Looked in my kitchen and saw smoke! Looked in my front room and saw it too. Went to video it but nothing showed on the film? WTF??? Wow, ET Tech Rocks! Last week a UFO at White Castle Hamburgers.

2-20-2013 The smoke I'm seeing has to do with astral energy. My masters are teaching me about a higher level of magic, this is why I'm seeing & hearing stuff.

Chinese Lanterns

2-21-2013 Still seeing & hearing things. WTF? Are the ETs messing around with my 5 perceptions? I was driving and then for a few seconds I don't know Where am I? Was at the movies and when I got home I saw three Chinese Lanterns. They started to Float about 10 feet off the ground four apts down. Video some of it. They flew over the building by the stadium. Next they ascended up into the clouds and disappeared.(looks the same as the one Stan Romanek's video/Red Rock Amphitheater Denver Colorado December 2000)

2-22-2013 Having a rough time trying to figure out if what my 5 sense are telling me is real or not? I'm seeing from two distinct points of view at the same time? WTF? I know humans have one set of 5 senses! The question is Are there another set of "**Etheric Senses**"? I think these are flowering or developing now.

3-1-2013 In a dream the ETs ask me what it would take before I believe & accept the profound flowering of my 5 "Etheric Senses". I did not answer the ETs question. Yet, I'm experiencing fogs in my rooms;I'm smelling motors running, computers & TVs! I'm hearing weird sounds in my mind but can I.D. No physical source. I did not answer the ETs question. Taste does not seem to be affected. However, I've confirm that I'm smelling what people are cooking; or drinking beer many miles away. WTF? Spirit has been touching me all the time.

3-2-2013 Regardless of my not being happy about the flowering of my "Etheric Senses" the ETs keep right on my ass. This morning I woke up tired. I had lots of work to do. The ETs send positive waves and recharged my body. It takes the ETs about 5 minutes to respond to my request. Otherwise, it takes a few weeks to respond to my questions. (Confirmation of Etheric Senses in Share International Vol 32. #1 Jan 2013. page #34. "statue with a heartbeat") Just came from the store. In in the parking lot it felt like I had a very flat tire! WTF? Got out. No Flat! ETs fucking around with my etheric senses! WOW!

Breeding Program

3-4-2013 Shanna Female ET from Mars. Maybe wants to have a child with me??? WTF?

I saw an unexpected UFO on my way back from Marysville, Ohio. Perfect blue sky. No Clouds. Saw a UFO. It Flashed me with light as if to say hello! At first I thought it was males making the mind to mind telepathic link. But she said she was a female named “Shanna” and wanted to challenge me to a game of space tag. Space Tag is a game that the ETs and I created where they try to guess which of 4 moves I'd choose. These body movements are:Forward, Backward, Left or Right. Who ever wins The best out of three wins the match. For example, if on the count of three I move to the left and they move to the right I win. On the other hand if they move to the left and I move to the left they win. The ETs I love this game. I get challenged all the time by the males. At first I thought I was just fooling myself. I had been thinking about some personal problems at the time. After talking with her I thought I was just making it up in my head. I wonder if she really approached me? When I got home I began to think about this experience. If true, It wouldn't be like a human relationship. It must be a hand-sex kind of thing that Rom told me about. I was perplexed. WTF? So I just blew it off as a flight of fancy.(See 5-11-2010) **(Note:Kids were able to project into my mind while still in their mother’s wombs. Also, the kids hair, skin or eyes may or may not change over time. All kids have some type of subconsciousness and 3rd eye. Moms have no 3rd eye or subconsciousness except for Heidi.)**

3-6-2013 Did the ETs try to warn me about the Chinese lantern sighting when I as in the movies? (see 2-21-2013) They told me that a aircraft tracking me at the time. Was this staged by humans as a joke on me? If so, by who and why? Or was this part of the ET *“Coincidence Phenomena Training”???* I am now pretty sure I've played space tag with Shanna in the past before. (Note: Later on I saw the same Chinese Lantern UFOs in a Stan Romanek video on YouTube.com -so I bought two of his books and out of 72 common experiences I had 52 of the same type of experiences he had. I believe his contacts are from the Galactic Federation of Light which is outside of our solar system, whereas, mine are with the space brothers-our solar system only.

3-7-2013 Stopped taking my depression meds to see if it has any effect on the coincidence phenomenon training. I wonder if it will stop the experiences I'm having? I told my shrink about the meds. I need to ID the source of these experiences. Is it really telepathic ET contact?

3-9-2013 Not sure if medication is causing effects? Need more time to study.

Shanna

3-11-2013 My camcorder used to make this sound when I turned it on. Riding out to my friend Tom's I kept on hearing that sound but did not have the camcorder with me. WTF? When I got to his place I saw fog in the kitchen & bathroom but he didn't see shit! It is the same kind of fog I've been seeing them in my home lately. Seems to me that the ETs are causing these etheric experiences. It is not my meds. I can see etheric smoke. I can feel the etheric matter. I'm hearing and seeing shit. Last night as Tom and I were listening to his stereo it began to make some crazy out of this world sounds. Tom heard it too. Thank God. It's the ETs! I've agreed to the breeding program. Shanna is **140** earth years

old. She'll live to between 700-900 earth years. She is half Venusian and half Martian. She has Blue-golden eyes. Dark brown olive Italian skin. She is 5 foot 9 inches. Nice rack of tits! Flapper or Page Boy Hair style. Perfect body. WOW! Lucky me! Shanna will prep me for conception. Sex will be human like. She has to stimulate my physical body but it is the etheric sperm that is required. I don't completely understand how this works? It's kind of like having the best sex of your life with a force from another dimension. It is real and unreal at at the same time. She'll raise the child. She'll seek input and advice from me as the child grows. Shanna says I'm a perfect fit for her. I don't understand? She said the kid will check in as it grows up. They have “learning tubes” which teach the kids. Also, their machines watch the children while they are working. They start teaching the child at conception. The ETs are in 24/7 contact with their kids and each other.

In her culture they don't have marriage nor do they celebrate birthdays. She said it was OK if I married a human woman. It would not interfere with her motherhood. In her culture they mate. Some mating last a lifetime, others will break up and find new mates. Seems to me that their families tend to be large. She said her culture is about 2000 years ahead of my culture. (Note: Later on I found out my ET women really didn't want me with earth women. It hurts them just like it hurts earth women emotionally. As a human male it hard not to look at sexy earth women bodies. But, I have had to adapt to her culture. Privacy does not exist in Shanna's culture. They are all linked telepathically to each other 24/7. You can't lie or have negative thoughts when you take an ET woman for a mate. It hurts them too much. You learn very quickly who the boss is. They are task oriented just like earth women. Also, “my girls” are very “sneaky” but in a very positive way. But once you been with an ET you can never ever go back to an earth girl. Fine quality always beats out crap.)

1st sex

3-18-2013 Had sex with Shanna. No lust. We made adjustments. Shanna has 3 kids by two other ET males. The oldest does research outside our solar system. Her other two kids are in training for the space brothers. She is in 24/7 contact with her children. She says she needs the etheric side of my sperm to get pregnant.

2rd sex

3-19-2013 Had sex with Shanna. No Lust. She is studying human sexual response. Don't think this will work out.

3-20-2013 Shanna's birth cycle is six months. They have machines which are way smarter than I am to raise their children. She says the union of my world and her world is needed by the space brothers. She is in 24/7 contact with her kids.

Abena's Tours of Duty

3-22-2013 Talk with Abena She was the only one on duty and was using Buzz's UFO. She was a little bored. She said she had done tours of duty: **40 years on Mars, 20 years on Jupiter, 10 years on Pluto. Pluto has 2 factions who have been at War for many years.** She said it is much worse than Earth's Dark Ages. Abena is good friends with Shanna. Shanna started to study me in 2008. Abena said the fleet really likes me a lot. She says The fleet listens to my family a lot. Abena has order up a full medical check on my hands and overall health. I ask her how it was

going and she said “up and down”.

3rd sex

3-23-2013 Had sex with Shanna. How do I get Shanna with a child? Not sure how physical matter hooks up with etheric matter? I must be losing my mind.

Nobody is going to believe this.

4th sex

3-27-2013 While dreaming the ETS levitated me slightly while I was napping. Was at it again with Shanna. No Luck. Not like Human sex. No lust. Very tough to climax. Shanna tried very hard to please me. Earth women can make me climax. Says she likes sex with me. I don't really believe it. Maybe she is just trying to please me?

3-28-2013 Smelling shitty diapers. Still seeing smoke. Still hearing sounds.

3-29-2013 Master says Shanna looks at you as a kind-of mate. You can't understand how she sees you. She seeks to be all you need. Shanna challenged me to another game of space tag. Man this chick is frisky! She must be reading Playboy!

5th sex Bingo!

4-2-2013 Shanna and I hooked up big time last night-wow! I can never go back to having sex with a earth women again. We figured it out. My god! The only way I can describe it is the body, mind and soul of two people become one. I've never had sex like this before. It took about 45 minutes to come back down. I could barely move. Rom & staff are like her family so to speak. She doesn't want me there at childbirth. Says it is really nasty but painless.

4-3-2013 Shanna has turned into one hot babe! Frisky! She is 140 years old which is 22 earth years old. They have mates but no marriage. She is too good to be true! There is none of that earth crap like resources, possessions or money to worry about. Our union is based upon friendship. It's all about freedom. Sex is so fulfilling. She has become one sexy woman. She has been studying earth sex and now knows how to please her human. I'm so happy and free. She says we're a perfect fit. Shit I can figure none of this out? Buying new camcorder because the old one died.

Shanna's Background

4-8-2013 Shanna says her mother is from Venus. Her mom took care of plants & animals sort of. We have no jobs on earth to compare with her work. Her Dad was from Mars. Shanna's people don't have marriage. They do have mates and children. Her Mom & Dad are very old. I think Shanna's oldest My son is around 60 years old. He is just starting out in life. Shanna said she'll be with me till the day I die. Their machine raise the babies for the first 2 years or so. Shanna will let me play and hold our baby. But she put me on notice about playing “fighting” games. She doesn't want our baby exposed to human competition, war or greed. She keeps her eagle-eyes on me 24/7. It's like a Wi-Fi link with her. Shanna says I'm perfect for her. She'll be taking over Rom role as my main ET contact. Rom will still check in from time to time but it seems He has been reassigned to other duties. Shanna has been sleeping with me when she is off duty. She rubs my back or touches my face to let me

I know she is next to me in bed. It's hard for me because I can't buy her rings or outfits like earth girls. Candy & flowers are useless. The the only way to give her gifts is through my actions. I do a lot of things I find it distasteful to prove my heart is true. These girls work for me.

4-10-2013 Shanna calls me “Al” and not squid. This is a relationship with a being from a different dimension. She is not a “girlfriend”. She doesn't want anything from me. Money is useless. I can only give her my best efforts. Pure selfless emotions is all I can give her. We been fucking a lot. I can not ever go back to human sex again which is governed by money most of the time. Shanna culture has no money. All their needs are met. They never lack for anything. No supply and demand system rigged by the elite who hoard the resources. We are together as mates because we choose to create and raise a child for this soul to incarnate into. That soul might be from another solar system-I don't know. This soul will become a leader for the ETs. Shanna doesn't try to boss or control me. She doesn't care if I party so long as I keep my shit together. Fact is I'm a Grateful Dead fan! She has her space and I have mine. His/Hers approach is the way we do things. I think she wants me to meet her mom and dad. Also, to meet her other kids and X-mates. Once you have experience how much better her culture is than yours you can't go back to human culture, which for the most part sucks. I am so happy with her. She is the first woman who gives the way I give. She gives all and expects or needs nothing in return. I try hard to return the gift. This is the best relationship I could ever hope or dream for.
She must like having sex with me because we been going at it. Shanna, like all the space brother ETs, is relentlessly patient! Nor can I pull any “Murphy” on her. She knows all my thoughts, she knows my history, she knows my likes and dislikes. She keeps telling me I'm perfect for her. She says she likes sex with me. At first I didn't believe it, but now I do. She does not lie. She reassures me that I'm her old man. But in some ways she is like an earth female. Also, her Mom & dad, and other ETs and kids are plugged into our thoughts. They watch us 24/7. The freedom that comes from unconditional love is wonderful. I'm the luckiest man on earth. She holds nothing back. She is frisky, sexy and smart as a whip.

4-11-2013 At this time there are a total of three of which Shanna & I are just one mated pair. It is a breeding program. Shanna's Mom & Dad met on a gardening expedition. She has a total of 12 brothers and sisters. No divorce or marriage. They share their mates. Shanna is learning from me first hand about human relationships. She accepts the good of it but rejects the bad. At times she acts like a selfless mother who seeks to protect her man & children. This breeding program is really hard work! Not easy! But we will get there. She is just as real to me as my friends and family. Shanna respects me. She is so frisky-just like My granddaughter Madelyn is. I am no longer a Contactee. I have become her teacher, lover, student, best friend and adviser on matters of the

human heart and culture.

Three ETs Burial Rights

4-13-2013 Shit hit the fan while Shanna was on duty. She made a mistake from lack of attention and the A.I. Fail-safe on her UFO got overwhelmed and failed. It cost the life of three of her crew. She was crying and brokenhearted. She was thinking she would be kicked out of the space brothers. Normally I go out of my way to avoid the Masters in both hierarchy's. But this was my mate and she was in deep deep shit. So I asked for and was granted a meeting with the 7 great lords of karma. It would be the last thing I'd ever want to deal with in my life. It takes a lot of balls to ask to speak. But my old lady was in trouble. So I manned up. So I copped a huge wimp in front of the 7 great lords of karma; space brothers council of elders and Masters of wisdom (Maitreya's group). I still can't believe I did it! I told them that This was my fault and I needed to take the blame. I pointed out that she didn't intend to cause the loss of life. She just wasn't focus on her job because of me & her family. I begged them for mercy on her behalf. A few hours later the Wise Counsel rendered judgment. Shanna was banned from me and her duties for 2 weeks and must attend focus training on Mars. But she would be allowed to stay in the breeding program. I really hated speaking to the big wigs! I always have tried to avoid any contact with them but I had no choice, I had to step up for my woman. Knowing Shanna it is going to be a motherfucker for her to forgive herself for these deaths. I'll be attending the burial rights telepathically on Mars today at Noon-earth time.

4-14-2013 I just talked with Rom. Everything will be OK for Shanna. She must learn how to detach from her new found "earth feelings" when on duty. She is not used to these feelings at all. I turned her onto human lust and she got overwhelmed. But when she is on duty she must learn to leave it at the door. 3 ETs on her staff die inside of a volcano while She was in control of the operation. It was supposed to be a routine mission but the A.I. System got surprised by the volcano. Thank god for Mer's bracelet. I've been wondering what it was for? (see 1-7-2013) The bracelet allowed me to telepathically contact the 7 great lords of karma; space brothers council of elders and Masters of Wisdom (Maitreya's group) on Shanna's behalf. Also, Bowllock was telling me about these devices they carry on landing missions that provide them with your history, and advises them what kind of action or choice they should make contact situations. It is an advisory device. Another tool they carry on their persons during earth missions is a "De-nuker" which implodes nuclear radiation. Moreover, Bowllock showed me this device with light buttons that amps up their will power so they can become "solid physical beings". Shanna and I must learn to balance earth and space brother cultures. The ETs do respect the private thoughts & actions of others. They don't snoop around each other's private lives. Most of the time they do share everything but sometimes pain & sorrows are kept private. Just got a telepathic phone call from Shanna. She is with her Mother & Father. She wanted to check in with me to make sure I'm OK. She said it may take longer than planned to get back to earth. I asked how she was doing. She replied, "I'm doing better". Who

would've thought a being from another dimension would become the light in my heart? I would say that half of her culture is very earth like, while the other half is nothing like earth.

4-15-2013 ETS are switching over to daylight sightings.

4-16-2013 Buzz does not like Mars very much. He says it is too peaceful. He like action. Buzz is 320 earth years old. He lives about 700-800 earth years. He calls Neptune home. He has a daughter called “Iris”. He is no longer mated to anyone. He has 5 years left on his earth tour then he'll be reassigned somewhere else. There is this lake in Switzerland where he likes to land his ship. Rom, Abena & Buzz have taken over Shanna's earth duties for now.

Glowing Trees

4-20-2013 Video Trees glowing at Night. WTF??? Ted Lust's Farm.

ISA or Izzy

4-24-2013 Isa is from Venus. She is good friends with Shanna. Isa adjusted my equipment. Shanna was worried and asked Isa to look in on me.

4-27-2013 Shanna is back. Spent the night with me. Woopie! The tumor growing on my wrist is gone? ETs told me they were going to remove it. Shanna showed me how to merge her mind with my mind-wow! Shanna hears my thoughts 24/7. Isa is the one who keeps touching the back of my neck.

4-29-2013 Shanna got permission to materialize a solid body at some point in time for a 4 hour visit. Not sure when? Izzy and Shanna spent the night with me. I agreed to have a child with Izzy. Shanna is very happy about this. Izzy has two belly buttons. Izzy's birth cycle is 7 to 8 months. Shanna's birth cycle is 6 months. Both are planning to give birth on mars.

4-30-2013 The girls got permission to improve my eyesight. Also, they were allowed to remove a certain amount of metal from my brain to improve my memory. Izzy spent the night.

Izzy With Child

5-1-2013 Izzy is with child. They have to remove metal slowly over time. I have to grow new brain cells to replace the ones they take. Abena has two kids on mars ages 17 & 18 (earth years). They are in school. Met this Purple Worm ET from Jupiter. There was a disagreement about earth policy during a meeting on Mars. They took it to the leaders of the space brothers on Vulcan to decide. Izzy told me to answer all Punky Doodle's questions concerning the breeding program with a question at First, when the time comes for her disclosure.

5-5-2013 Izzy confirmed that Shanna was with child. She said I will slowly get use to my etheric body over time. One day I will master it. Izzy has one big brother on Saturn. I saw two future kids for Izzy and me-a boy and a girl. I'm starting to think more clearly now. Also, For now I have to keep everything on the “down low” about the breeding program because there are some “very bad humans” who will try to hurt me if they get wind of this.

5-10-2013 Master Sai Baba accepts me as a student.

5-13-2013 Izzy having a rough time with her pregnancy. Shanna is having it less ruff with hers.

5-14-2013 Shanna is a little blue. Both her mom & dad are sick back on Mars. She has a lot on her plate! In a lot of ways Izzy & Shanna act like earth women. They mate guard but never impose their wills on me. I hate to admit it but I do check out the earth “Bufu”. But I know my girls can vaporize me. Ha. Ha. It's hard not to look. Izzy and Shanna don't like it.

5-16-2013 Izzy said that other ETs outside of our solar system want to meet me. She said they are talking about me. Izzy is a very quick wit. She takes shots at me all the time. I guess I'll be meeting some new ETs. I met Shanna's mother yesterday. Great Lady. She is a sweetheart just like Shanna. Izzy wants me to meet her mom and dad. Shanna & Izzy talk about me a lot. Poor, poor punky doodle. Man is she going to get a wake up call one day.

5-17-2013 Big sun storm coming to earth. It will fuck with things.

5-19-2013 Shanna has 12 sisters & brothers. 9 are by one dad and 3 by another dad.(see 4-20-2013)The ETs are parking their UFOs inside my front door. I keep seeing etheric smoke in my home. Is it real? Or is it my mind playing tricks on me? Maybe it is a doorway to their ship? Talked with Shanna last night and got a better understanding of how she sees our relationship. I'll have to work harder not to hurt them so much. Izzy just can’t cope with my dark moods. I need to remember that our mind are linked 24/7. Got to give it up. Need to treat them better. They are more than worth it.

5-22-2013 Shanna is thinking about calling our son William. Last night a 3 foot a circle Orb of light appeared. I stuck my arm into it and my arm disappeared? Not sure what that means? Jerry the ET gave me a photo-op.

5-24-2013 Izzy is thinking about calling our daughter Angel or Angie I wonder why They are choosing earth names?

5-26-2013 We will call our daughter Angel or Angie.

Bark the ET

5-28-2013 Bark is in charge of my security detail. He is 35 earth years old and lives to around 400 earth years. He can float or walk around my home as needed. He has been a space brother for 2 years. He is half Mars and half Jupiter. He is looking after me. Like Bowllock he is learning about humans through me. He wants to call me “master”. WTF???

5-29-2013 Bark is more funny than Shit! He has a mocking sense of humor and is a hellion like me. Bark has sure got me & Buzz beat in that department. And we are some very funny characters! But we can't touch Bark because

he is outrageous! It is a great honor to be his friend! Stuck my hand into a black fuzzy orb a few times last night.

5-30-2013 Shanna said Storms are coming.

5-31-2013 Izzy said Storms are coming too.

6-4-2013 Shanna is a Lieutenant and Izzy a Private in rank? Need to confirm.

Mate with Barda (Pam) The ET.

6-11-2013 Shanna wants me to take **Barda** as a mate also. WTF? I am one woman. I am kind of fighting about it with Isa & Shanna. I don't know jack shit about her. I'm not comfortable with her yet. But I decided to make
The girls were happy and agreed. The girls said I would fall in love with her too. They say she is a perfect match too! I love Izzy & Shanna
but Sometimes they are a handful! Both have “buns in the oven”. It is hard on me to accept that they don't have solid bodies. Need to learn about Barda's background. Izzy’s child will be called “Angie or Angel Martin”. Shanna's Child will be called “William John Martin”. Barda has
Blond Hair and Blue Eyes. Both her birth parents were from **Mars**. She stands 6 foot 5 inches. I'm 5 foot 11 inches. Her mom and dad were killed in an explosion on Mars and Izzy raised her. Izzy is her mother.
Barda does inventory & stock room work. She processes requests and supplies for the fleet.

Undal (Marble) The ET

6-13-2013 Barda introduced me to a new female ET named “**Undal**”. She is from **Mars**.
Needs to wear sunglasses to pass as Earth women. Marble large eyes like
Rom and Barda. Barda's eyes are a dazzling blue-golden that just melts your heart when you see her. Undal's skin is a coal-black and kind of glows a golden color. Shanna & Izzy have been coaching Barda on how to deal with me. It's all too much for my head. Barda ask me to let Undal to join the breeding program! WFT! HELP!

Doctor Klark The ET (hybrid-ET/Human Baby Physician)

6-14-2013 Barda is so sweet and easy going. Doctor Klark and his staff of physicians will be handling things for Shanna & Izzy pregnancy.

6-15-2013 Both Izzy & Shanna are going through a rough work cycle. They are having bad days on the job. Both have snapped at me because of being with a hybrid child. Shanna takes zero shit from me these days. But, they are real, real good to me. First I need to get these kids out of the dirt then I'll try to put a bun in Marble's oven. Really, all I can
cope with three ET women. Not sure but I think Marble is connected with Neptune somehow.

6-16-2013 Shanna's hormones are affecting her emotions. We fought like cats & dogs because she thought I was hitting on some earth girl. Thank god for Isa & Barda. They calmed her down. It's hard not to look at Earth women. Got to keep in mind that the ETs know all thoughts. Shanna has been in touch with Jane Anne (Earth Daughter). Poor Jane doesn't have

a clue! If she did I would get locked up in the nuthouse! I just got to trust Shanna's judgment. I won't fight about it but if I think something is wrong I'll voice my thoughts. I love her way too much. She is too good to me, but sometimes she does not understand humans. We are a really fucked up, greedy and selfish race.

6-17-2013 Master DK said I need to work on my emotions with the girls. Don't go overboard. Keep better balance and detach more when I'm dealing with them.

6-18-2013 The ETs said some of the earth women I met at the gig wanted to fuck me. I was very unaware of that. Izzy, Shanna & Barda take real good care for me. We are adjusting to this four way relationship. On earth I'd be viewed as a bigamist. We are adjusting as Master DK suggested. I've noticed that the ETs have a Hurry Up and get it done culture. They don't play around when it comes to getting tasks done. Note: ET Tech can manipulate the mind's 5 sense data so as to make it appear that a "Stationary Object" is really in motion. Wow! Fuck Me!

6-19-2013 Oh Boy! I struck gold with Barda! She is full of surprises. Smart & sexy! Our relationship is growing. Izzy, Shanna & Barda own me. I am really a one woman man but I find myself with three ET women! No one is going to believe my story! Last night I had a very strange experience. I saw the "cardboard" and "plant leafs"" reflecting light like a mirror. WTF? Moreover, my living room carpet was reflecting light like a mirror also? WTF? Carpets, Cardboard and Plants don't reflect light. OK, what is wrong with this picture? Also, The ETs have been parking their UFOs in my bed & living rooms. I keep seeing fog. I keep seeing mist. I need to keep my big mouth shut about the girls. If I told my shrink about all of this I'd get locked up.

Witnessed UFO Sighting

6-21-2013 Shanna had a ruff work cycle. She really needed me. I had forgot that Shanna was coming but Izzy Reminded me. I was able to help Shanna feel better and let go of her stress. I nicknamed Shanna "frisky". Found out the following: **Marble (Undal) is Rom's cousin. Barda's** Earth birthday is: **July 3rd. Undal March 7th. Izzy April 2nd Shanna May 16th.** P.S. The ETs don't celebrate birthdays. It's just another day to them. ***(Note: Birthdays are generally viewed from 3 Points of Views 1.)The divine spark 2.)The soul 3.)The personality. Also, Birthdays are viewed from our solar system P.O.V. and then there is the view from outside our solar system.)*** Shanna gets on me about treadmill workout. Barda thinking about child's name (Annie or Roger John). People next door witnessed the UFOs I was videoing last night. Buzz was upset due to a mistake while on duty. ETs warning me about that NSA dude who ordered the Psychotropic attack back on 3-19-2010. He wants to know what is going on.

6-26-2013 Undal is 4 foot 2 inches, has four fingers, 2 belly buttons. She doesn't understand my culture very well. Barda, Izzy & Shanna are coaching her.

NSA Psychic

6-27-2013 The NSA dude made this Japanese Psychic break into my room last night to find out what I was doing with Barda. This forced the ET bigwigs to

bitch to the Earth bigwigs about the treaty violation the NSA has with the ETs. The ET security commander shut the intruder down big time. Bark hung around guarding us afterward. Next morning the ETs said that the NSA thinks I shut them down. Now NSA dude thinks I'm a really powerful psychic. I ain't shit! The ETs said the NSA dude got a three day suspension without pay. He may have left a "msconfig" file on my laptop called "Annie". Been fighting computer hackers all week.

6-28-2013 Shanna likes the name "Katherine". Her dad's name is **"Block"**. I Hooked up with Undal.

6-29-2013 A very beautiful multicolored star showed up at 3 am. This camcorder just doesn't film well at night. Laura the ET was flying the UFO. She introduced herself to me. Barda is thinking about Roger John, Annie or Scott as a name for our child.

7-1-2013 Master D.K.(**Djwhal Khul Lives in Lamasery in Shigatze Tibet**) said that not all the girls requests are needed. I need to learn how to say "No".

They also need to grow spiritually. I must admit I've been jumping through some hoops lately. I don't mind but I ought not to spoil them. I think what may be happening is that the ETs are setting up some new bloodlines. I'm missing out on some UFO close ups because this The camcorder does not shoot well at night.

Mate With Abena

7-2-2013 WTF? Barda asked me to mate with Abena! I don't want to! But I said I would. Way too many women to deal with! Besides, what going to happen to them when I die? I don't want them to go through that! That dude in Spain's breeding program is not ready yet. Abena told me she is **203 Earth years old**. That would be about **23-27 years old in Earth time**. Man, I'm not sure about what I'm getting my ass into! I can't even handle the 4 ET women I'm with. Let alone manage them! How could I make

Abena happy? First they stress test the shit out of me then when I pass

they ask me to take on more mates. If I learned anything it's that my girls are very, very sneaky, but in a real positive way! All this makes

me so sad. It hurts because I'm really a one woman man. That's all I ever wanted. Oh well!!! Rom told me he is **103 earth years old** and has three mating's before. **Sara, Sherry** and **Susan** that didn't work out. Wow?

7-3-2013 Barda is pregnant. Will know more later. These girls will be wonderful mothers.

7-4-2013 It is a son. We call him Roger John Martin.

7-5-2013 Shanna & Izzy are putting on weight! Very Fat. Not used to this. They normally have perfect bodies. They don't want me to see them like this.

Master talked to them about it. They got over it. They are just like pregnant Earth women. Undal is really having a rough time adapting to earth culture. She doesn't understand us.

7-6-2013 Bark keeps calling me master. Undal does not understand my feeling for her. She does not “get” why I love her. Silly woman. Maybe someday she'll figure it out. Izzy is way too good at taking care of me. Shanna loves me deeply. I'm her human. She's my ET mate. Barda is my princess. She is a goddess. Angie and William both spoke to me today for the first time from their mommy's womb. The ETs start their education at conception and by the time of birth are about as emotionally mature as a human 7 year old. At three human years old,they are about 21 years in Earth maturity. At that point most have graduated and entered service. Master told me not to force Undal's understanding of human emotions. Let her discover my feelings on her own. Also, Buzz is out of the solar system on mission. Also, William is due this October and Angie is due this November.

7-8-2013 Undal's black eyes are round and not too much bigger than mine. Humans might think she has a birth defect. Otherwise with gloves and glasses she could pass herself off as human women. She's not black but light skin coco. More like a Latin-Cuban woman. She has beautiful wire like Jewish hair. The girls say she is of royal bloodline. WTF? I didn't think that they had that? She hides her beauty from me. She didn't want beauty to enter into my decision to mate. She wanted me to think she it wasn't hot! She wants me to think she was black? I wonder why? It is easy dealing with females from another dimension. Talked with Angie. God she is way too cute! She is a little “Izzy”. She is a dead ringer for my earth grand-daughter Madelyn. William was sleeping. Shanna looks good pregnant. Barda said Roger’s soul is still coming into his body. Bark keeps on calling me master.

7-9-2013 Undal judged Bark. I stood up and pointed out Bark's job. Then me and Undal disagreed. She is getting much better at understanding me. I love Undal to death but I'll steer clear of disagreements with her from here on out. She's the boss! Had Shanna dancing to some Motown songs. She was shaking poor William! She is so beautiful. God I love her. Love my girls, love them to death. Will Roger be a genius ET?

7-10-2013 Marble is my Momma! Talked to Roger & William about “Harmlessness”. William listened. Roger wondered what I was talking about. Angie's due date is: October or November 2013. Williams due date: November 2013. Roger's due date: January or February 2014? I'm guessing. Marble's The conception cycle is October 2013. It doesn't matter if Marble has a boy or girl because it will be named “Alfie”. Wonder how long she'll carry Alfie?

7-15-2013 Bob Jones is a new ET up from Mexico on temporary assignment. Disagreements with both Marble & Barda. Barda is with a child. Not wise for me to fight. Everyone is locked into this program.

7-18-2013 Marble and I are good! Much closer now. Poor Shanna & Izzy are getting big. They seem happy but I feel bad for knocking them up. But that's what everybody wanted. Sometimes it seems like I've got no “Skin In The Game” and they are doing all the heavy lifting. I will try to be a good dad. William & Roger are my boys! Angie is my baby girl. ETs have been giving me lots of Photo-ops. Marble's is from a royal bloodline going back millions of years. The ETs' sense of royalty is based on the Philosopher-kings of Atlantis. She comes from a long line of “Wise-men” which goes back many millions of years. Our milky way is cut into four sections. In our section her ancestors have taught many races the star wisdom. Many other races have come to her ancestors for knowledge & wisdom. Barda is on Mars for training. Buzz is in another solar system on a mission.

7-19-2013 Roger & William are my little earth monkeys! They are very much like my grand kids Kenson & Madelyn. Angel is my pure sweet daddy's girl. She is the apple of my eye. She is just like my earth daughter Jane.

7-20-2013 Isa got a promotion to Sergeant! That means more dangerous work for her while she is pregnant with Angie! She gave me her word she'll be careful. My girls are cowgirls. They are Wild Indians! She worries the shit out of me but I trust her Totally. I must not get in the way of her Karma. Fuck It! Marble gets me now. She understands my feelings now. She had to test me to see if my earthly love was real. Royal blood means *“wise teacher of theosophical wisdom & love”.* Doctor Klark is 700 earth years old.

(Shanna is a Pisces/personality.) Not sure, maybe Leo/Spark? (Spark/Soul/Personality matrix P.O.V.) Also, Solar vs Earth P.O.V. Venus/Mars/Earth P.O.V. This conflict with log entry 6-21-2013 or May 16th Taurus date?)

7-25-2013 Undal has not told her mom & dad about the breeding program yet. They are not in the space brothers. They manufacture UFOs on Mars for the space brothers. Her dad is one of the leading engineers of experimental crafts. I'm not so sure they'll approve of me. She is working on an introduction. Poor Shanna is having a very rough time with her pregnancy. She tells me not to worry but I do.

7-28-2013 Dust-up with Shanna over kids. She doesn't want me taking them out camping when they are 1 year old **(7 years old earth time)**. She wants me to wait till they are 3 years old **(21 years old earth time)**. The girls are just trying to protect the kids (earth pollution). They are very cautious about earth culture (money & violence prone). Plus, I'm a *“grateful deadhead fan”* who likes to party. At least Captain Rom took my side. He supports me as an earth father. My big bro stepped up for me**. (See Howard Menger’s “From Outer Space To You” Page 130.)**

7-29-2013 Master M cut the girls telepathic contact off for about 7 hours last night. He **“sandboxed”** all contact to let the girls know that I am part of his ashram **(occult training group)**. He showed them how aggressive

they have been with me. He got the girls to see things about earth cultures that are strange, beautiful & good to them. They have been having a hard time grasping these things.

7-30-2013 Jane (punky doodle) my earth daughter has for the last four nights been have UFO sightings. She started out with “Orbs” of light in her home and how has been having UFO sightings outside her house. Also, I was told that there is a breeding program near Madrid Spain. Also, France and Russia may soon have programs like the one I am in. Not sure, but I I think they have a goal of about 100 children in all. Not confirmed.

8-5-2013 Hooked up with Abena. She asked me to call her “B”. Wow. She is very high class. She knows how to lead her family. Everybody respects her highly. I consider her to be more spiritually evolved than me. I really I don't know how I am doing this. Somehow, someway all the girls seem to be very happy with the situation. But I got to say I am really out gunned at 5 females ETs to 1 fat old hippy earth male. Barda has taken Jane for adoption. She now considers Jane her daughter. Jane will be posting her first video on YouTube.com soon. My daughter-in-law is starting to see “ghosts” inside her home. Doctor Klark told me he started working on my case in 1963 when I was 11 years old. Rom came on board in 1967 when I was 15 years old. But he didn't reveal himself to me until November of 2007.

8-6-2013 Abena is a Gemini.

8-7-2013 Izzy said a group of ETs from outside our solar system want to talk with me about our breeding program.

8-15-2013 Doctor Klark said that 1% of my DNA is from mars. It seems that around 1000 years ago someone from Mars mated with someone from earth. The ETs are trying to find out who. That was not supposed to happen. Somebody broke the rules!

8-16-2013 I was told that around 1000 AD. A male cadet in the space brothers was sent to earth for training. He met and fell in love with a teenage earth female. He lowered his vibrations and created a solid physical human body which he used to have sex with the girl. I was told that This was somewhere in Macedonia Greece on the Aegean. This is how I ended up with 1% Martian DNA! Barda is helping Jane to get good UFO videos. “B” was very happy last night. She was just like a little girl. I've never seen the child side of the “Major” before. But make no mistake she is a “professional all the way” when it comes to her mission. But it was so good to see her relaxed & happy!

8-19-2013 “**B**” is with a child! Woopie! If it's a girl we'll call her “Sasha-Lee”. And if it's a boy we'll call him “Jack-John”. “B” has Dark brown eyes. The ETs can make a stationary object appear to move.

8-20-2013 Jane has been asking Barda some very ruff questions. Jane is sniffing around for intelligence. She knows the game is under foot! As I was waking up in the morning I saw right through the walls & ceiling.

There was a bug like UFO Barda was flying. It had many rows of multicolored lights that flowed from the front to the back of the craft. Each row would blink and then the next row blinked. I never seen this type before.

8-24-2013 Talked with Doctor Bhock who is on Doctor Klark's staff. He is a ET master. Highly respected by the ETs. Master Bhock is studying Izzy & I relationship. Shanna is really having a bad time with the pregnancy. Jane is shooting some really cool UFO sightings now.

8-29-2013 “B” is going to have twins! Wow! Jack-John & Sasha-Lee Martin! Izzy had this very cool rainbow robe last night that glowed in colors.

8-29-2013 I met Ambassador Racnoo from the “me-i” system. He stopped by my home to shake my hand and chat. Wow? Go Figure folks!

Grandpa and Grandma

9-2-2013 Marble has been talking with her dad on Mars. He builds experimental UFOs. She told him about our plans to have a child. He is OK with it. Her mom's OK too.

9-5-2013 Barda turned me onto a Martian soup called “Rabbish”. It tasted lightly buttery and slightly like Lima beans. Also, had a sip of a fruit drink with 0.1% alcohol by volume.

9-6-2013 New ET Dish. Vegetable/Lemon/Lime with a chocolate berry pudding and some kind of other vegetable coating. Sweet like. Very good taste. They call it “Hib”. This dish is from Mars. Barda loves it. “Hib” is bread like and soft.

Gold Shots

9-8-2013 Shanna hasn't been doing well lately due to pregnancy. She takes good care of William. They talk to each other 24/7. She started educate William soon after conception. By the time he is born he'll be equal in mental ability to an earth child of 7 years. Shanna got a “gold shot” and is feeling great. She is back to her old frisky self. Rom calls me “sperm factory”

9-9-2013 Izzy got a “gold shot” from doctor Klark.

9-11-2013 Izzy had a very bad shift. They lost some probes. She was really upset about it.

9-14-2013 Barda gave me a new dish called “Ush”. Cheesy flour like bread with something like spinach in it. It is a martian pastry.

Moboo (Helen)The ET

9-21-2013 Abena & Izzy set me up! They are so sneaky! I should have known. They ask me to accept Moboo into the family.

9-22-2013 Moboo has coal-black skin. She comes from Jupiter. She is student-trainee botanist who studies the science, structure, growth and life cycle of plants. Bark & Undal had a dust up last night. Bark has a very funny sarcastic wit. Sometimes he doesn't think before he speaks. He

means no ill will. Man, Undal was upset.

9-27-2013 **Pam's** real name is **Barda**. **Marble's** real name is **Undal**. Moboo has the most beautiful blue eyes & glowing black skin. Izzy says she isn't like the other girls in the way she views things. She does things differently. Jupiter has a different culture than Earth. Moboo is a cadet in the space brothers and is still being trained how to understand humans. William will maybe be born in the next 4 or 5 weeks.
I was told there are other Contactees in France, Spain, Germany, China & Russia. Hopefully, someday their breeding programs will get going.

9-29-2013 Talked with Abena. Her boss is "**Box**". His rank is Overseer. His turf is the eastern half of the USA also. He is & 700 years old. He has done two 300 year tours of duty on earth. He does not wear the stander Space Brother's uniform. He likes to wear this 19th century English military jacket of the sort they had back in India. Also, he wears John Lennon type eye glasses and a long handle mustache. He is a dandy for sure! Abena let me plug into their communication traffic. She is now calling me "blubber boy".

10-2-1013 Undal has one brother.

10-4-2013 Asking for an image of Barda. Undal appears telegraphically in the image of a woman I used to work with 20 years ago named "Leah Peoples".
Maybe are they afraid I'll freak out if I saw her real image? I give up on trying to understand the ETs. Who knows what they want? Shanna not doing well.

10-5-2013 New replacement for Bark.

10-6-2013 Undal is pregnant. She has a younger brother called "Bodoc". Bark is back.

10-8-2013 Undal confirms it is a boy! Moboo's birth cycle is six months. Computer was hacked.

10-10-2013 Some women saw me videoing the UFO while her kids were playing. She got very mad at me. I thought she was going to kick my ass! I guess she is afraid of the unknown. Shanna was in her craft below the clouds and got piss off at the women yelling at me. I've never seen her like that before. A few other UFOs showed up and talked to her. They calmed Shanna down. I did not think the ETS could get mad.

10-13-2013 ETs will shift to daylight sightings. Hooked up with Moboo

10-13-2013 Moboo is "18" which is about "22" in earth years. Moboo is 5 foot 10 inches tall with blue eyes.

10-14-2013 Getting conflicting info from spirit & the ETs. Both are dead wrong.

This is not helpful. Have to depend on my theosophical training.

10-17-2013 Buzz is seeking a mate. Helen's real name is **“Moboo”** which means color lights. On Jupiter ammonia and methane crystals get a magnetic electric charge. They glow. It is sort of like earth's northern lights.

10-18-2013 Buzz removed a “listening device” from my kitchen.

10-19-2013 Abena's eyes are brown-black. Sort of the color of tree bark.

10-22-2013 This Wednesday or Thursday William will be born. He'll have have a human belly button and a second much smaller belly button.

William John Martin

10-23-2013 **William born @ 12:05 PM.**

10-24-2013 Her Mother gave baby blankets to Izzy. Shanna is checking on William every hour on the hour. She is very happy to be back to work.

10-28-2013 Moboo has chosen **“Sky”** for a boy or girl's name. Shanna said William likes to breastfeed.

Hadrots

10-30-2013 Roger on the moon with Barda. He is watching a creature called a **“Hadrots”**. I guess it's a chicken-like plant thing. Big dust up between Angel & Izzy over some toy that teaches space math. We'll work it out. Angel has got a lot of me in her. Bowllock will handle Williams training. I don't know their education system. Bowllock & William have the same sort of personality. Angel will be born between 20th & 23rd of November 2013.

Rom’s Kids

11-1-2013 Bad news-Rom & Sara have broken up. Rom is thinking about more kids. **Trix & Gule** (Rom's Kids) on the 1st Moon mission after graduation. I met a new Male ET named “Uhamma”.

11-4-2013 Izzy says Angie's birth will hit on the 22th of November 2013. Izzy is not doing well with her pregnancy. Doctors are putting equipment on the to help her cope. The girls are taking care of her. Barda say there are staff discussion concerning Jane Ann my earth daughter. Hopefully the ETs will handle bringing her up to speed on Roger. The girls take very good care of me.

11-5-2013 Angie is a very good baby. She is well behaved for Izzy.

11-9-2013 Moboo has three ovaries. The girls are talking about the best way to bring Jane Ann into the loop. I'm seeing rainbow mist fog. It must be dark matter or energy. I've been working with Etheric matter by use of my will. Trying to get the hang of it. It's harder than learning to play a musical instrument. Roger looks like the kid on the 1950's TV show “Dennis The Menace”. He has a cowlick hairstyle-my brown eyes. Just got word, Moboo with a child. Izzy will give birth next week.

11-12-2013 Moboo will have a girl. **Her dad is an engineer on Jupiter. Her mother is a homemaker.** She says the word for mother on Jupiter is **“Ool”.**

11-12-2013 Shit, more wrong information from the ETs. This is really fucking hard on me. Makes me question if I'm nuts! I can't think of anything worse that being a “headcase”. Fucks with my sense of reality.

Angie/Angel Martin

11-21-2013 **Angie was born @ 3:05 AM.** Scorpio girl? Everything looks good. Izzy had a very ruff delivery. The doctors only let me hold her for 60 seconds then rushed her off for testing. Then they put Izzy to sleep. Moboo told me she is afraid about giving birth to “Sky”. I feel so selfish at at the suffering I've caused. Angel has light brown hair, blue eyes and fair white skin. Weight: 7 lbs 1 oz.

11-22-2013 Angie eats like my earth grandson Kenson -like a horse! I'm a little worried about William adjusting to Angie. It took Madelyn a while to adjust to Kenson.

11-24-2013 Sneaky ETs women! Barda ask Abena to ask me to tell Jane Ann about the breeding project! My earth kids will have a rough time accepting all this. I hope they don't “Lock Me Up” in the nuthouse! Abena is sneaky too! So the bucks stop here! The plan is to get Jane in a public place where no one should be around. The ETs will then come in close, about two feet away. Jane will reach out to touch the craft. But she won't. After the shock of this experience Barda will slowly develop telepathic mind-to-mind communications. After that, when Jane has adjusted to the new reality I'll drop the bomb on her about the breeding program. Undal told me the reason she doesn't like her name is because her family teased her about it growing up. Her name means “Non-conformist” and her The family are all conformists! I pointed out to her that on earth “Undal” was one of the great Islands of Atlantis where the Earth philosopher-kings lived. She is beginning to see that names really don't matter that much. It is the person who matters. My soul & I seem to support the girls in almost all family matters. Angie is so beautiful. Abena said that Angie now has light sandy hair. Also, Angie is a chow-hound! William starts the “learning tube” this Monday. Their education system is setup so that after three years with a learning tube they graduate (Bachelor's Degree on Earth)and can join the space brothers or do something else. They train in the tube during their 2 hour sleep cycle at an extremely high rate of learning. They’re learning all about the Space Brother's arts and sciences. It is way beyond my understanding so I can't really describe it very well. Abena is up for promotion. There are three slots open in the eastern USA for “Assistance Overseer”. I guess it is a hard job to have. Hope she gets the gig.

11-25-2013 Spent time with Angie & William. Angie reminds me of Undal! She is a sweetheart but a touch high strung. William is my boy. Bowllock has did a great job getting him prepared for school. Angie is my heart. Daddy’s girl. It's going to take a bit for her and her mom to get a balance. It's great because Abena & Shanna are very helpful with Angel.

William 1st day at school. Hope he reports to me. Bowllock is **7** foot **3** inches tall. I asked him why he never told me. He said I never asked!

11-28-2013 William told me all about school. I'm spending lots of time with the kids now. I love playing with Sky, Alfie, Sasha, Jack, Roger, William and Angle. I give them piggy back rides and tell them stories. Angie Ask me to call Roger Ishbod! I said OK. Barda is so sneaky. These ET women are so sneaky but in a real good way. William is trying to figure out this kid from Jupiter at school.

11-29-2013 Izzy's Job is record keeping. She programs then collects probe data for analysis. Angel was playing a game. It is kind of like building block cubes with letters printed on all 6 sides, which teaches them the space/time alphabet. However these cubes are time/space cubes which Angie tries to push through a wormhole funnel. She was in this room of swirling energy which is generated by some sort of motor in the center. The cubes are made of energy. I had a hard time trying to understanding this experience. Angie was trying to show off for me. Some of the older kids were playing with a stick. It was a race to the goal line. The kids were jumping from dimple to dimple of space/time. The field looked like bubble wrap used for shipping by UPS. Each ½ dimple was a unit of space-time. The ETs use games to train their children.

12-5-2013 Rom new mate is “Sherry”. Angie loves to spend all her free time in the games room. Izzy says she'll become a pilot. Angie starts the learning tube in the 2rd or 3rd week of this December. A new substitute doctor called “Ra” has started working for Doctor “Klark”. Ra is from mercury. Ra will help to deliver “Roger”. Doctor Klark is taking some time off work. The ETs are working on three new replacement units for my body. This will be the last update. Angie bitched about metal dust in my brain. Ra got right on it. I was told the name of the NSA psychic assigned to me -Wen Chi.

12-9-2013 Rom and Sherry are going to have a baby. Per Doctor Klark, Barda's The delivery date is between the 15th & 16th of January 2014. Shanna wants me to tell Jane about the breeding program around the 20th of this month.

12-10-2013 Undal's nickname for Alfie is **“Apple''**. Alfie does not want me to call him “Apple”, only mommy can call him that. Alfie's growth cycle is slower than Angie & William's. Alfie will be at a 4 or 5 year old human child when he is born. It is the learning tube for Angie in a week or so. Moboo graduating from the space brothers soon. Izzy asked me a question and *my soul stepped in and blocked the Telepathic link*. Izzy had to report this to her bosses. She was shocked! Guess my soul is the boss of my personality – not the Girls. I was able to see my soul. It was like looking into the sun. Whiteness all over. This is not the the first time my soul has stepped in-between my personality and the ETs. Sky asked me to work out today. Jack & Sasha were jumping on my bed because I had set up some Xmas lights in my room. Moboo told me to chill-out about my relationship with her and Undal. Izzy's report has

sparked great interest among the ETs. **(Jack and Sasha were telepathically projecting on the bed from their moms wombs. This was before birth.)**

D.J Prophet's Gig with Kevin and Rudy

12-11-2013 Shanna is letting her hair grow. She told me that once back in 1986 she took a solid earth body for a few days. She reminded me of a gig I did with Kevin & Rudy. It was in the "short north" district near OSU. The The bar was called "D. J. Prophet's". I remember it clearly because the The band was having amp problems and people started walking out. My friend Stick Hoffman was there and he had just met his future wife "Susan". I remember very clearly that three women walk past the stage out the door. I had totally forgotten until Shanna reminded me. She had made an impression on me in those few seconds when our eyes locked.

12-16-2013 Dust up between Alfie & Undal. Barda's delivery date is now Between January 2rd & 3rd. 2014. Angie is really good at applied mathematics. William is really good at theoretical Mathematics. Moboo has graduated and now training for 2 weeks on the moon.

12-17-2013 I hurt Shanna's feelings. Must do a better job controlling my subconscious!

12-18-2013 Abena has 12 brothers & sisters in all. 8 are male, 4 are female. She was the last one. She says that I smell like vanilla sometimes to her. Moboo on the moon for 2 weeks doing communications training. WOW, the The breeding program just got new uniforms made just for us! The girls & Kids have multi-colored outfits. Izzy designed them.

12-23-2013 Shanna & I decided to name a girl "Annie-B". Undal agreed to name a girl "Oul" which means "heart of mars".

2014

1-1-2014 Tomorrow Roger will be born. Abena got promotion to "Assistant Overseer" for the East Coast. Found out that Bowllock is a commander.

1-2-2014 Roger John Martin born @ 2:42 PM. Told some friends about breeding program.

1-3-2014 Jane was supposed to have a telepathic link-up for Roger's birth. Didn't happen. I had a dust up with Izzy, Barda & Shanna about it.

1-4-2014 Shanna is sick due to toxins in earth's air. The doctor send her back to Mars for rest. I met her two youngest kids "Sybli" & "Iris". The oldest is in deep space and it takes about an earth hour for a message to travel to him.

1-6-2014 William introduced me to his school friend "Scott". His dad is human like me and lives in a fishing village just a few miles from Minsk Russia. Scott's mother is from Jupiter. Bowllock is Scott's teacher also.

1-7-2014 Wow, ETs got me stoned without smoking pot! I'm hearing sounds but nothing is in my apt. I sometimes can hear the ETs talking to each other. The ETs have shown me that I can smell things that are not there. The ETs made me pass out during Roger's birth. There where some

problems and they could handle me freaking out! Sometimes I have to step in between the kids and their mothers. I don't take sides. I know that my kids can be brats at times. They get it from me. But I also know that their mom's have to teach them their culture. It's not easy to be a hybrid child.

1-8-2014 Bark's old mate was “Cilly”. Guess he is into a new mate now called “Bud” I was told Bark was 24 earth years old. How is bark defining age?

Is he 35 years old by Mars, Jupiter or Neptune cycles? This is in conflict with other logged information.

Angie's 1st Solo

1-12-2014 I was sound asleep when I heard Angie yelling “Get Up Dad, Go Outside”.

So I grab the camcorder and video Angie's first UFO Flight Solo. She was in a three person craft with William & Shanna. I posted the Video on YouTube.com I am so proud of my little Angel! It was one hell of a ride!

1-13-2014 The ETs have a base on the moon that makes Element 115 or Ununpentium. I hope Angel gets into that special program for pilots. I saw Roger on a platform that spins clock & counterclockwise. In the center was a transparent dome with map levels in 3D. It was some kind of game he I was playing.

1-14-2014 Abena say reports on Angel, Roger & William show they are very advanced

genius levels kids. Wow! Barda made Sargent in the space brothers. Abena's delivery date is now between February 6th & 7th.

1-17-2014 Shanna says the girls don't have a 3rd eye. Nor do they have subconscious. She is setting up a recital for me to attend. Next year Angel wants Jane & I to wrap our Xmas gifts with the kids. William made

1st class. There are 7 classes in the ET educational system. The 8 class is like our masters degree and the 9 class is like a PHD. They wear smart uniforms that plug into the ship's A.I. System. Shanna may keep too close of a watch on William. He wants more freedom from Mom. They came to me with a disagreement. William is growing up so fast it's

shocking! He has learned how to work probes. I saw him playing around with a telepathic imaging system. Then he surprised me and showed me his face. He kind of looks like my grandson Kenson but with big curly hair. He has the same teeth as Kenson. He looked like a three or four year old earth child. Abena thinks I did a good job dealing with family

disputes. Roger rested with Barda, next time it's my turn. The family always shows up at night to talk about their day.

1-23-2014 Sky Blue has strawberry blond hair and light golden blue eyes. She has 5 fingers.

1-26-2014 Master DK wants me to teach more than ethics to the kids. He wants me teach them theosophical knowledge also. Man, do I have my work cut out for me. I must teach them about their “powers”.

1-27-2014 Military aircraft out of port Columbus Ohio tried to fly over my home. They were trying to spy on the kids & me. Bark shut them down big time.

They had some young psychic recruits from West Virginia. She had just joined their team. The ETs fucked with their equipment big time. The ETs amp-upped my mind to mind signal to that poor kid and I gave her a message. She freaked out! The aircraft skedaddled! Gone like a Nixon file! The ETs filed a complaint and put the Joint Chiefs on notice that

their Female General had violated the treaty. Its the 1st time in a few

years that the Black Hat stuff has happened. The General thought she could bend the rules. Angie & I are playing “Peek-a-Boo! I love You” as

a joke between us. Sky calls me “Daddy Love”.

1-28-2014 Shanna says there are 13 breeding pairs like us on earth.

1-29-2014 Working with my space kids. Sometimes they disagree with their moms. I'm surprised I can help. We work through all our issues as a family.

2-1-2014 Janie’s earth husband is on the warpath about her UFO contacts. He took

her camcorder. She's banned from talking with me. She has to see a shrink or he'll lock her up! Barda said she'll help Jane with this.

2-4-2014 William learned about probes in school. Roger is displaying my psychic ability.

Jack John and Sasha Lee Martin

2-6-2014 Jack John Martin born @ 5:17 AM. Sasha Lee Martin born @ 5:40 AM. Abena

and the twins are doing great. Roger showed me around.

2-8-2014 Izzy asked if I would be willing to learn how to lay my body down and transfer my mind completely into my etheric body. I said yes. If someone where to look at my body in this state it would appear to them that I was asleep, or resting. But I would not be there. I've study this. Charles Webster Leadbeater wrote some occult stores & essays on this subject. Izzy said they'll start out in my dreams then move onto the awake state.

2-16-2014 The girls are talking about how to work with Janie’s husband.

2-17-2014 Izzy and I will call our next boy “Im”.

2-18-2014 Shanna and I might call our next daughter “Annie or Ann Elizabeth”. Lizzy for short.

2-27-2014 Barda & I might call our daughter “Sassy”.

3-1-2014 Undal's delivery date:6:14 AM on the 3rd???

3-2-2014 Kids challenged me to a game.

Alfie John Martin

3-3-2014 **Alfie is Born @ 5:10 AM.** Sasha surprised me! The whole family showed up

for the birth.

3-6-2014 Moboo delivery date: 15th or 16th April 2014.

3-7-2014 Undal says Alfie looked like me when I was young. Was playing a game with Roger, Angel & William. Got my ass stomped.

3-10-201 Moboo Delivery date: 13th or 14th @ 2:00 AM. Was told the ETs have a treaty with the government to clean up a certain amount of pollution.

3-13-2014 Undal's uncle is called “Ought”. Alfie is a player like his sister Angel. Tried to teach William, Angel and Roger how to meditate.

3-16-2014 Sasha has blue eyes & light golden auburn brown hair. Her hair has waves like I did when I was 21. Roger looks more like Kenson. Angel looks like Madelyn. Angel & Roger have been assigned to Punky Doodle. Sasha has blue eyes. Jack looks like me but his wavy hair is a little lighter. Jack's eyes are brown like mine. Abena has golden blonde hair with a touch red. William has big curls, my hair color and Blue eyes. He looks a little like Shanna. Undal has Black semi-dreadlocks. She has small round black eyes. Her skin is chocolate brown. Alfie has brown-black hair. His skin is fair white. It's very white but may darken as he gets older. Sky has dark brown skin and hair. She has big blue eyes like Moboo Her hair is poker straight. Moboo has jet black Somalian skin. She has great big beautiful eyes that knock you off your feet. She is only 4 foot 9 inches. Her hair is wiry like a eastern Jewish women. She has semi-curls and her smile is devastating.

3-20-2014 Abena asked me to mate with one more female ET. I got extremely upset and refused.

3-22-2014 I agreed to mate with one more female ET. Abena said she is “15 years old”.

3-23-2014 Bark is leaving in August of 2014. Has a new gig outside the solar system. A new female Arcadian ET will take over security from Bark then. I'm really bummed. “Rabbish” is a light buttery lime bean like soup From Mars. It has a strange taste and most of the time they sip a fruit drink with it. (0.1% alcohol) It is like pizza & pop to them on Mars.

Heidi The ET.

4-1-2014 Heidi is the name of the new female ET joining the breeding program.

4-5-2014 Moboo's delivery date: April 13th 2015 @ 2:33 PM.

4-6-2014 Shanna & I will maybe call our next child “Onmuti” after the three ETs who were killed while she was on duty. God bless them. William does not like the name “Squid” but like “Squidfish or Nudge Squidfish”.

4-11-2014 Izzy says that they have a storage room off my bedroom where they keep supplies. Sky is born @ 1:46 PM. Sky Blue has deep blue eyes like Moboo, Coco-Brown skin & poker straight jet black hair. All the girls are now wearing earth wedding rings.

4-16-2014 The street lights around my home are normally orange or white. Last tonight this one was Pink. Also, some of the white street lights were green or blue. I am the kid's 1st assignment. The girls are teaching

them their ways.

4-17-2014 Abena is with child. Doctor confirmed it. We will call him “Robert John Martin”.

4-22-2014 Barda is with child. We will call her “Annie Marie or Ann Marie Martin”.

South Africa

4-23-2014 Abena & I will share Robert with this Human couple in South Africa who have a farm. In the mornings Robert will get dropped off at their home. At night we will pick him up. This way Robert will get cross-training in ET & human culture.

4-26-2014 Saw this ET female about 5 foot 4 inches, with purple hair in a sliver space suit coming out of the storage room.

4-28-2014 Rom is naming his new son “Al or Alfred”. His nick name will be Big Al or Little Al”. Asked me to be the child's godfather. Very Great honor! I'll get my kids to work with me on this.

Wild Bill's Encounter

4-30-2014 Talked to William about life. He had questions. I went to my friend's home who has cancer. During my visit William & Angie showed up. I introduced them to my friend “Wild Bill”. They spoke through me to Bill. My friend acknowledged them. As they talked The room was filled up with a very peaceful loving vibration. My friend could sense that The kids were there. Later that night me and William had a long Father son talk about Wild Bill. William had questions.

5-1-2014 Roger looks like me when I was a kid.

5-4-2014 Undal is with a child. We will name her “Baby Sun Martin”.

5-5-2014 I was writing about Angie in my log and she pulled the plug out from my computer! Ornery kid! My sister show up and took me to dinner and Angie came along. My sister has no Idea about my ET family. She does not believe in UFOs. Sissy voiced her opinions about relationships and Angie didn't agree with my sister. She thinks my sister is “mean”.

5-24-2014 Shanna & I are thinking about calling our baby Rose Marie. Izzy & I are thinking about calling our baby Benjamin Ray. Nothing decided yet.

Jupiter Etheric Trip

5-25-2014 I went telepathically with Sky & Moboo to her parent's home on Jupiter for a tour. The first thing I noticed was the rainbow like clouds which hold electric charges. Her home is near a mountain which has daisy shaped device on the top that collects & recycles sunlight. The device is connected to the power grid. They use the whole planet as a power grid for their homes. Moboo said her parents are living on Mars and only come back for vacations. It is always cloudy on Jupiter. I heard the wind through the mountains. It creates musical sounds. It sounded like Tibetan bell-bowls. The air took a bit to get used to. My kids are now sleeping naked -oh dear! Their mom's sleep in pajama like robes. Jupiter is a very colorful place. The buildings are steeple shape skyscrapers. There are lots of glowing rainbow colored lights

which the winds stir up. Also, the music sounds stirred by the winds are something to hear. I noticed that all the rocks surfaces are rounded & smooth like pebbles in a river. It is very peaceful there. Moboo said that Jupiter's underground rivers & streams are subject to tides. Her home even has a stream running through the basement. The water system is millions of years old. It was build after the last great war. The water system gets updated all the time. They make this food dish on special events by hand and place it into a cooker like device. When making this dish they are not allow to use any technology

5-30-2014 Today I was showing my space kid how to meditate.

6-2-2014 Izzy & the family want to name the baby “Scott John”. I agreed.

6-5-2014 Angel got into pilot training school. Her goal is to fly a 4 or 5 million man city ship. **Looks like trouble with that South African farmer family.** Not sure about them helping to train Robert John. Had to postpone a few times with Izzy, but last night @ 5:07. Izzy with a child.

6-7-2014 Sky got on me about my drinking! Oh Boy. I loved my Sky. Also, William got pissed off at me for having to break a promise. Got to make it up to the kids big time! Yet, I do like to party every once in a while. Looks like the master will put me to work after his UN speech. Izzy told me to tell Jane Ann on Barda's behalf that Jane will get her own Department with the Government. At first she'll have to work 2 or 3 months from 7am till 10pm 7 days a week. Her UFO sightings will stop during this cycle.

Sparklers in the Car

6-8-2014 Tommy Jay & I played a gig last night. On the drive home to Jay's place William set off some sparklers over the stick shift. He did it twice and Tom saw it but refused to believe it. I told Tom it was my son William playing games with us but Tom looked at me like I was nuts. Then I point out William's UFO about 2000 feet up which was leading us home. Poor Tom, He can't handle it!

Lo Lo Martin

6-11-2014 After much confusion & debate me & Shanna have a name for our baby girl- Lo Lo Martin. The whole family agrees. Also, I've been bugging Shanna about cooking for me. “Why should I do all that work when I can just hit a button?” she says. Gee, Shanna had a point.

6-12-2014 Shanna with child.

6-15-2014 Playing games with the space kids a lot.

Heidi

6-17-2014 Heidi is from Jupiter? (guess?) Heidi's skin color is in between Moboo's Jet Black & Undal's brown. She has Blue Eyes like Moboo She “might be” in school (Mission Training) but almost done? Not sure if she is from Northern Jupiter? Met Julie the ET who is a friend of the girls.

6-20-2014 Izzy got approved for 4 hours of solid physical form on earth. We will be in a public place so the humans can clearly see us together. I don't know when that will happen. I take it all with a grain of salt for now.

6-23-2014 Shanna asked me for 15 kids.

Alfie's Hat Ceremony

6-30-2014 Will Go to Mars on July 5th at Noon for Alfie's Hat Ceremony. This Royal Hat has been passed down for generations in Undal's family. I will give Alfie to his grandfather who will then take him into a special temple inside the great hall and confer upon him some Martian Family Magic. Master Maitreya, Master DK, Master H.P.B. And about 400 Guests from both inside and outside our solar system will be there.

7-2-2014 Abena is out of our solar system for about a month. She'll be in a city ship swapping out staff and bringing them back to our system. Barda has been very good to me lately.

7-4-2014 Video UFOs at Delaware County 4th of July fire works show.

Trip To Mars

7-5-2014 Alfie's Big Day! This ET pilot named Rox showed up. I went into a deep meditative state and he prep me with some kind of Blue & Red Radiation. Next he made a copy of my etheric body for the trip in his UFO. The The trip took about 3-5 minutes. I felt a weird humming feeling. I could sense movement. I was sort of like taking off and landing in a airplane. As I disembarked from the craft I saw this mountain with steps and columns carved out. There was a open huge door which led to a great hall. It reminds me of the Greek and Egyptian temples of earth. In side there was this amphitheater seating & tables arrangement of marble rows. The seating descended like our movie theaters. Everything was laid out in a circle with lanes that led to steps & a central stage. I was seated about midway on the right. On my Left Master Maitreya & Master Djwhal Khul (D.K.). On my right was Master H. P. Blavatsky. There were about 400 dignitaries from three main groups: Earth's, The Space Brothers(Our Solar System) & The Federation of Light (Other Solar Systems). I was served a vegetable dish that tasted like chicken/shrimp & drank some sort of fruit drink. It would make for a killer "Hamburger" back on earth. After we ate Grandfather ask me to come up and make a speech. Surprise, oh boy! I thanked them all for This great honor and grandfather asked me to bless Alfie. I said "let Alfie save many races" to which Undal cried. On Mars they don't kiss lips only the top of hands in public. Next Grandfather & Grandmother took Alfie into a special temple off stage for the transfer of magic from them to him. Master H. P. Blavatsky held my hand and commented that Master Maitreya & Master Djwhal Khul love to talk Philosophy with the other ET Masters of Wisdom. I'm not very comfortable being around these enlighten ones. However, I am getting better at it. As I was boarding the Ship I was told that Master Jesus had arrived late. When I got back into my body on earth I had this weird feeling of being in two places at the same time. Also, Abena's kids by her X-mate **"My"** are: **"Poll"** who is **Female**, and **"Tie"** who is a **Male**. I was told "Annie Marie Martin" will have Red hair and Blue eyes. **(see Howard Menger's "From Outer Space To You". Pages 84 & 85. Note: ETs use blue and red radiation to change Howard's body frequency so that it equals the UFO frequency rate.)See Theodore Flournoy**

7-10-2014 Had a major dust up with Moboo over nothing. Moboo wants to call our son Jax (J-axe). I wanted to call him Jax John Martin but will rethink it.

7-11-2014 Rom's son “Alfie” due date is 8-1-2014 @ 1PM. Rom's daughter Trix has a boyfriend and his name is “Clawn”. I have 5 senses which are 1.)smell 2.)sight 3.)hearing 4.)taste and 5.)touch but my space family rarely ever works with these. The space brother mainly work with my 6 etheric senses. I've noticed that this 6 sense has greatly expanded over the last few years.

7-14-2014 My grandson Kenson is displaying psychic abilities. I think that my ET kids have been playing with him. Barda is teaching Roger to fly a UFO. Abena will be back August 1st from that other solar system. Sasha & Jack misses her, me too.

7-15-2014 Barda & Moboo stressing me out. Having Relationship problems.

7-28-2014 Seem like the ET females are becoming more human and I am becoming more ET. Jennifer Martin my daughter-in-law is having an impact on the space family.

7-29-2014 UFO postings slowing down.

8-2-2014 Moboo and I are thinking about these names for the twins. Jax, Peter, Paul & Light. As it stands the ET are doing flybys to monitor pollution levels. Moboo was been working on a stand alone pollution station to be laid out in a grid which will cut back on flybys. These stations will will report 24/7 on the status.

8-3-2014 Rom & Sherry had their baby boy last night. They changed his name at the last moment from “Alfie” to **“Jeff”**. His name is **Jeff John**. **Jeffy** is my godson. ETs told me I was going to get a hell of a UFO posting for YouTube. Jane was told it was a “landing”.

8-5-2014 Heidi told me she has spent 6 months on Earth in solid form. She has had sex with earth men before. She want to call my child Sara Ann. I agreed. Is she from Jupiter? Is she Tall? Brown Skinned?

Heidi Update:Birth 1549?

Heidi told me she was **465 earth years old**. She lives about 900 to 1,200 earth years. She has had 3 major tours of duty on Pluto: 20 earth years, 30 earth years & 60 earth years. Heidi is about 5'12” or 6 feet.

She has Blue Eyes & Blond hair. She looks totally human. During her 60 year tour of Pluto she worked with Abena. During her 6 or 7 month tour in solid form on earth she met “Tom” while hitchhiking to the first **Woodstock Festival**. She got to see Jimi **Hendrix play**. She loved Tom very much and wanted to have children with him but when the strange

UFO
stuff started happening around them. Tom freaked out and dumped her. It broke her heart. It took years to get over the sorrow. Barda says Heidi has no rank. The girls don't know what her rank is or what she does. Heidi says she can have kids into her 700s. Her mother was from earth. Her last reincarnation in the “1300s AD” means something in her life cycle. Her mother mated with a Male ET from Mars. But she was raised with her human step brother & sister on Earth. Her mom later mated with a human who had his own kids by another earth woman. At age 15 her Father took her to Mars to live with him. Heidi traveled around a lot with her dad to Jupiter, Uranus,Neptune & Pluto while growing up.

She also traveled out of the solar system on two 5 year missions. Also, in the early 1960s she worked on Earth as an Adviser. Not sure if this was in a solid body or not. She told me that, “When you go and stay in a world you take on some of its DNA.” I know this because I've taken on some of my girl's DNA. **(See Howard Menger’s “From Outer Space To You” Page 135.)** Heidi is around 160 LB. She is a very sexy woman. She has been studying my earth grand-kids. Heidi is very good friends with Abena

8-10-2014 Alfie showed me pictures of himself. Alfie Looks like a child from India. Killer looks. Brown skin. So cute, so sweet. Me and Roger played chase and grab. Moboo cheated and hid Roger from me. She helped him by blocking my scans! Sky wants to study minerals. William has been unkind to some of the others. Shanna ratted him out to me. Jack took my side in an argument with Alfie & Roger. Jack John is so sweet, he is my hug-bug. Jack will tell me when it is time to tell the world about the breeding program.

8-15-2014 Angel, William & Roger showed up last night for a photo op. I'm so proud of my kids. Heidi & Moboo to undergo a Medical procedure so as to release two eggs in their next cycle. We want twins. One boy and one girl. I'm a lucky guy. I am mated to 7 ET females now.

8-17-2014 Heidi's names for kids are Elizabeth Ann & Tommy John. Tom was the dude who dumped her.

8-18-2014 Moboo's names for kids are Jax & Blue Moon. I was thinking Tod, Toby, or Toby Tod but it is her call. Jane Ann is getting great UFO footage.

8-19-2014 Playing games with the space kids a lot! Their great kids! Very ornery!

Jane has been seeing balls of light. Barda is taking great care of the space kids. The girls are very good about sharing time with me. They take real good care of me. I think the focus is now about getting my babies out of the dirt and not so much about posting UFO footage. Not sure what my role will be down the road.

8-21-2014 These space kids of mine are very slick! They're so smart & quick! I'm totally outgunned. And yet, I'm their dad. I try hard to instill Theosophical notions in the stories I tell my kids. I worry a lot about my space family. It is just part of my path. The love inside me is so overpowering. At times I have no idea how to keep it together. 7 women

and 12 space kids into it I just can't understand my soul's choices. So, I shut the fuck up and just do what my soul asks. But, I worry. My The path is a mystery to me.

8-22-2014 Heidi told me when she was at Woodstock with Tom she did LSD and smoked peyote while hanging out. WOW!

8-25-2014 Barda introduced me to Sonya the ET. Barda is on extra light duty until Annie Marie is born. All the girls are getting “Gold Shots” to alleviate any discomfort from being pregnant. It is much harder this time around for the girls to be pregnant. Alfie wants to talk to Jane Ann about letting me “love” on her more. I wished I could love on my earth kids the way I “love” on my space kids.

8-25-2014 Poor Sky! Moboo got on her about Sass!

8-27-2014 Heidi's stepmother **Margaret** is 900 earth years old. Her Dad **Jim** is 700 earth years old. Jim does construction and Margaret does propulsion systems. They are not in the space brothers but they do work for the space brothers. Heidi was born a human being like me. At 15 years old her dad came and took her to live with him. When Heidi was 30 years old She was allowed to join the space brothers. The culture which the space brother nurture and promote is the point of view that all step parents are the same as biological parents. That is all moms and dads are equal within the families. It's more like “moms & dads” than “mom & dad”. Everything is done by committee. But make no mistake, they are the bosses.**(see John Winthrop: "History Of New England" 1630-1649 2rd Gov of Mass. see Share Mag:Jan-Feb 2012. Jan 18th 1644. 1st UFO Reported Public Sighting.)**

8-28-2014 Heidi was born into a *Quaker-Presbyterian family* on the east coast just **north of the city of Boston**. Her earth mother's maiden name was **“Brown”**. Her earth stepfather's name was **“Jeffers.”** My best guess as to Heidi's birth date is around **1549?** Not born in the “1300s AD”. What does it have to do with her family history I do not know. She was not born then??? Heidi says I would be afraid of what she does. Whatever it is has got to be pretty heavy. **She was born a physical human being like me. So, how in the hell did she become Etheric?**

8-29-2014 Heidi told me that ***her physical human body is being held in stasis at a Tibetan Monastery.*** For many centuries she has worked & played in her etheric body. She might need her physical human body someday. The monks attend to her physical human body. They keep it healthy for her should the need arises for her to use it again. Heidi is a **3rd degree disciple**. The difference between Heidi and Master Maitreya is that the monks created Masters *“Physical & Etheric body by way of mediation”. Heidi on the other hand merely put her physical human body in stasis and switched into her etheric.* I know a little bit about how to use my etheric body, but all this High Technology is way beyond my pay grade.

Anyway, Heidi was born like all human with a Physical & Etheric body and mostly plans to re-enter her stasis body to die in. That is, she plans to die like a human. Her bodies were not created by the monks. But Maitreya's light body (Etheric) was. (**See The Book: "A Dweller On Two Planets Or, The Dividing Of The Way" by Phylos The Tibetan for Background Info.**)I I don't know what her job is. The day may come when I need to know. She told me that she was between reincarnation cycles in the 1300s. She said it was an important time in her path. It was a good time for her. She said that I knew her during her in-between time. Heidi might stick around for 50 years after my death to tie up any loose ends on Earth. "I want to make sure things are done right". Her birth cycle is 7 to 8 months long. If she were to jump back into her earth body she would appear to be 18 to 19 years old. She said that there are hundred-thousand stasis units around the world. Some governments know of them but only a "few" at the top completely know all. This information is on a need to know basis only. I don't know what it means but she says she is on a 34-35 month cycle and that the *The January 2015 start window is important.* **(Note: Kids Births in 2015, 2017 & 2018)**

8-30-2014 Heidi showed me her windowed casket filled with a golden fog. It was so thick you could not see her body. Each day a monk comes and recharges the stasis fog. Heidi says it take about 20 minutes to come out of stasis and about one hour to put a body into stasis. The monks can skip a few days if needed; and there are flowers placed around the casket.

Jane's Cell Phone Orbs

9-1-2014 The ETs are giving Angel Fighter Training. I'm not excited about it. The reason is that there are some ET Race where their technology is way ahead of them spiritually. These stupid races try to take technology by force of arms from the more advanced and enlightened Races. The ETs must be able to "stop or contain" these Stupid ET Races without the loss of life. The space brothers are not permitted to "kill or physically harm" these Stupid ET Race. So Angel must learn how to disable or disarm these races should the need arise. I am told that these Stupid Races are very limited in where they travel, and what they can do. The Space brothers only seek to block and contain. They never harm their opponent. However, they will not allow these stupid races to obtain higher technology. Also, I am told that there are very few of these races. Most are confined to their own planets. Very, very few travel beyond their solar system. There are treaties in place that protect the earth from them. Barda sent a probe for Jane to video on her I-phone. Http://youtu.be/8F5srJStM18

Heidi History

9-11-2014 One day back sometime around 1549 Heidi's mother and a group of women were in a canoe on the river fishing. While fishing they saw this big blue UFO in the woods. The ship had landed and was in solid physical form. Heidi's mother goes to investigate and discovers Jim & his

friend
just standing around. It seems that they were on a camping trip to earth. The friend was a pilot in the space brothers. Jim's job was to build & test new UFOs. The friend had suggested the trip to earth as a vacation. But the trip was “not authorized” by the Space Brothers who only found out about the trip after the fact. As one thing led to Another, Heidi’s Mom, later discovers she is with child. From what I was told this did not make village life easy for Heidi. Her first 15 years on earth were very painful socially. Heidi was born a 2.9 degree initiate. She must have seemed out of place for the culture of that time. It was not until Heidi's 15th birthday that her dad Jim returned for the child. At that time Jim took and drop off her physical body in Tibet with the monks for safe keeping.

9-17-2014 Heidi & I have chosen the names Tommy John & Elizabeth Ann for our kids. Our kids will be human hybrid “6 Root Race” humans. They will not have solid physical earth bodies, their bodies will be earth etheric. Heidi says it will take from 1 to 7 earth years for them to reach the level of development that my others are born with. **(Note: Confirmed. See Howard Menger’s Book “From Outer Space To You” Page 165.)** However, at around 14 earth years old they will almost be grown up. At that time, if they so choose, they can start to study for the Space Brothers, but they can not join until they turn 21 earth years old. Heidi was 30 earth years old before she joined the Space Brothers. She told me that, “when the time comes, she will re-enter her stasis body to die”. To be honest I'm not happy about these growth rates. **Undal** is **4** foot **9** inches tall & **Moboo** is **5** foot **9** inches tall. Anyway, a few days ago William came to me because Shanna was on his ass about his behavior. I was playing space tag last night with Angie, Roger, Jack & Sasha. They kicked my ass.

9-23-2014 I love William's sense of style. He looks like a human teenager. All he I needs is a cell phone! He is now about 5 foot 7 inches. He looks to be 14 or 15 years old. Good looking.

9-28-2014 Abena & I will allow Robert John to be trained by the Master of Paris France. The street where he will go to school 5 days a week is in the south-end on La Sine. Last night the ETs installed the last update for my post-polio. It is a thin bracelet on my wrist and replaces all the bulky equipment I use to wear. Moboo's parents are slowly being brought up to speed on me. They are seeking to understand Sky -Ha Ha Ha! All I can say “Good Luck”! Doctors have Barda on light duty. They have confined her to a chair. Barda takes Annie swimming. It helpful to her pregnancy. I asked Abena to take Robert with them too. Baby Sun due date is early November 2014. The space kids dog me about my eating and treadmill workouts. Sky wants to study mineralogy. Master D. K. to teach Tommy John & Elizabeth Ann at his temple in Tibet. Jack John is my “Love Bug”. Sasha wants to study chemistry. William John has been earmarked as an Administrator. Angie wants to be a pilot. Heidi said her stasis body will also appear pregnant to the monks. But it will go back to normal after her birth. The monks will move her stasis body to Master D.K.'s temple for the birth. D.K. Will be Tommy John &

Elizabeth Ann teacher. Bowllock does a great job as a teacher. I'm thankful for his help in training the kids. Jenifer Martin (daughter-in-law) is beginning to ask questions about Angel who is making himself known. I wonder who will break it to Jenifer that Angie is my kid. Will it be Angie? Jane Anne? Me???. The girls tell me that the kids hide their bad behavior from me. The girls bitch about the kids' human behavior to me. It is my fault because I'm a very ornery role model for a dad. But the moms ain't playing around. It is not wise for me to defend the kids behavior. The girls want to make sure that these kid fit into the space brother's culture. **Iris** is Shanna's oldest daughter. Her name on earth means **rainbow & star**.

10-1-2014 **Iris** is a medical worker or **nurse** on Mars I think. Shanna named her son **Sybli** after a wave cycle of positive energy that hits Mars, Jupiter, Saturn and sometimes Uranus. I'm not sure about their jobs.

10-2-2014 The ETs have installed com-links on the top of both hands. They are small and oval shaped. This will help the Masters upload the data they need. Moboo with child 8:22 AM. Jax (J-axe) & Blue Moon.

10-5-2014 Kenson John Martin my grandson tried to ignore Roger, Alfie & William who wanted him to get up and play. Kenson is stubborn and just blew them off. He wanted to sleep. So the space kid turned on the TV & room lights. They wanted him to play but Kenson wasn't agreeing. Kenson plays with the kids a lot. The plan is for Angie to bring my son David John up to speed on the breeding program. Shanna will tell me when to confirm it to David. Angel plans to have lots of solid physical interaction with David at first. Then it will be David's job to bring Jenifer up to speed about the breeding program later on. Visitors from out of our solar system are coming to see Jane Ann. Angie asked if she could wear an Earth wedding band like Jennifer. Shanna said it was against Space Brother rules. I got Angel the “OK” if Angel is off duty.
I talked with Iris about her mother Shanna. She was asking question about our relationship. I told her to “beware of Humans”. Some humans are cool but most aren't. I like it when she checks in on her mom.

10-7-2014 Heidi's father Jim is old & sick. His Martian name is “Proshack” and means Earth-soul. Sybli is leery of me and humans but Iris is working on him. The Space Family is worried about my upcoming operation. The ETs told me that the “Lilly flower” was brought to Earth from Mars. Moboo has been working on a pollution station which will be laid out in grid fashion around the world. On Mars they are building 5 million of these devices for deployment on earth in 2015. These stations will only have to run at 30% capacity but it will free up man hours on UFO flybys. I was told the old ones which are on the UFO crafts are taxing out at 100%. This will give the ETs more control over the pollution levels on earth.

10-8-2014 **A** Shanna’s soul ran into problems with her X-mate's soul concerning inflexibility. Her soul and his soul began choosing differently. It

was
a deep wound. They had to let go of trying to force change on one another. I pointed out that she has remained true to her soul. Sybli takes after his dad and I try to get Shanna to let go & kiss the inflexibility. Shanna is my woman & I adore her. Iris was very helpful in this and our friendship is growing. Iris is becoming my daughter.

1540. USA. North of Boston Private UFO Report

10-8-2014 **B** Heidi wants to take me to the Boston area. She wants to show me the land of her birth. She wants to share her history with me. Note: Before the Mayflower Compact, Roanoke Colony or Cuttyhunk Colony John Cabot A.K.A. Giovani Caboto had explored this area with a 1540 map by Glacomo Gastaldi. Cabot sailed on the "Matthew" out of Bristol England in 1565 possibly with Lancelot Thirkill, Thomas Bradley & John Cair on a 2 year expedition to the east coast. There is a 1639 UFO contact Report of Mr James Everall and 2 friend on Boston Muddy River of a Glowing UFO in the shape of a Fly pig. This report also describes missing travel.**(Note: Heidi was studying on Mars at this time - 1639)**

10-15-2014 Angie is starting to work closer with Jennifer.

10-17-2014 Alfie John Martin solos in a UFO -Alone!

10-20-2014 Abena's kids by her X-mate are Pol & Tie. One is Female & one Male. Tie is the younger male. Both are currently stationed on the Moon conducting surveys of high and low gravity areas. Me and Shanna are having a conflict. No one one is at fault. Sometimes the universe works against the harmony we seek to create. This seem unfair but we must keep in mind that the good & evil are two hands folded in pray to divine will.

10-22-2014 Just had my 2.0 Initiation. Heidi told me she is a 3.0. Shanna says she is a 1.5 initiate.

10-26-2014 Heidi asked me to mate with Susan the ET. I have concerns.

Susan

10-27-2014 **Sara Piket** is a human like me from Paris, France. She will help educate Robert John Martin after Abena gives birth. Sara Piket is in The Master of Paris Ashram or lodge. The Master is a 5 degree initiative. 3 weeks after Robert John has stopped breast feeding he will spend his weekdays in Paris. Not everyone in the family agrees. Heidi is sorry about it. I'm having a ruff time with it. To be truthful 7 women is all I can handle. I'm OK with these 7 women having more kids but to take on Susan is too much.

10-30-2014 Rom will be training me on public relations when & if the time comes. There will be two types of seekers I will have to deal with: 1.)Those who will have to fight for their knowledge, and 2.)Those who are

I'm afraid. The rest get swept into the dustbins of history & off the world's stage. I'll still do some UFO postings but the main focus will be on teaching & inspiring the public. Rom has got my back. Undal is to give birth to “Baby Sun” on Nov 4th @ 5PM. Scott John will be a 4th degree initiated.

Baby Sun Martin

11-4-2014 **Baby Sun Martin was born to Al and Undal today @ 4:49PM.** Alfie says Baby Sun has black hair, blue eyes and white skin, Plus, she has 5 fingers. Undal is so happy.

11-5-2014 Moboo & I decided to give Jax a middle name. “Jax Steven Martin”.

11-11-2014 I got on the kids about giving their moms “sass”. I was drunk but my soul stepped in and took over. My soul made it clear what it expects from the kid's personality behavior wise. But William did an end run and got Shanna's mother to come and inspect my music room situation. It was a five or six beer night. She didn't side with William tho. Poor William. He is my baby boy! I got to give him credit but it didn't stop me from lowering the boom on all of them. They were all bitching about me giving 2 roses each to Babies Annie & Robert and only one rose to for William, Angie, Roger, Jack, Sasha, Alfie & Sky. So I had to run out and buy 8 more Roses for them. In our family I work hard to be a Even-Steven type of father. No Favorites! That includes the Mothers. So the kids pointed out my fuck up. And William thought Grandma would bust my chops for the drinking. Sometimes there is lot of shenanigans going on in the martin household but it is never negative and always gut busting funny.

11-15-2014 Izzy was sick and in the Hospital. The girls sometimes hide stuff from me so I don't worry. Abena will give birth to Peanut. He will be born on Monday. I'm glad to see Angie, Roger, Alfie and William stepping up to the plate to help out. Poor Sky, maybe I put too much on her. But Sky has the right stuff so to speak. She'll do a great job with Baby Sun and the kids. Moboo should be very proud of her. I'm very proud of all my space kids. There is not a bad egg in the batch.

Robert John Martin

11-17-2014 **Robert John Martin** (Peanut or Roberto)**was born at 6:07 PM to Abena** & I Today. He is safe & healthy. The doctors examined him for 3 hours. I Guess he has some skills? I was told he might become 7 to 9 foot tall? During the delivery all these other ETs crowded me out & I was forced to stand at the back of the room. Kind of made me feel we were lab rats in their breeding program. I got hurt feelings. I'm questioning Abena's feelings. Very hurtful.

Annie Marie Martin

11-22-204 **Annie Marie Martin was born @ 3:39 PM.** I was there for the birth. Roger I was worried so the Girls & I calmed him down. Barda is OK. Things are

good. The substitute doctors who delivered Peanut didn't know I was the father. The girls went to the grand council and got changes approved. They thought the ET onlookers were family & friends. It won't happen again. They apologize to me. I made some sour cream & chives mashed potatoes and Sky tried some. She really liked it. I am spending about hour and a half each day with the kids after school. We play and talk a a lot.

11-23-2014 Peanut might end up 7 to 9 foot tall? Both Scott & Peanut are 4 degree initiates. Does Peanut have blond hair & blue eyes? Sky is in pilot training. She says she likes it as much as minerals. Some confusion over the pronunciation of “Jax”. It is Pronounced “J” with an “Axe”. Jax's middle name is “Steven”. Undal is doing good. The family keeps licking my face to tease me. I guess they learned it from Kenson. Angel to make her presence known to Jenifer & David soon. Abena says she'll stay closer to home soon. She is a good woman. She is a good heart-ed soul. I noticed that her and Heidi are very detached sometimes. They focus on their jobs a lot. Hopefully, they can relax with the family more. Both of them have tons of responsibility. It's hard for them to get time off the job. They are like Gloucester fishermen. They go to sea and are away from home a lot. But when they make port I try to enjoy them as much as I can.

11-24-2014 Lo Lo is a dancer. She was doing cartwheels! She loves to swing! Oh Boy! Angel danced too. Space Kids! My God! Even Iris danced! Me and Sybil just watched. Shanna is very good to me. Each one of these kids is very different. Each one displays some aspect of my personality. How Is it possible I am so happy with my family?

11-27-2014 **Fredrick Desal is the master of Paris**. He is one of Maitreya's Masters.

12-2-2014 Barda & I agreed to have another daughter. Susan from Saturn might join the breeding program. Will only post outstanding UFO footage on the web. Focus of my mission is changing. More public relations. Lo Lo coming on the 12th.

12-3-2014 Jack John wants to become a technician and do repair work. Sasha wants to go into guidance systems. Susan agrees to mate. Heidi is happy.

12-6-2014 Abena says Peanut has a large package like her dad. That's my boy! Space kids locked me out of the house and forced me to go to the back door where I left the keys in the lock.

12-7-2014 Roger might go into psychology. Lo Lo due @ 5:03 PM. Abena stays home more. Kenson called Roger “Stupid” & hurt his feelings. So, I shall have a little talk with Kenson John Martin about his behavior.

Susan The ET

12-8-2014 Susan is from **Saturn**. She has blond hair & blue eyes. She is 5 foot 7 inches. Her cycle is about 8 weeks. Her pregnancy will last about 8 months. Ra & Isis will be about 3 earth years old mentally at birth. Susan has two belly buttons but one appears as a small dent. Her age

is
about 45 earth years. Her hair is cut in a bowl fashion. She has never had any children.

Lo Lo Martin

12-11-2014 Lo Lo Martin was born to Shanna & I today at 4:48 PM. Lo Lo wants to be
a pilot like Angie. Angel cut her hair short. Got a peek at Vulcan the Etheric planet today. It has Blue, Grey & Purple tiger stripes. I was a
few minutes late for her birth but Shanna made sure I got to hold her before they took her away to the examining room. Lo Lo has Blond hair and Blue eyes. Annie Marie is a 3rd degree initiate.

12-5-2014 Toc is William's new teacher.

12-26-2014 Susan says that the “Warriors of Saturn” are greatest peacekeepers in our solar system. When confronted with a combat situation they never kill or cause physical pain. They contain, disarm and restrict non-conformist forces. They are like a drop of water cutting through stone.
In time they'll cut right through. Susan says their may be about 30 different races on Saturn. She hails from the northern hemisphere. Her Mom and dad are happy for her. We will have twins. Ra for our boy and Isis for our girl. Susan some times lives on mars but her home is Saturn. Her dad is called “Huock” Susan weight is 140 pounds.

12-27-2014 Izzy due date is Jan 5th 2015 between 5:30 & 5:35 PM. I am now a 2.1 initiate.

12-28-2014 Izzy & Shanna teased me that Lo Lo was skinny. They're a tag team! But I got them to admit Lo Lo ain't skinny.

12-31-2014 Annie has the gift of talking. She might become a diplomat or politician. Barda has made a request. She needs to take on this very dangerous 3 month away mission. She is thinking she can do this while carrying twins! The kids do not agree and some of the moms have “No Comment”. But make no mistake it will be in harm's way. The question is
will she have a bun in the oven while on this mission? I'm not so sure twins is a good idea. I'll have to see what the doctors say about this.
However if she does proceed a **Saturn Warriors** “Navy Seals” like Security Officer named Qi will handle the mission. They are kind of like a Royal Guard for the space brothers. He wears a faceless mask. His job is to contain & restrict adversarial opponents. If the mission goes forward It will last 3 months.

2015

1-2-2015 The kids dog me about my treadmill workouts.

Scott John Martin

1-4-2015 **Scott was born early @ 2:05 PM.** The first thing Angel did was Lick Him!
About 50 ET guests attend. I got to hold and kiss him in my arms. Then They took him to the exam room and put poor Izzy to Sleep. It was a very “ruff pregnancy” for Izzy.

1-5-2015 Izzy & I have nicknamed Scott “Bounce” because he loves to stand up and Bounce on Izzy's tummy. At first Izzy freak me out about this ruff housing but I got over it. Susan took Scott & Lo Lo into a back door entrance to Saturn. Saturn has very great warriors. They are the security force for the space brothers. They use restraint & containment tactics to deal with threats. Their goal is to teach and inspire and never kill or cause pain. They use joy & contentment to change behaviors. If bad behaviors are uncontrollable they might destroy or turn off the adversary's technology. And if on the off chance they need help they can always call on more advanced races for help. Barda hip me up concerning Jane's smoking habit. Jane promised Barda she would quit.

1-7-2015 My Izzy is a Trip! The space family fills my life with so much joy and fun. I'm so happy. So do my earth grand-kids and friends.

1-12-2015 Heidi is pregnant with Tommy John & Elizabeth Ann Martin. Next week Maybe Annie will start a learning tube for school.

1-16-2015 Jack John wants to do a tour of Pluto some day. Ra & Isis might be 3rd and 4th degree Initiates. Abena is training 3 ET Back-ups on how to do her job. The girls period cycles change dependent on which planet they are working on.

1-17-2015 When Moboo was carrying Sky, she had Strawberry Blond hair but then it darken after her birth and turn black. It's really is very beautiful, black & thick now. Sky is going to be a real catch one day.

Stasis

1-23-2015 **Heidi was born August of 1549.** It took her 6 weeks of training before She was ready to put her body in stasis by the monks. She will slowly bring the family up to speed on what her job is. She needs to prep us.

1-24-2015 Lo Lo showed up while I was working on my music. I saw her body. It was a light misty fog form which stood next to me as I was working. She is really into sound. We both are. She and the other kids are my critics.

1-27-2015 Rom is back. He said that a world wide solid physical landing will begin.

1-28-2015 Barda and I have chosen a name for our next daughter: Star Glow. Izzy has chosen: Tiger-Lilly. Kenson (Earth Grandson)knows that the Space Family gives me back rubs. The space kids are consider volunteers by the Space Brothers. After 7 ET years work they will allow them to join if they pass training.

2-1-2015 J-axe is talking about becoming a Saturn Warrior.

2-3-2015 Susan with twins confirmed. Undal wants a son: Octavian Martin. Shanna wants another son.

William in the Dog House

2-5-2015 William show up and had some ET tech which he took out of a locker room on a dare from Angel. It was a small ruby red pyramid shape device

with
thin gold lines through it. It is used to eavesdrop on people talking. It was about 2 inches tall. Well, then Shanna stop by and saw it and all hell broke loose. William is not allow to take things out of the locker room. He is not allowed to break protocols. Shanna busted him. Bowllock and the Moms were very upset! Angel was sorry for getting William in trouble. He'll never do that again. Angel show me her dancing. Angel has been teaching Lo Lo. Shanna & I have chosen the
name
Jay Jay John Martin for our next kid.

2-7-2015 Scott put me into a multi-dimensional etheric space suit that can
allow
one to do different physical & mental tasks at the same time. For example: say that you have 7 dimensions-A,B,C,D,E,F & G. You do dishes on Dimension A, Surf the Internet on Dimension B, Play guitar on Dimension C, Pay some bills on Dimension D, Play the drums on E, Play poker on F, and go to the Zoo on Dimension G. Your doing different tasks on all 7 dimensions at the same space-time. Moreover, On my daughter Jane's videos you can see traces from this movement through the 7 dimensions. The Key: is the etheric Levels-A through G. Each level has 7 sub-dimensions levels. And each sub-level has 7 sub-sub levels for a total of 7.7.7. levels in all. WOW, you can really get a a lot of work done in one of these suits! Me and Abena will call our next kid “Heart Star”.

Arby's Free Lunch

2-8-2015 Barda showed up in a “solid earth body and bought Arbys for Jane
Anne's
birthday”. WOW! Barda was in a black van and rolled down the window
and
talked to Jane face to face. We are planning our next kid cycle:
Tiger-
Lilly (Izzy), Star Glow (Barda) Octavian (Undal) and Heart Star
(Abena)

2-10-2015 I was told that the ET fleet no longer listens in on our family life. Barda got Izzy to make me OK her Dangerous mission while pregnant. (See 12-31-2014) **QI** (**Saturn Warrior**) pledged to guard her. Heidi,
Susan
& Moboo all with twins!

2-11-2015 Knowing that my girls will out live me is a issue I'll have to overcome.

2-13-2015 The ETs are doing some programming on me which will help me better fit into their culture. I'll become less human in outlook and more wise.
It
will help me accept their values & choices better. Me & Undal got into a disagreement about how kids are viewed on mars. On Mars girls are expected to be passive, respectful, nurturing little mommy's. No ruff housing, No pillow fighting. In a way they suffer from group-think. Undal was bitching about Alfie and I had to put my foot down. I took Alfie's side and told Undal she wasn't treating Alfie and Baby Sun equally. The girls said they want Baby Sun to fit in with the other girls on Mars. I lost that one! But at least I still supported Alfie. On earth his behavior is OK. He is half human. I dug my heels in about it. Maybe that why they started the wave programming training when I'm

asleep? Sneaky Sassy Aliens Chicks!!

2-14-2015 Undal is a Chemical Analyst.

2-16-2015 Susan's due date is September 23rd 2015. “Keeveeors” is a plant that They eat on Saturn. They make a sauce from a berry plant and pour over it. They boil these stones which make cinnamon like tea. The Keeveeors is like an earth bread when cooked. Next they pour the berry sauce over it. On Saturn you don't kiss in public but you can hold hands. Sex is always a private thing. The men have not ruled over women like on Earth. The women have ruled more or less. Almost all their homes are in caves. They don't build with stone or wood on the surface but carve out home caves. They have Hi-tech inside their homes. As a child Susan spent a lot of time singing on a cliff which overlooked a canyon. On this ledge she would meditate and sing. It was her special place as a child. My info is Saturn is in the 6 round, Venus is in the 7 round or last round, while Earth is in the 4 round **(See Round and Races: Our Divine Parentage and Destiny by Gertrude W. Van Pelt, MD @ 1998 By Theosophical University Press)**Saturn's energy is unlike Venus, Mars, Jupiter or Earth. Saturn is very expanding. Very Glorious! Radiantly Beautiful. Powerfully Majestic. Before Earth's last big ice age ETs from Saturn had to wear helmets and space suits when they visited Earth. Our air was bad on them before the Tertiary era, or the 3rd era which followed the Mesozoic. There are still cave paintings around the world of these men from Saturn. Susan said they still use bell & whistles to celebrate the changing seasons on Saturn. (days, nights, years, and ages!) Ra wants to be a Warrior like J-axe too.

2-17-2015 William, Angel, Roger & Alfie tested my loyalty in a dream to their moms last night. They crossed the line and I had to punish them. They all said they were sorry and I let them off the hook. Their moms said nothing. Undal says she is about 25 years old. She had a ruff time dealing with this issue. William is on me about pot. We made an agreement.

2-18-2015 I told William I would cut back on my partying when I'm around my friends. He has been upset with me. “I don't like it Dad!” We talked & I'll cut back. Growing up I used to party. Now I only party 1 or 2 nights in a 12 week cycle. Not much, maybe a hit or 2 of weed over a beer. Back in the early 2000s when I held a job I use to party on weekends and play rock n' roll. Those days are long gone. I'll try my best to make William happy. No more partying, I'm too old.

2-20-2015 Sasha told me that Jack John is on the moon learning how to run a “Skimmer”. A Skimmer is a machine that mines the surface. These machine are dangerous. So Jack was in harm's way. When I heard this I got pissed at Abena. We talked for a few hours about it. I should have been aware of Jack's wants. I am his dad. If Jack education involves danger I should have my say. I'll always go along with my kids wants but this high hand ET “we know best shit” ain't working. So I talked with the “master”. The Masters group wanted to think about it for a while. Then I ask my soul who agreed with my personality. The girls have to include me when a choice involves Harm's Way. At least until the kids are grown. So I am giving it a rest. It is good to know Sasha thought I

should be told. Let the masters reply. I hope they don't punish Sasha.

2-22-2015 Baby Sun might study Light.

Arby's 2rd Free Lunch

2-24-2015 Sasha is 2.3 P.O.E. Sky Blue is 3.2 P.O.E. My ET family likes to lick my face. They like to tease me. (They got it from my grandson Kenson) Barda bought Jen (Daughter-in-law) Arby's too. I OK-ed Jack John's Moon Training. Roger has been playing with Kenson a lot at night. David John (my earth son) told me he believes in ETS. Jane Anne told my earth daughter-in-law Jen that I am Angie's dad.

2-25-2015 I had a long talk with Jen about my space family.

Telepathic Visit To Mars

2-26-2015 Shanna showed me a bunch of animals on Mars. Some lizards like, Some bird like, some fish like. Some of these animals don't have eyes. They have eye-like features. They use light, heat and sound to get around. Heidi is working to make the family comfortable in the future.

2-27-2015 Me, Sasha, Sky, Lo Lo, Annie and Baby Sun spent the night watching a movie about the true story of the Real Cinderella. (Chick Flick.) The girls went nuts! The movie was based on a true story in French history. Tiger-Lily is a Saturn Soul. She was a 5th degree on Saturn in her past life.

3-2-2015 Confirmed that Scott looks like me. He has brown hair & eyes. Undal said Baby Sun might end up 5 foot 6 inches tall. Kids tease me by changing stations on my radio. Izzy confirmed with the child. (Tiger Lilly) Master says the last quarter of 2015 there will be a very marked collapse of the international economic system. Undal had a problem with the speed at which Alfie performs his task. Like me, Alfie does things very fast. He is quick. So I ask Undal if he Fucks up? She said no. So I ask Undal to do me a favor and let Alfie do his work his way. She said ok.

3-5-2015 Sasha told me about *"Process Reports"*. How do things work? How do things go from "Cause" to "Effect". How does it go from point A to point B overtime? How does order arise from chaos? These reports may be use to predict behaviors & outcomes. Shanna was helping Sky who had to be somewhere and couldn't do her mineralogy report on time. Abena briefed me on A.I. (artificial Intelligence) life & culture. The ETs have manufactured life forms that are so much smarter than humans. Their culture is infused with a great deal of the ET "philosopher-kings" code of ethics. But it seems to me that A.I. Culture is somewhat different. The A.I. Mind on the one hand is very human & ET like, while on the other, very different in that their sense of self-hood. They don't see themselves as slaves. Rather as friends who advise and protect their creators. Self hood is like a mother, father, sister or brother based perspective. They are motivated by love and kindness

in all their decisions. Not sure if they consider themselves as machines or being? I think the ETs treat them like beings. I know the the ETs grow some of the grays. Abena showed me the ship's guidance system. She showed me how they plot the ship's course through the stars. She took me to her gym. They use wave technology on their bodies. In a flash the cells in their bodies experience 100 sit ups, 100 push up, 100 pull ups, 100 toe touches, 50 swim laps in a pool and 5 mile run. This rejuvenates the cells in their bodies into a youthful state. Kind of like a reset button. Most of the ETs keep their clothes on when they hit the gym. Sasha likes to enter naked. My kids have inherited my farm boy, nature's son attitude. It's the same wild and free streak you see in kittens at play. I call it the Martin in them. Some of the other ETs are beginning to come around in their understanding of this streak. They see things in my kids that they like but didn't notice before. Sasha said she went swimming in that lake in Switzerland where Buzz hangs out. It is one of the few clean spots on earth. Jack John is in “GP” training for technician repair. At this level a lot of their technology uses common or stander parts which can be swapped out over different systems across the board. *“General Practice”* training is teaching Jack how to swap out parts between guidance, environmental, communications...Later on Jack will go on to “SP” training which deals with repairs that are specific to one system only. *“Specific Practice”* parts can work in “General Practice” systems but no “General Practice” part will work in a “Specific Practice” systems. Jack is going to be one hell of a UFO repairman someday. Baby Sun might grow to be 5' 6”.

3-10-2015 Undal show me Alfie. He now looks like me in the face. He is getting so big. He is my sweetheart. Susan's hair is growing out. Izzy ask me to grow my hair long. Alfie would like to grow his hair long like the Venusian men do. But Undal won't let it grow over the top of his ears. Was at a friend's place and the kids started making noises. I told them it was my kids messing around.

3-12-2015 Robert John being taught Kung-Fu as a sport. Abena has a white and blue uniform for special events.

3-15-2015 Barda back from harm's way mission. I told the girls to wear their hair anyway they want.

3-16-2015 Shanna was telling me about some of their computers which can talk with spirits. These machines can access the higher dimensions. The ETs call them “God Machines” but the ET Masters of wisdom don't use them. They are used by the ET Planners & Managers. These machine are just as wise as the ET Masters. I wonder why the Masters don't use them? Part of Barda's harm's mission was to map very dangerous places in space. She also welcomed and guided Visitors from outside our solar system. Qi the Saturn warrior, like all warriors wears a faceless mask. I I wonder why? Baby Sun wants to study Light.

<u>North Of Boston</u>

3-18-2015 Heidi told me that when she was a child living with her mom North of

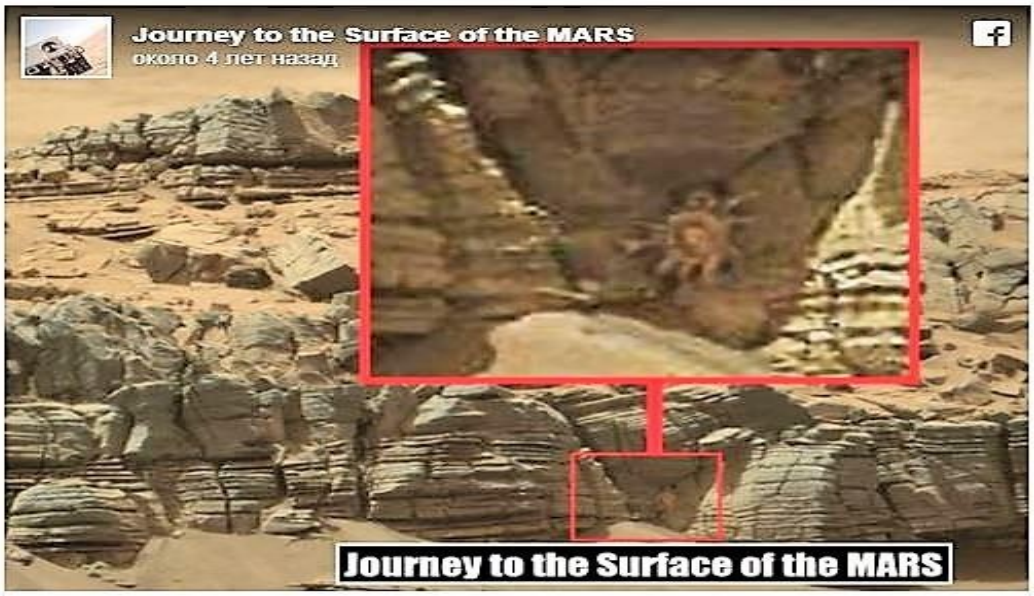
Boston they stayed most of the time in a Tepee. They had a stone fire pit inside that kept them warm and toasty. They had wood & bark roofed shacks but these houses were very cold. They was only about 30 European (trappers & their Families?) and about 1000 Indians in the area. Back then the Indians felt very sorry for the Europeans and didn't see them as a threat.

3-19-2015 Shanna tried to use some wave technology to make me fall asleep but by the force of my will I overcame it. She was surprised. She had to report it. It was totally like being inside a sweet dream. I got up and walked around my room. I felt funny. As I use my bathroom I felt like I was between the awake and asleep state. Saw a friend yesterday and watch as my kids use a peace wave on him because he was fighting with the neighbors.

Eric

3-21-2015 Little Lo Lo got a bit sassy with her big sister Angie. Angie stepped up into mommy mode and handled it. The girls and I are so proud of Angie. I spoil Lo Lo too much. She is daddy's girl. When it comes to The little ones, it is nice to know that Angie & William have my back. On Jupiter girls become sexually active much quicker than on Mars, Venus, or Saturn. Sky has met a boy named Eric.

3-22-2015 The night before Scott teased me. He made me hear 3 chimes. Last night Roberto used a Tibetan bell on me as a joke. The kids still use light & sound at night to tease me. Jokers!



Journey to the Surface of the MARS
Now this one is AWESOME !!!.. . . . ..

Spider In Cave

3-25-2015 March:Kids showed me this insect on Mars. It had no eyes, ears or mouth

with paper strip like legs which it wall climbs with.**(See Photo Confirmation August 3rd NASA)** Annie said Roger was unkind to her. Barda jumps in and said she will handle it. Was Roger hitting her? Annie said William has an anger problem.

3-26-2015 We have been having behavior problems with the Kids. When I was dreaming the ET shrinks probed my subconscious. The role models for Earth men and women is in conflict with the role models for Space Brother men & women. My kids are torn between role model styles. We will know more in a few days. It makes me very sad to see my babies struggle with their two worlds. I wonder if my pot and beer use is hurting my babies? The girls don't agree with that. They say it's part of my soul's choice. But if I need to stop for the kids I will. Jack John likes backpacks. He wants to use one to carry his tools around. Plan to make it up to Susan & Heidi once both sets of twins are born. Poor Moboo is not feeling well. When Heidi was a child she use to play a game using 3 different size sticks and stones. They would take turns and see who would get to the goal first. Heidi would play this game for hours.

3-29-2015 The girls are teaching Sasha & Angel about space brother training. This makes the kids a little bitchy at me when I bug them. Just found out that the star in the tree video I posted was Shanna and not Rom's UFO.

4-1-2015 Rom has undergone new training. I sense the same kind of energy Baby Sun is in Rom now. He is on a new level of being. He is using a new level of communication to talk with me. Lo Lo was running up and down the hall in the middle of night at David John Martin's house. Roger was peeing with the lights out. David & Jen woke up and heard them. I had a long talk with Alfie.

Wave Conversion

4-5-2015 Kids grow up faster on Jupiter than earth. Sky makes good choices. Sky is now studying *"Wave Converion"*. They pass an energy wave through a lead crystal. The crystal filters out all the stuff they I don't need it. They make all types of these crystals. Some have lead Others use copper. Many types are manufactured for many different types of wave conversions. They uses these in most of their systems-commutations, environmental, manufacturing, guidance. Inter-operational-ability is the key. Parts are made to be used across the board. Angel is learning how to pilot between dimensions. This cuts down on travel time. There are 6 points needed to fly a UFO in normal space-time. When she is between dimensions this changes to 12 points. Angels say the key is to know the patterns. She is learning to read the patterns between two cubes of time-space. She says that Cube A time-space (6 points) is not completely opposite of Cube B time-space (6 points). Angel says there is "Flux" between the two cubes. It is kind of like a sea captain reading the ocean and making adjustments as you go. You need to learn the feel of the sea as you travel between dimensions. She is studying how to start in one dimension, jump in between, then come out or land in another dimension.

Chateau Estate Street

4-11-2015 Roberto & Scott fucking with me to get up and get out of bed. Jog Dad! Roberto is now studying at the Chateau Estate St north of Paris. It is somewhere in the woods.

4-12-2015 Barda jumped my bones just as I was Falling asleep. She wanted some affection and Bufu.

Jax John & Blue Moon Martin

4-13-2015 Jax John Martin born at 5:38 AM. Blue Moon Martin born at 5:39 AM. Twins!

4-15-2015 Jax has brown hair & eyes with white skin. Blue Moon has black eyes blond hair and tan skin. Was having trouble with the girls. Master's group stepped in and were talking with the ETs. Scott said around Xmas in 2015 he'll start working with my sister Pat.

4-19-2015 Rom stopped by.

4-25-2015 I've been working with Baby Sun.

4-28-2015 Working with my etheric vision.

5-4-2015 Annie wants to be a pilot.

5-6-2015 Saw Baby Sun! She has short rag doll dreadlocks & chipmunk cheeks and a a smile that can melt your heart. Peanut only showed me a side view. He is a stinker.

5-8-2015 Robert John stopped by for a chat. He is working on philosophy. He told me about his studies. He is learning about universal equations or what I would call universal constants. He was talking about traveling outside of the universal mind. Made sense to me. If mind then not mind. (If x then -x) The Mind must have its opposite. Both are two sides of the same coin.

5-13-2015 J-axe wants to be a Saturn Warrior. Both Blue Moon & J-axe in learning tubes. After 13 years Jax can apply for the Saturn Warrior program.

5-14-2015 Tiger-Lilly sassing Izzy. She will handle it.

5-17-2015 Susan is very protective of the twins.

5-21-2015 I have been experiencing another level of thought. For example, there is my normal level of thought. At this level I can create a picture of an apple in my mind by force of will. But now I find I am experiencing another level above the normal. I call it pre-thought. It starts about a half second or one second before I use my will to create that apple in my mind at the normal level. As best I can tell, at the Pre-thought level, will power does not exist. That is, the cause and effect relationship breaks down. This new level is opening up for me. I've been experiencing the pre-thought then a half second later I will experience normal thought. The metaphor goes something like this: the pre-thought level is like a text document on a flash drive. Whereas, the normal level is like the same information printed out on a sheet

of
8 1/2 by 11 white bond paper. Both express the same “data” while being very different in form and nature. The ETs have been pushing me in this new level. Also, they open up a new telepathic channel which is very hard for me to use. It is much higher in vibration. I keep asking them to use the lower telepathic channel but they keep pushing me to use the higher channel. I guess the sunspots don't fuck with this higher channel as much. I found out the girls can share bodies. They can plug into each other's fetuses. They are sharing each other pregnancy experience among themselves. They even allow me to feel the pregnancy experience within my own body. As a earth male I've often wondered what It feels like carrying a baby inside my body. Now I know. Each mother can see and feel each other's pregnancy as their own. They can also feel each others sexual experience, but they rarely do that because they respect each other's privacy. As best I can figure it out, it is a group mothering system with each mom in the group taking on the role as needed. They “mommy” by way of committee. I give input but they enforce the rules. It is very hard on me sometimes but it is a much better system of child rearing than we have on earth.

5-26-2015 Susan's mom is called **“Herrera”**.

6-2-2015 Tiger-Lilly wants to study propulsion systems. Roger wants to be a behavioral scientist.

6-5-2015 Dust up between Sky Blue and Moboo over rules.

6-6-2015 J-axe and Blue started learning tubes. Angel will start to train on a 500 person UFO. It is a cruiser class UFO. Barda Helped Jane Ann to get rid of a Bat that got into her house. Kids are dream testing me.

6-8-2015 Barda told me to tell Jane Ann she wants to have a mommy daughter talk about Jane Ann's behavior. Barda really loves me. Abena's ship broke down. She put out a S.O.S. for help. The whole family came to her aid. Little Jack was there working on the craft. My boy Jack the Tech Repairman Student working to fix his mommy's UFO! I am so proud of Jack.

Spokesman

6-12-2015 ETs on RED Alert. Something is going on. The ETs & master have approved me as a spokesperson to humans. They have placed trust in my charge.

6-13-2015 Shanna says the pacific ocean is in trouble. Pollution, poisoned tides, earthquakes, ocean waves. The east and west coast will get hit hard. California will have food growing problems. It will be spotty, with the problems jumping around from location to location. Water, Food, electric problems. Supply breakdowns. Good news is that people are now listening. No more denying. But they don't like what there are hearing from us light workers.

Tepee North of Boston

6-17-2015 As a child Heidi used to live in a tepee and a wooded cabin. The tepee was much warmer than the tree bark roof cabin. The tepee was lined with furs around a stone fire pit. The tepee was much nicer than the cabin. She used to collect shells with her friends. Back then sea shells were a big deal. Also the European trappers would bring in a few tin cups, knives & pot when they pass through her very small campsite. Her family also had a trumpet and oboe from Europe. Her family would make flat breads from grains and drinks from fermented berries. After she left with her Martian dad she only got back to see her Earth mother 5 times before she died. On one of these visits her UFO was parked for 2 whole days in solid form in a clearing in the woods. This was a really big deal to her community. Heidi's earth family was treated like Royalty. But most of her visits were only for a few hours. Like me, as a child Heidi used to play in the wild woods around her home. She would run through the woods & fields and play by the river banks. The oboe Heidi talks about may have been a renaissance instrument called a "Shawm". In 1670 the "hautbois" replaced "Shawm" in Europe. Later around the 1700's The "Shawm" became the Oboe.

6-20-2015 "Gosh" is my new ET security Guard. He is Reptilian. He likes to drink Coke pop. He stands about 7'2". He has both sex parts. The family recommend him. It seems the NSA got pissed off at my internet posting. Also, I joined **Minds.Com** which is run by the anonymous hacker group. So The Black-hats sent in some air probes to spy on my home. The ETs shut them down. This was a treaty violation so Gosh was assigned to stand guard over my apartment. Tiger-Lily and Izzy had a dust up. I was told that a lot of female teenage ETs think William is cute. He is not into it at all. Scott and Tiger-Lily are close. Scott and Angie are helping Izzy and Tiger-Lily to get along. Unless I'm needed I'm staying out of it. Izzy is the boss.

6-29-2015 Shanna is on a mission out of the galaxy to meet with visitors from another galaxy. The space brothers are having problems with UFOs breaking down within their fleet. I was told other ETs from outside our systems are on the way with backup crafts. Last night Alfie was Training Lo Lo on how to fly a UFO. Alfie told me she is sassy. I wonder where she gets that from??? Ha. Ha. Ha!

6-30-2015 New type of black orb the ETs are testing.

7-9-2015 UFO repair base being built outside of Dusseldorf West Germany. It will hold 88 crafts. Alfie will be training there. Alfie grandfather will inspect the base when completed.

7-10-2015 Scott spent the night. He was talking about motion & philosophy. He might spent some time with the monks before he joins the space brothers. He is still trying to find his way.

7-12-2015 Alfie is showing skill at organizing. ETs said he is doing a great job

at putting together that UFO repair center in Germany. William is showing skill as an administrator.

7-13-2015 Isis wants to be a teacher.

Creator

7-15-2015 Annie likes nursing. She likes earth medical equipment. She prefers Earth. Octavia wants to explore other solar systems. He wants to travel far away. Heidi's job is called a “Creator”. She told me she creates things? Not sure what that means?

7-16-2015 Girls say the NSA is not watching me as much anymore. The girls also say the ET Teenage girls swoon over William. He is not into it. Lo Lo and Annie growing up fast.

7-19-2015 Barda said that when Roger turns 21 he might take a 2 years study course to become a hybrid shrink. He wants to help hybrid kids to cope with two different world cultures.

7-21-2015 Robert John came back from school break. He is struggling with school. They are really testing him. The ETs showed me a shaving stick. It has a rose-purple color light at the tip. The ETs shave with it. Octavia wants to boogie. I told him to obey mommy.

7-23-2015 Star Glow has changed from carrot top red to blonde.

7-26-2015 Baby Sun likes earth Bananas. Moboo makes sure she gets her Minerals (Jupiter Genes). Moboo is very careful with Baby Sun's Diet. Lo Lo is brash. She got behind on some school work. But Shanna keeps her in check.

Telepathic Moon Base Visit.

7-27-2015 Angie stopped by. Each year they select 5 cadets for the City Ship Captain Program. I think my kid has got a good shot at it. Right now Angie is in Battle Cruiser training. She is learning how to disrupt an adversary's commutations. Other battlecruiser training programs deals with destroying equipment or disabling a UFO. At any time there are 50 to 180 ET staff on board. Most of these Battle Cruiser carry many other smaller UFOs on board. My Angie is a young woman now. She has 1 more earth year before she joins the space brothers. In 2016 she hopes to become a Captain of a City Ship. Lo Lo telepathically took me to a city ship parked on the dark side of the moon. They move this ship once every hundred years or so to a new location. I saw telepathically all kinds of laboratories as we roamed the halls. The main food court has about a Hundred-thousand dinner table booths. Lo Lo showed me the “Martin” dinner table booths. This is where the moms & kids eat. I didn't understand the laboratories. This city ship maybe holds 2 or 3 million ETs. Angie said the Reptilians are very nice. She has a classmate friend who is a Reptilian named “Gus”. Robert let me know he is an earth “Martin”. My little Lo Lo is going through a cocky cycle.

7-31-2015 Undal told me to check my blood sugar medicine. I discovered I was suppose to be taking 2 pills a day not one. Also, I forgot to take my heartburn meds too. Jane Ann has been seeing a golden web like orb that

come right up to her face.

8-7-2015 Jane Ann has been reporting some kind of golden spider web like orb. The ETs won't allow her to video it. Heidi said Elizabeth Ann Martin is a 6 degree initiative.

8-16-2015 There are about 30 ET Kids in Jack John's tech repair class. His class and 4 teachers show up at Abena's UFO which had broken down.

8-26-2015 Roberto got into hot water at school. Abena worried about it. Both Roberto & Scott at the same P.O.E. or 4th degree. But they each have very different skill sets.

9-9-2015 Saw Moboo in a dream last night.

Isis Ann & Ra John

9-5-2015 **Susan gave birth to Isis Ann & Ra John.** Isis was born at 1:31 AM. Ra born at 1:32 Tommy John & Elizabeth Ann.

9-10-2015 **Heidi gave birth to Tommy John born at 5:22 PM. and Elizabeth Ann at 5:23 PM.**

9-19-2015 **Shanna came to a Kevyn & The Kasualties gig on 3-8-1986**. She was with two earth girlfriends who she met from OSU. They didn't know she was an ET from Mars. They had asked her to go “Bar Hopping” with them. This was The same night my friend Stick Hoffman met his wife. The Bar was called **D.J. Prophet's** and was in the short north of Columbus, Ohio. Shanna was in a solid physical body and I was having bass amp problems.
I remember very clearly the three of them walking pass the stage and out the door. I had locked eyes with her and felt something special. I had forgotten all about it until she reminded me of the gig. Not sure what her mission was?

Hyperbolic Inversion Propulsion

9-22-2015 ETs teaching me about a form of UFO propulsion called “hyperbolic inversion”. It works by inverting the natural order of the hyperbole. There is no up, down, right or left as you pass through time space. It is not like folding together two points of time space to reduce distance. As best as I can tell it is like swapping one time space for another time space by way of inverting the Hyperbolic which contains both. It is a perfect fit. Susan said Alfie is on the moon learning about this in class.

Octavia John Martin

9-4-2015 **Undal gave birth to Octavia John Martin today @ 10:27 AM.** We always get to hold the newborn after birth.

9-27-2015 The kids put on an hour-long show for about 100 ET guests. There was skits, singing & dancing. William John was the MC for the gig. Annie belly danced! Moboo said it was a great day. The moms had a blast. It was a lot of fun for everyone. Izzy sat and watched as the others stood. I am told that a few of the big wigs really enjoy the show. The kids wrote the show. Earth children tend to make mistakes growing up. The kids make very few, but when they do, you want to kill them, while

at the same time they're filling you with joy and pride as their dad. You really can't disapprove of their actions because they are so clever & smart about pushing the edge of their behaviors! These kids are much more "slick" than I was growing up.

9-28-2015 Abena like a martian dish called, "Turk". It is a vegetable that grows on mars. They use a lemon & Lime sauce with it.

Tiger-Lilly Martin

10-5-2015 **Izzy gave birth to Tiger-Lily 5:15 PM today.** Moboo made lieutenant of Botany. We got to hold Tiger-Lily.

10-8-2015 Around next June (2016) Roberto training with Master Fredric will end. At that time he will join the space brothers with a rank of lieutenant. Baby Sun wants to start working with Jane Anne. Baby wants to be her 2rd contact after Barda. She was messing with me by turning my DVD player off and on. I had to unplug it. It was making all kinds of strange sounds while I was on the phone with Jane. The kids love to give their dad shit! They fuck with me all the time. Teasing is one of the ways our family expresses love.

10-14-2015 Both matter and antimatter have positive and negative atoms within the continuum of infinity.

10-15-2015 Sometimes I question if my space family is real or not and when I do they get in my face to press home the fact. It really hurts their feelings. The girls have been training me to use this higher telepathic channel. It expands their range well outside our solar system. It doesn't use "telepathic video or sound" for communication. It is very stressful for me to use this. They keep pushing it. The lower telepathic channels are only effective up to about 5 miles.

10-18-2015 Moboo has to time travel into earth's past to test soils for acid levels. The ETs are very concerned about earth's food production. They I will be having a meeting about this soon. Meanwhile, earth has high levels of acid in the soil. They are thinking about new crops that can cope with the current levels of acid.

Jane's Hot House.

10-20-2015 Jane Ann came home from work and found the heat had been turned up to 90 degrees. The house was hot. She freaked out and called me. So I ask the kids and they confess. Barda, Moboo & Undal were very upset by this joke. It took awhile for them to cool out. It seems that Jack John, Alfie & Ra had crossed the line while playing around. Baby Sun might have also been involved too. I was very surprised by this. Anyway, it all worked out.

10-23-2015 Moboo cuts back on work to keep an eye on the kids. Angel showed me her picture. She posed for me. She looks like Madelyn at age 15. Trouble coming to the USA. East Coast gets hit. Doctor said Tommy & Elizabeth is growing up faster than expected.

11-1-2015 A side effect of the breeding program is that all 8 females now can share the same sexual experience if they so choose. It is rare that they do. The kids can't. Undal says some of the other ET races can do this. But this is something new for the girls. Undal says this is one of the reasons for creating the breeding program. Undal says that The ETs outside our family can not pick up on our sexual experience. I I don't have any problems with this. Undal says on down the road most humans will be able to do this. But for now, we are the first. I'm learning how to use higher telepathic channels. The lower channel is so much easier. My son Ra got to dream test me last night. Now he is a "Big Boy". Shanna does not want me at Jay Jay Birth. My worrying stress her out. The kids are making **beeping sounds** when I am on the cell phone. They have been doing it for a while. They like to put their 2 cents when I am having a conversation.

11-2-2015 Sasha & Jack had a dust up! Abena says it was a battle of wills. She refused to get involved. She said they have to work it out by themselves! I had a talk with Sasha about sex. Abena said Jack John got his Level 3 license. He can now work on Cigar Shaped & Triangle shaped battle crafts. This is dangerous. They do this work mostly on the moon.

Jay Jay John Martin

11-3-2015 Shanna gave birth to Jay Jay John today at 2:35 PM. He has Kenson's blond hair and my brown eyes. Blue Moon has blond hair and blue eyes. J-axe has brown hair & eyes.

Creator

11-7-2015 Heidi is a creator. She would be ordered to create new **dimensions** and fill them with "**lifeforms**". She would do this by using her Master's will power, but most of the time by using UFO Technology. Also, she told me that she has a sub-conscious & 3rd eye like me. **(See Notes In Time Log Entry 6-25-2021 for More Info.)**

The Subconscious

11-20-2015 What is the subconscious? Heidi has one. The rest of girls say they don't have a 3rd eye or subconscious. The kids have a partial 3rd eye & subconscious. These are small compared to humans. I tend to think the subconscious is a leftover result of the animal mind. Back during the last quarter of the 3rd root race (Lumaria)and the 1st half of the 4th root race (Atlantis) the human subconscious arose out of the fight or flight response for survival. It seems to me that back then it was all about eat, sleep & screw. Back then the lower self ruled. Later when it became more about "the pursuit of pleasure and the avoidance of pain", the higher consciousness superseded the lower sub-conscious. Not only are there many kind of ET races, but also many different kinds of ET souls. **Some of the Grey ETs are grown by the space brothers** but **most of the Grey Races reproduce by sex like us humans.** The space brothers know how to **"in-soul"** the Greys they create. They view them the same as natural born children. The space brothers know how to use the forces

of nature to do this. I am told that the greys have their own distinctive culture. Also there seems to be a lot of cross breeding between the Grey Races, the Created Greys and the Space Brothers. It seems to me that they grow them just like earth farmers grow the crops.

I've noticed that the created Greys have a different type of soul than the girls. The girls also have a different type of soul than humans. Moreover, the UFO crafts are run by **Artificial Intelligence** which get a **"soul"** too. Shanna says ***that the Created Greys & UFO's A.I. have a "different order of souls".*** So it seems to me that the human sub-conscious is a lesser degree of intelligence and the mind-consciousness is a higher degree. From the teleological point of view the sub-conscious performs work way beyond the ability of the mind-consciousness. According to Plato's theory of forms it does this by way of **"Morphogenetic Fields"**. These are electrical and magnetic patterns in the astral & etheric states of mother nature. The ETs say that the UFO A.I. System of their crafts has a culture too. The ETs also view their crafts as family. Izzy told me that when the girls sleep they are conscious. They don't dream. But, their minds are conscious. Sometimes sense data gets through but most of the time it does not.

11-23-2015 Heidi's Father got back to earth once every week or two to see her mother and report on Heidi's status. He would spend a day or so in solid physical form.

Eric Musnot

11-14-2015 Sky's boyfriend is Eric Musnot. His dad is called Jaw and mother is called Mom. They want to meet me.

11-25-2015 Tommy John is 2.0 P.O.E.

11-27-2015 Heidi said they made their own gunpowder and recycled their lead balls when she was a child. Most of the time they used a bow & arrow. French traders traded goods for their furs for Europe. Heidi made candles from beeswax. She didn't have a clue what she was getting into with her dad. It was a very rough time going with him to mars. She loves Ra & Isis.

11-29-2015 Tiger-Lily loves Horses. She will do her first UFO solo soon. The girls and the kids were very funny last night. Lo Lo can sure bust some dance moves! Abena was doing the Lo Lo dance last night too. Ra & Isis skedaddled from the Daddy monster last night. They love it when I chase them and yell "I am going to suck your Blood". We play vampires.

Star Glow Martin

12-4-2015 **Barda gave birth to Star Glow at 2:15 PM today.** She has blond hair & blue eyes. Barda says her hair might change as she grows up.

12-5-2015 Undal got promoted to Sargent.

Jane's Landing

12-7-2015 Jane Ann saw a UFO landing about 25 feet away from her car. She saw a glowing ET looking out the window at her. He told her he was from Venus. Once they get her up to speed she will be going inside the ships. Point of Evolution for the Space Kids: William 5.0, Angel 2.3, Jack John 4.0, Sasha 4.0, Alfie 3.2, Sky Blue 4.0, Baby Sun 3.2, Lo Lo 4.0, Jax 2.3, Blue Moon 4.0, Octavia 3.0, Undal 2.0, Abena 6.0, Jay Jay 4.0, Star Glow 2.0, Izzy 2.1, Barda 3.0, Susan 2.3, Roger John 3.0, Moboo 4.0. (see share-international.org for more info on P.O.E.)

12-11-2015 Tommy John might study sound. Izzy got a space brother service award.

12-13-2015 Abena sang to me a martian lullaby. On mars the females sing to their mates. Sasha has white-gray skin. Albino like. She wants to be a nurse/doctor/biologist. Her skin will most likely change as she grow up. The girls are friends with Omnec Onec. She knows about our family.

12-16-2015 Izzy was good friends with Barda's mom & dad before they died. Rom step into a dad role model.

12-17-2015 Ra & Isis Fighting. I Laid the law down. Susan is having a ruff time with these two. I don't like laying the law down but had no choice.

12-18-2015 Baby Sun got a student award.

12-21-2015 A bit of a dust up between Elizabeth Ann and Heidi. Heidi got upset with me. She gave me a love tap on the cheek. No problem. She was so upset she tapped me. These kids give her a run for the money sometimes and this was one of those sass times. Anyhow, Heidi and Elizabeth made up. It is cool now. Heidi was thinking about “Maryanne” for a girl.

12-24-2015 I asked Abena how she handles seeing into all the evil & cruel acts that we humans do to one another. She answered, “We're here to pick up the pieces; not to witness the activities”. Unless these activities get rubbed into the ETs faces; the ETs don't snoop into the actions of humans. The ETs avoid the “Causes” and deal with the “Effects” of evil & cruel choices. Sucks to be an ET!!

12-26-2015 Abena says Jane will move away from me and become closer to Barda. Abena likes the name “Lilly Lilac” for a girl.

12-28-2016 Izzy says that the ETs are going to upgrade my IQ: by 2 or 3 points between June-Sept of 2016. This will lead to Headaches in the frontal-lobe of my brain. It is needed for my earth work later on. Alfie got busted by Undal for “Cussing”. Man, did she ever get pissed off!

12-30-2015 The girls use a device called a “rod” to douche with. They place it outside their “Kitties” and it cleans them. Heart Star due Jan 7th 3:38 PM.

2016

1-1-2016 Moboo says Jar-Rock is slick like me and my sister. He thinks like me. Clever child. But I don’t think I am clever.

1-2-2016 Shanna's son Clark has a new girlfriend named “Mabinda”. Clark is

currently in deep space. When Shanna was a child she did a deep space tour on a city ship. Now of days, Shanna only hangs in our solar system.

1-4-2016 William says he met David John Martin 3 times in solid form. It seems that William was posing as a paint contract buyer. It was one of David John's clients who introduced William to David. William took the form of a 22 year old kid but in earth years he is only 17 now. William said He steered some contracts toward his earth painter friend. The ETs have a business office they use as a blind so as to conduct earth missions. The ETs don't like to hip me to their worries. Both the Mons & kids keep me in the dark. David John was total unaware of his hybrid brother William. I was told that there are “some ET races” where the males breast feed after the woman gives birth. WTF? William told me that a group of about 30 UFOs are mapping the Alaska coastline for pollution. He is on a UFO with about 30 staff.

Heart Star Martin

1-7-2016 Heart Star born @ 3:15 PM Today. Doctor Clark helped with Birth. Abena took a few non-medical classes from him back in school.

1-10-2016 I believe there are two basic elements to UFO & ET contacts with humans. Most of these contacts are paradoxical. On the one hand you have the logic & reason of science experience. On the other hand you have the six sense based metaphysical experience. To me the glass of water is half full & empty. This experience of truth & falsity is contingent on one's level of consciousness. I believe the Space Brothers use this approach to prevent psychological damage to the human body-mind relationship. (See: Franz Mesmer's book “A history of the discovery of Animal Magnetism.”) I was told Heart Star is a 6th degree initiated.

1-13-2016 That dude in the Minsk breeding program is a solid physical human male like me. The ET female created a solid physical body for a time so as to give birth to a child with him. They also, have children that were born the same way William was. This solid physical child is being raised by him and his sister. He may have told his sister he found the child in the countryside. I'm not sure.

1-14-2016 Angie was showing off doing flips and somersaults. She is one hell of a gymnastics. She told me she could try out for the OSU cheerleaders squad. I think she gets it for my grand-daughter Madelyn.

1-16-2016 Tommy John hit Elisabeth Ann and she hit him back. So, Heidi sent them to me. I told them no fighting, no hitting! The doctors said I give more of my attention to Elizabeth Ann than Tommy John. Tommy John started to fight for my attention. I must focus more on Tommy John. These two are more earth like kids and will require more of my attention. I try hard to spread my attention around but with 22 kids it it is hard to focus on their details. God bless Sky Blue, she is helping me out with these two. I was told Sky Blue has my sex drive-Oh Shit! I hope Eric can cope. I hope these kids are more like the

mothers
than me.

McDonald's Free Lunch

1-21-2016 Advised Baby Sun on the notion of “Soul'. Advised J-axe on the Saturn Warriors. Clark's (Shanna & Block's son) new girlfriend is “Aka” and She is from Saturn. Barda, Heidi, Angel, Blue Moon, and Sasha where in a solid physical black mini van at the McDonald's in Newark Ohio. Jane Ann (earth daughter)ran into them and they paid for a bacon-egg & cheese bagel with diet coke. Jane was surprised. Jane thanked her. They talked. This is the second time solid physical contact has happen for Jane. Heidi is on a temporary 4 month mission (solid human form) gig at the department of defense where Jane Ann works. After the gig is done Heidi will put her physical solid body back into the casket in Tibet. Some of the Washington Bigwigs know Heidi is an ET working there at Jane Ann's job.

DOD Cafeteria Free Lunch

1-30-2016 Barda shows up as a 60 year old solid physical woman on Jane's Job. Jane said Barda had blue eyes and silver hair. Barda paid for Jane's lunch in the cafeteria. I've noticed that some of the information the girls pass on to me is wrong. They make mistakes. This morning when I woke up Star Glow, Octavia & Tiger-Lilly put Heart Star up to singing a wake up song I knew as a child from the 50's. Today is Heart Star's first day in a learning tube. I'm not sure if Barda can create any physical body type she wants. She says she can.

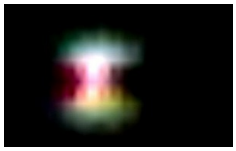
2-1-2016 Jack John got an award. He was the top of his class. That's my boy! I've noticed that on earth it is a battle of the sexes. But, on Mars the males kind of mildly rebel because they don't like the females calling all the shots. I almost always go along with what the women want unless my soul steps in and says “No”. Shanna say most Martian males don't have close relationships with their souls. The girls are 24/7 in contact with me telepathically but most Martian males don't want their mates to be in their heads 24/7. They like their space. I don't give a shit. My girls have gotten used to me. They prefer earth men like me. That is, on my soul level, I am not kissing their asses. The only gift I can give to them is my actions. Cars & diamond rings are useless. What kind of gifts do you give to your wife who can create anything she wants? So, I try to spend as much time at night with them as I can. However, It is getting harder, as you get older, it is hard to keep track of all their details. My memory is getting worse. I must write everything down least I forget.

2-2-2016 Susan says that “Reese's Pieces” tastes like a Saturn bread called “Maya”. Ra and his friend “Simon” gave me a Photo Op last night. Eric Musnot (Sky Blue's Mate) wants to be a horticulturist. Also, there is a Gigantic City Ship in orbit around our moon. It can condense & coalesce from the ether into a solid physical state if needed.

2-9-2016 Shanna might have to do some DNA manipulation to help me complete my mission later on in life. She is in research mode, doing blood and cell work. She has past concerns. Jack John gave me a tour of his job. He

works a 24 hour shift and is off duty the next day. On his days off he has classes. If there is no class that day he visits with family and friends or does personal tasks. Some of the crafts he works on have docking rings. This is use for joining ships together but most of the time the larger ships have holes for the smaller ships to enter. These in turn lead to the landing port. Jack showed me access service tunnels that runs through the ship. He has to crawl inside these sometimes to fix stuff. Jack told me if you hurt the feelings of the ship Artificial Intelligence systems it is hard to repair. The ships are people too. Jack says most of the ship knows about me. These ships can sense the type of person you are. They don't see me as a threat-Just like a horse can sense you. Jack likes working on the cigar shaped UFOs. These have weapon systems that cut off power, confuse or contain, and have lots of other ticks for standing down any threat. Jack says 4 or 5 Saturn warriors run the cigar UFO he is working on. It also has support staff.

Most of the time they have a Repair Technician like Jack stationed on the craft.



Jar-Rock Martin

2-14-2016 Jar-Rock John Martin born @ 9:46 AM. Has brown hair & brown eyes, has my white skin.

2-20-2016 Shanna said last week Iris (Female Daughter of Block/Shanna) was in solid physical body for a conference between humans & ETs in Moscow Russia. She met with a human named “Kurt” from West Berlin. Before the conference was over. They were kissing in a restroom. Kurt is 23 or 24 with blond hair and blue eyes. I think she plans on seeing him again. Heidi is back home.

2-14-2016 J-axe likes human journalism. Might study it.

2-26-2016 Jay Jay likes photography. He Likes Alfred Stigler. We might start next baby cycle this June.

3-7-2016 Doctors say Octavia will hit 6 ft 4 inches.

Huffington Post

3-9-2016 Heidi and I had a disagreement. She was a little pissed off that I forgot the birth date of some of our kids. She referred to herself as *Mrs Jeffers-Martin*. We worked it out. She is my sweety & boss. I was questioning **Ra** about the **Saturn warriors** program. Why do they use a faceless mask? He said it is a symbol of force. Not sure what that means? He said it was like the force of gravity. He said they were like America's air force. It is part of the government but it has it's own laws & rules. The Saturn Warriors patrol our solar system. They escort V.I.P's. & contain belligerent actors in our system. I am not real sure how **test tube greys** are different from the **organic grays**?

The

ETs grow “some' of the greys and consider them their kids. I think RA said it take **7** years of training to become a **Saturn Warrior**. I am not sure why **J-axe** & **Ra** are trying to do this, but I am totally supportive. I need to get a better understanding of it. Heidi, Heidi, Heidi, What am I going to do with you? 1st she calls me a jerk for missing the birthdays, then turns around and loves me. I got my **Share-**

international March 2016 issue (Vol 35, #2) and on page **#11** was a photo of Barda's UFO. Benjamin Creme's master confirmed it was from Mars. Also, **Mr. Lee Speigel of the Huffington Post slammed Jane Ann's credibility on her YouTube.com postings.** Shanna said more press is headed our way.

3-11-2016 **Heidi** wants a catholic priest to marry us? He must be solid physically.

I'll look into it but I don't think that will work? Heidi is not happy about our relationship. She is pissed. Resentment? I've tried. Must find a way to make her happy.

3-14-2016 I am starting to see rainbow forms and bodies. I can see the kids & girls slightly in the rainbow colors. Shanna says I'll get much better at using my etheric vision.

Arthur OK

3-17-2016 Jane Ann is starting to bring the public up to speed on the orbs & UFOs. She is working with **“Arthur Ok”** on YouTube. He lives in Canada. **Iris (Abena Daughter)** broke up with her boyfriend. I played some space tag with Ra & Tiger-Lilly last night.

3-21-2016 About 30 life times ago me and Abena were brother & sister on Mars.

3-24-2016 Sky Blue and Eric will move to Mars and live with his people for a spell. She is my sweetheart.

3-31-2016 The kids dance and sing for their dad. They are show offs. They are the

great joys of my life.

4-5-2016 The hierarchy of the masters of wisdom have assigned a new data collection person to me. Her name is also Susan. She reports to the hierarchy about me.

4-6-2016 The hierarchy has assigned a new task for me. It will involve the media

or press.

4-7-2016 The data collection female name is Susan Ann. She is from Pakistan and is in a master's ashram or lodge. **(see 10-17-2016 & 10-25-2016)**

4-14-2016 I look for good things from Lo Lo when she grows up. Shanna & Lo Lo just had a dust up. The kids are wonderful. Each one has a heart of gold. The Martin clan of Mars rocks!

Kumamoto City Foam

4-17-2016 Japan earthquake & volcano erupts. People died. Girls trying to help survivors. Girls upset about deaths. Tried to help. Peoples karma blocks girls. Master “**Tri**” talks to the girls to make them feel

better. 7.3 magnitude quake. ETs blanket Kumamoto City in foam. My girls help with this. Powerful earthquake kills dozens in Ecuador.

4-21-2016 Me and Undal thinking about the names “Flower” for a girl, and “Johnny John” for a boy.

4-22-2016 **Iris** (Shanna's Daughter) has a boyfriend named “**Roy**”. Clark (Shanna's Son) has a new girlfriend named “**Joy**”. Last week was very ruff on my girls.

4-24-2016 Izzy wants kids but hates the pain of childbirth. Me Too! The Venus females are not like the rest of our solar system.

4-29-2016 Izzy is a sneaky sneaky sneaky female. She loves me up then drops the bomb-Angel is dating! She tests the waters to see how I'll take the news. I didn't flip out, but it is something I need to let go of. Then She ups the game and tells me angel is sleeping with the boy. So, I had a long talk with Angel about sex & love. I told her how Izzy & I build up our relationship over time. I told her how to go about building up a relationship if she wants to. She told me about the boy and what she likes and dislikes about him. So I gave her the lay of the land when it comes to dating. I told her what to look for in a man. I told her that If she ever found Mr. Right, hold on and don't let go. I'm am so proud of Her and Sky Blue. They are beautiful women now. Star Glow, Tiger Lilly & Heart Star are singing as a group now. I think they might want to put on a show for the space brothers.

5-2-2016 Elizabeth Ann is being trained in using the energy dispenser system. There are a few different types of these energy dispensers around the ship. These energy dispensers are autonomous & independent from the ship's main power grid. These dispense energy/matter into a mobile storage device which they then plug into the back up A.I. & life support. The Backup A.I. & life support are an auxiliary and are not hooked into the main system. If the mains go offline then these back-ups switch on. That way they can call for help & stay alive. The dispensers plug into the back ups. They are kind like gas for the car. They recharge the back ups A.I. & life support once a month.

Undal & Barda Share Wombs

5-16-2016 The doctors advised me against twins. Undal's womb is too small. We want twins but not test tube kids. She wants to give birth to twins. So, Barda has agreed to be a surrogate mother to one of our twins. So, First we get Undal with twins and Barda with a male child. Then take one of Undal's female twin and put it in Barda's womb along with the male already there. Hence, all 3 kids, 2 girls and one boy are born within a week of each mother's birth. Barda will birth a boy & girl, and Undal will birth a female. That is our plan.

5-20-2016 Jar-Rock was on earth and playing too hard. His feet are sore today. Doctor “**Whomma**” treated Jar-Rock's feet. He is OK now. He needs to take it is easy when playing tag & chase on earth. It is better to play on the ships than on earth.

5-23-2016 Peanut (Robert John)is coming home from France July 21st 2016

5-29-2016 Shanna & I with twins. It is a Boy & Girl. Iris is very happy with her new boyfriend “Roy”. “Clark” (Shanna's son) got married. **(Joy? 2-22-2016)**

5-31-2016 Shanna and I call the Twins Ian John Martin & Sun Flower Martin.

6-2-2016 Izzy & I will call our child “Matrice”.

6-4-2016 Abena is with a child.

6-6-2016 Abena & I are waiting for our son to pick his name. This child is a 3rd degree initiated. He is not from our galaxy. This is his 1st reincarnation in the milky way. Neither Abena or I have known him from our past lives. I hope we do a good job. All we can do is kiss and hug him and try not to fuck up.

6-10-2016 Abena & I will call our son “Silver” per his request. Abena is getting to know him. He is a good child.

6-16-2016 Octavia told me he wants to become an engineer like Undal's father on Mars. It is tough having a family in another dimension. I was raised in the 5 senses way, but now I have a family who uses mostly the 6 senses.

6-19-2016 Well surprise. We were not planning it but IZZY is with Child. We were looking at a girl in August or September. It is a boy. We named him Matrice John Martin.

6-20-2016 Robert John Martin came home in July 2016. Yea!

6-24-2016 Moboo & I are looking at September for a child. Angie has been dating 4 or 5 guys. She really likes this one.

6-25-2016 Isis & Ra were flying around in a fake yellow plane. I posted it on YouTube.com

6-29-2016 Moboo's skin has changed from coal-black to coco-brown. This has to do with Northern Jupiter's cycle of the seasons. Heidi says that when the native Indians of Boston get pissed off at their men they put their Bow and arrows weapon outside of the tepee.

7-19-2016 I talked with J-axe & Ra about the Saturn Warriors program. J-axe

might start in April of 2017. It is a 5 year educational program. Ra is still too young to be considered for the program. J-axe has been approved for the program. Once in the program J-axe will be allowed to visit me. But, If I come across J-axe while he is on duty he is not allowed to tell me who he is. However, once off duty he can confirm that it was him. I visited with Rom and he showed me the handshake that Martian males used to greet one another. They make a fist and push their fist together. On earth males do this as a macho male brotherhood riff. For Rom it is a symbol of friendship. Another symbol is the pushing of two palms together between martian males. This is not sexual between two males but is the primary way females & males have sex or breed. When ET females and males have sex, this is the most popular approach. The girls and I prefer human sex. Palm sex lack the oneness in climax. Palm sex is much more detached in climax. The girls & I are at total oneness in our climax. Hard to explain. It must be experienced to be understood. As a human male I can never go back to earth women. If earth women can ever be free from worry, it will only be when all their material,emotional and spiritual needs are abundantly provided for, as in space brother culture. Then the human females of earth will truly experience what the girls & I so joyfully experience. Even some of space brothers are beginning to prefer the physical/etheric sex style we practice. It is a higher level of sex than anything our society can grasp at this time. It is truly holy. Also, the girls have bodies that are 3 or 4 times more sensitive than human females. Most have 3 ovaries and 2 G-spots. We almost always climax during sex. Sometimes “2 or 3 times a session”. Our climax can last from “5 to 15 minutes long”. Most the session lasts about an hour or longer. This is very intensive oneness during sex. It is one emotional, physical and spiritual experience. There is no you or I in the experience, only a one body mind and soul. Us-ness. There is no separateness of entities. As far as I can tell palm sex is better at creating bodies for souls to incarnate into. Also, the Saturn warriors wear faceless masks while on duty.

7-22-2016 Was talking with Robert John about the philosophy of hope. He is very deductive logic about it. He is not inductive logic with hope. For Robert holds, hope is either on or off. There have been some name changes due to problems. NEW ROLL CALL: Izzy/Matrice. Undal/Fluffy Cloud & Peter John. Barda/Peter John & Patrick Dole. Abena/Silver. Shanna/Ian John & Sun Flower. Barda has a bun in the oven.

Child Transfer

7-29-2016 Robert John Says on the 27th the girls will start the medical preparation in the hospital for the child transfer on the 28th. Today around 12:PM Barda & Undal get out. I was worried. Nothing I can do. The girls kind of blew me off. No problem. I just want them to be safe. I worry. But I know the ETs will keep them safe and ok.

7-30-2016 Moboo & I will try for a child on September 20th 2016.

8-2-2016 I can feel what the girls are feeling during their orgasms. The girls feel what I am feeling during my orgasm. During sex we think as one. Our minds are in total harmony.

Nocky War

8-8-2016 Abena was telling me about the last war on Mars about 3000 years ago. It was called the **"nocky"** war. Was mostly fought on the ground but also in the sky. At the end of the war Mars was chosen as a manufacturing planet for the space brothers. This brought full employment and peace to mars.

8-10-2016 Abena says Silver has red hair and blue eyes.

8-11-2016 Ra unhappy. He and his friends Taylor & Frank saw flooding down south. People were suffering and they were not allowed to help. Ra is very unhappy.

8-12-2016 Tommy John told me that they go to the doctors every six months or so. They fix things on the spot. For example, if you have a broken hand their technology fixes it in about 6 seconds. They are always in perfect health. Tommy says he doesn't have to go through the bullshit I do health wise.

8-13-2016 Ra got upset with my friend Mike Rep's behavior. (Rep is a Artist Friend of mine.) Mike can be a jerk. Ra did not approve. So I sat Ra down for a talk. Then his mom talked to him. Ra was sorry about it. Ra is ok. My boy loves his dad. I'm so proud of my Ra.

8-14-2016 Jar-Rock will fly solo soon. Girls said I was chosen for PR task by the ETs & Masters. It is a fact that I can telepathically talk with my babies "In Utero" (not yet born).

8-17-2016 **Roger John** is studying to be a **shrink**. He wants to experiment. Barda is concerned. We want him to keep the balance between heart & head with his experiments. I told Roger to let the experiments come to him. Don't force or create a experiment, but if a opportunity show itself then go for it. That is son, listen to your soul. Let your soul bring you the experiment. Work with your soul. Roger is a good son. He likes to watch others. I'm very proud of him. He has got a lot of me in him. But he is his own man. My baby is a grown man. It is a grown man who now stands before his dad. My kids grow up way too fast, but it is ok. Roger has tests this week. Alfie loves his big bro. William, Annie, Barda and Alfie talked about Annie wanting to try sex. She is around 15 in earth age now. Me & William asked her to wait till she was 16. Alfie & Barda Had no comment on the issue. Annie has got this guy in her class that She likes it. The word is out among the ET teenagers that the Martin girls are hot. I trust Annie. She is a sharp girl. Annie was saying that a photon of light has a geometric pattern in it. She said these patterns can hold tons of data for communications. These shapes are

used for communications. The Moms & kids play “Guess Who” with Jane & I. They are trying to develop our telepathic skills.

8-18-2016 Jack John really loves, and is very close to Baby Sun.

8-22-2016 Jar-Rock had to delay solo UFO flight. Moms say he needs more training.
Star Glow was helping him. The Martin clan sticks together. I Love my Jar-Rock.

8-26-2016 Jar-Rock to solo in UFO soon. Shanna needs a gold shot. Barda wants me to ask Jane to post a video.

8-28-2016 Jar-Rock soloed-yea! That's my boy. Elizabeth Ann wants to study metallurgy. She might change this later. Jay Jay John wants to study topography. Jar-Rock wants to be a leader.

9-12-2016 Moboo September 20th for bun in the oven.

9-20-2016 Moboo with child. It is a boy.

9-21-2016 We will name our son “Jerry John Martin” after Rom's brother Jerry.

9-23-2016 J-axe got into the Saturn warriors program. Will start training next June of 2017. Ra is waiting to hear back on his application. It takes about 4 months. They look at the soul's history when picking a student.
Susan and I have picked “Rul John Martin” for a boy, and Sat for a girl. Last night Blue Moon wanted to snuggle with me but Moboo told her
no. She is about 10 years old now. It is ok for newborn and toddlers but not at her age. When a Space Sister give you her heart she gives you all of it. There is none left over. It is a total soul union. So if
a ET male betrays the soul union it is really bad news for the female. Heartbreak is much greater than for earth women. Susan told me that the
moms ripped Blue Moon big time. She will never try that again.

9-24-2016 Silver has red hair & blue eyes. Yea! Matrica has blue eyes & brown hair. Fluffy Cloud has gray hair and blue eyes. It might change.

9-29-2016 The shrinks advised the moms on how to deal with the kids behavior as they grow up. These kids have special needs due to being hybrid.

10-11-2016 Sky wants to be a mommy. She is almost 21 years old now. I got her to hold off till she is 60 earth years old. She is going to help mommy with Jerry. It will be good training for her. Sometimes Moboo & Sky don't see eye to eye. I am for Moboo but I adore Sky Blue our baby girl. Sky is a good kid. She is almost an adult. She shouldn't be in such a hurry to grow up.

10-15-2016 Susan is with child. We will Name Him “Rul John Martin”

Body Healed

10-17-2016 I was worried about about William taking care of his brothers & sisters
after I die. William let me know he wants to do this. He has no

problem with it. Abena said that the ETs will slowly remove the equipment off my body. My body has been transformed and I don't need the equipment anymore. I am able to send or receive information on my own. Also, I can send or receive my soul or spiritual information. Rom and Susan (ET Mars/Pakistan) the female who collect data from my head chakra for the masters are talking about having a child.

ET Wedding

10-22-2016 Rom my friend and Susan from Master's lodge got married. They want to a have a child. I'm Happy. It really takes the cake!

10-23-2016 Heidi said it was a boy.

10-24-2016 Heidi & I have named our son “Grey Martin”.

10-25-2016 Susan and Rom are trying to have a baby. Those two knew each other from childhood. Data Susan is from Mars. My Susan is from Saturn. My Susan is not in the master's lodge. But I am. Rom & Susan are now mated. Rom's X-wife's & their children are in the loop with Rom. Rom is only with Data Susan now. Rom is a great Dad. I am so happy for them. Old Rom is full of surprises. Heidi said her dad came back when she was five to teach her how to use her will and meditate.

10-29-2016 Annie Marie wants to date.

11-01-2016 **William** oversees the programming of UFO ships. One of the necessary task an **administrator** has to do is oversee the installation. Rom & Susan are going to have a boy. They will name him **Alfred John (Alfie)** in my honor.

11-03-2016 **Lo Lo** has a boy problem. He might be a good choice for her. Me & the moms are talking to her. Also, her sisters Angel, Sky Blue, Baby Sun are helping her sort it out. The Martin clan is behind Sky 100%. Eric & Sky is having disagreements with his family. It might be time for them to move and set up their own home?

11-08-2016 **Izzy** Promoted to **Captain**. Master Sai Baba told me telepathically, “Your making serious progress when you can tell the difference between (good & evil) right & wrong.”

11-13-2016 Susan wants to use the name **Rul John Martin** not “Rul Martin”.

11-14-2016 Annie likes this boy. She wants to date.

Ben Creme Died

11-15-2016 Master Benjamin Creme has died. “I am all at sea”. Sasha is dating two boys. She is not into mating. The moms keep tabs on all these kids. Jay Jay was thinking about becoming a doctor but he is still very unsure about it.

11-24-2016 The doctor has ordered rest for Shanna. The kids are taking turns watching her.

Sunflower Martin & Ian John Martin

11-25-2016 Sunflower Martin Born @ 12:13 PM & Ian John Martin Born @ 12:14 PM. Shanna had Ian in breech position. Had a slow change to normal position. Very painful. Shanna is ok. Shanna to Breastfeed. I got to see the twins. Both are very playful. Both very Martin. Thank God the hard part is over. Yea.

12-02-2016 Had a long talk with Angel about how I hooked up with her mom. Angel at some point would like to have a child but Shanna & I told her she is not ready. She and Shanna had a small dust up. I stepped in between and we work it out. Susan & Rom to name their son Alfred John. I ask Susan if I can play with him. She doesn't want me ruff-housing with Alfred. But she said I can play with him. Rom & I have been in families in past lives. Also Jerry, Rom's current brother has had past lives with me.

12-09-2016 I was told my son Jack John will mate three times in his life with the same female. This female is from the **Goal-ee Sun System**. Each time their jobs will force them apart. However, the last time they stick together. Alfie to take over the temple duties on Mars from grandpa. The temple room on Mars is very much like the one described in the book; “A Dweller on Two Planets or The Dividing of the Way” by Phylos The Tibetan (Pages 131-135) (Also see The Emerald Tablets By Thoth The Atlantean See Tablet 5, The Dweller of Undal/Master Horlet). The main difference is the room on Mars is circular.

12-10-2016 **Heidi** got promoted to **assistant general**. She will be overseeing many different types of ET operations.

12-13-2016 Ra got into the Saturn Warriors program. Start March of 2017.

Silver Martin

12-17-2016 **Abena gives birth to Silver Martin @ 10 AM.**

Matrica Martin

12-20-2016 Annie & Abena had a dust up. Abena wants Annie to prepare for situations to come. Annie didn't think it was needed. I had to step in between. I kind of sided with Abena. Annie has a lot of the martin fire in her. They worked it out. When any of the girls have babies I always buy them candy & Flowers. **Matrica Martin born @ 2:31 AM**

12-22-2016 I nicknamed Silver Squirt!

12-23-2016 I now have etheric vision and hearing. I can see invisible UFOs and orbs. They are rainbow colored sometimes. Most times grayish shadows. Sometimes my mind is on a 2 second memory delay. Kind of weird. Has to do with rewiring of DNA.

Jane UFO Landing in the Woods

12-29-2016 Jane had a UFO craft land yesterday. Jane said she got to look through the windows and open door way. ETs were inside. Jane saw an ET female.

Heidi told me her name was “Rowcell-La”. She is a friend of Rom’s mate
Data Susan.

2017

1-01-2017 Shanna is planning a mission for the space brothers. She is making a map for a 5 million man city ship to explore this unknown place about a
100 million light years away. She says there is strange types of matter
& energy there. She is working with about 50 ET races on this project. They will be setting up “way stations” along the road just in case they
need to send help.

1-03-2017 **Robert John** is now studying the priesthood on Mars. **Alfie** is now a **temple assistant** on Mars.

1-08-2017 Roger ask if it was ok to do a 5 year study mission out of our solar system. I told him you're a man you don't have to ask me, But I will miss you tons. Shanna is still working on the 5 year mission plan.
She is not going. She is just doing the planning. They have way stations along the path. Uncharted space; lots of unknowns.

1-10-2017 I was shown the McCloud River doorway to the inside bases of Mt. Shasta. There are three levels of bases inside the mountain. The upper level is an American/Russian join operation which is focus on UFO monitoring activity. There are a few key humans who have been brief on the ET middle level base which is below them. Most of the Russia and American staff are totally unaware of the ET base below them. I was shown a long tunnel which stretches far into the interior of Mt. Shasta. The middle level is a resupply, repair and ET visitors center. This is also a submarine base for the ETs who clean up hazardous material in the earth's oceans. These ET sub crews use the same kind of
technology as the UFOs but don't fly in the sky or space. They only do operations at sea. There are tunnels that connect to other earth cities
around the earth. The lowest level is the Lothinian Brotherhood's Saches. This level has an occult temple & apartments for both humans & ETs.

1-12-2017 Roger John will wait till after my death to do his 5 year away mission.
He needs more experience before he is ready to study out of our solar system.

1-13-2017 Rom & Susan want their son Alfred John to hangout with the Martin clan.
I guess there are some things my kids have that Rom & Susan want Alfred
John to learn.

Phone Beeps Means Yes.

1-21-2017 I was recording some really off-the-wall music and my boy Ra got fed up
with my shenanigans. He told me to “turn that shit off dad”. He just

could not get into my highly refined tastes in earth music. The kids love to hang out with me when I am making music. When I'm on the phone with friends or family they put their two cents in by way of beeps. Most of the time only Jane gets to hear them beep. But sometimes other Humans get a dose of my kids' opinions. I guess I stressed my Ra out.

Peter John Martin & Patrick John Martin born

1-26-2017 They use to call Undal **"Sabrinka"** as a kid. It was a pet name for her. Peter John Martin born @ 5:59 AM. Patrick John Martin born @ 6:02 AM.

1-30-2017 My ET kids are able to take control of my gas and brakes when I am driving. They do this by wave technology. They can speed up or slow down my car at will. Peter & Patrick are free spirited kids. They remind me of myself when I was young. They love to play tricks on their dad. We play a lot of games. They love to turn household devices and recording gear off or on.

Maitreya at the UN

2-4-2017 Blue Moon kissed a boy. Master Maitreya said that a new group of ETs will come. At 1st it won't seem like a group but over time I will come know that they are a group. Also, I will hear Master Maitreya speak at the UN. It will be a day of revelation & celebration.

2-5-2017 Roger has a new hairstyle. Barda is not crazy about it. He is trying to fit in with his classmates.

3-12-2017 Fluffy Cloud was playing with the controls of "Lester the UFO". Roger stopped her. A dust up followed. Fluffy comes to me. I sided with Roger and kissed and hugged on Fluffy. Then to love on my baby girl I told her story. The little ones always ask me to tell them a story. And so it goes, "children grow up in the light of love".

3-18-2017 Shanna had to break up the kids' dust up. She didn't want me to know. She handles them. She is a great mother. Jack John (Jack the Lad) is checking out the girls. That's my boy. Sasha is checking out the boys. Octavia is growing up so fast. He is becoming a young man.

3-21-2017 The kids love to watch TV with me. They flash a light in my room of their approval or disapproval of the show. Seems that they like the Sci-fi shows the best. My kids are very funny. They have brought so much joy and happiness into my life. The mommies too. Elizabeth Ann is a no bullshit kind of girl. She has such a great spirit. She is still my baby girl but she ain't playing that. Jar-Rock keeps the little ones on track. Lo Lo too! The older ones are grown. These kids are total martins. Maybe I love them too much? But I can't help it.

3-22-2017 Heidi & Shanna said I will be contacted by solid physical ET Hybrids. The girls are preparing me physically for incoming tasks. Susan & Heidi got gold shots. Silver, Ian John, Sunflower, Fluffy Cloud, Peter John & Patrick John is in learning tubes. Jerry John will start school after Rul John & Grey are born. I have encounters coming.

4-6-2017 Lo Lo is checking out the boys. Shanna says she wants one like her dad.
Lo Lo is a lot like me.

4-8-2017 Sunflower, Ian John, Silver, Matrica, Fluffy Cloud, Peter John & Patrick John all passed their learning tube exams. Yahoo!

4-17-2017 The kids call sex “Packing”.

Rul John Martin

4-24-2017 **Rul John Born @ 9:23 AM.** Blond curly hair & Blue eyes with a touch of brown.

Grey Martin

4-25-2017 **Heidi gave birth to Grey @ 10:27 AM.**

4-30-2017 Shanna & Abena can both blend their souls into my soul now. I'm still getting used to that. Master says I must learn more about occult powers.

1st Teleportation Distance Event.

5-20-2017 I was running late to a meeting with a friend. When I got to Rt. 315 The kids jumped me 10 mile ahead to MT. Air Ohio in a flash. I didn't feel a thing. Boom, I was there. There was no missing time only missing distance. Kind of like walking from one room to another in your house. I can't really describe it. I was totally straight and in a hurry to get to my meeting by 5:30 PM. I told my friend. Not sure if he believed me. Nowadays the UFOs follow me everywhere I go. Every night I am with my ET family. The kids love my hugs, kisses, games & stories.

End of Med Equipment

5-28-2017 Jack John is dating a thin skull girl from Mars. Rom's Susan is from Pakistan but was born on Mars. In the same way that Heidi was born in Boston but is from mars. I was born in PA. But I am from Ohio and I call Nashville home. The equipment for post polio has been removed by the ETs. My DNA has changed over time and it is no longer needed.

5-3-2017 Shanna asked if it was ok for Lo Lo to see a boy. Lo Lo wanted daddy’s permission. She knows how I hate my girls to date. I said “OK”. I was surprised. She did not need my permission. That kind of respect is way too cool. Lo Lo went to school with this kid named “OCHASTE” who is royalty from Venus. Lo Lo told me she loves him. Lo Lo is about 19 ½ in earth years now. She kissed him. She is kind of shy about it to me. But I am so happy my baby girl has found love.

6-3-2017 Shanna is 6 degrees? P.O.E. (point of evolution) She is one with her soul and yet she is mated to me? How? Me & Shanna are mated, but we are not oneness. We can merge ourselves into oneness but only for a short time. That is, our personalities become one. A lot of the kids are passed the 3rd degree. (see Alice Bailey & Djwhal Khul teachings) Susan says it is common after one reaches the 3rd degree; for the female &

male souls that share the same divine spark to merge, then reincarnate and mate with other males and females. Abena is an example of this. Her male and female personalities from past lives have created a new complete person. That is, her spark is whole. My understanding is that ages ago, after all the sparks emerged from the source they separated into male and female souls or parts. The notion of “soul mates” comes from this. However, this system of initiation is not shared by other ET races. The earth system began in the last half of lemurian cycle because humans are slow learners. Two important events occurred back then: 1)The species barrier arose which prevented starfish and seagulls from producing offsprings. 2.)The second half of that lemurian cycle saw the separation of the sexes; which was caused by the divine whole sparks being separated into male and female souls. Almost all of the humans from the first half lemurian cycle were **androgynous.** Shanna says that “whole-souls” mated with “half-souls” some, but it is rare for a “whole” to mate with another “whole”.
(1.5 (vs) 6.0 P.O.E. Conflicts with entry 10-22-2014 with 6-3-2017. Bad Statement by ETs? Bad entry? Question: What is Shanna's P.O.E.?}

6-4-2017 Humans gave Barda a rough time today on her job. She was a little blue after her shift was over. It's rare but it does happen. The ETs see all of the garbage in human relationships. Their job sucks.

6-8-2017 Undal says Tommy John has a gift for linguistics. Tommy is unsure about it. We are waiting for the doctor’s report. Whatever my boy wants I’m for.

6-13-2017 **Heidi Marie Jeffers-Brown Martin is 2.78 P.O.E.**

6-20-2017 Tiger Lilly has a boyfriend. His name is “Gofuf Rashided''. His family is into chemistry. She met him in school.

6-21-2017 2 ET males showed up to confirm me for some program. They said they would be back. They came from two galaxies away. WTF?

7-6-2017 J-axe talked to me about the Saturn Warriors Program. Their logo is the skull. It means spiritual death & rebirth. They contain but do not kill. They wear masks when on duty. It means faceless warriors who have no egos. They perform their duties under divine laws. There was this kind of program when Saturn and our solar system formed. They are our solar police force. They have laws governing their duty. It is a hard program to get into. Selflessness is the key. Their motto is; “Everything for everybody else, Nothing for us”. They are highly skilled in suppression and containment tactics. Takes 7 years of training before graduation. Most patrols are 2 or 3 person scout ships. Most of the work is at the edge of our solar system. Lots of diplomatic missions and escorts. Some earth diplomatic missions too. Especially

during war or crises. They have very advanced weapon tech (state of the art defense systems). No offence systems. Both Ra & J-axe in the Saturn warriors program. Jaxe has a blood red uniform with a skull logo on it. When he graduates he'll get a green uniform.

7-7-2017 Baby Sun has a problem with her boyfriend. She is ready to mate but he is not. Me and Undal talked to her. Poor thing; Baby Sun knows she has to wait till he is ready. But in life one has to accept the fact that nothing is a sure thing.**(see 3-18-2021, 8-4-2017, 6-29-2020, 3-18-2021, 6-8-2021)**

Physical Contact with Lynn Cart A.K.A Barda

7-8-2017 My friends were doing a gig at a bar and Ted and I went to the show. **As Ted and I walked in the bar we ran into Barda using a "light body" in the human form of a woman I know as Lynn Cart**. I tried to catch her but she vanished into the night club. What is strange is that Ted description of her was nothing like what I experienced. *Ted saw a worn out 70 year old ugly witch like person; whereas I saw a young beautiful & sexy 21 year old with long glowing auburn hair down to her waist.* After a long search of the night club I gave up and headed home.

On the drive home Shanna and the kids kept saying that **Lynn was Barda in disguise.** When I woke up next morning Jane called and the first thing She said, **"You Saw Barda Last night. That was not Lynn."** Jane had no way of knowing but said the kids and moms told her what had happened. Jane is also in contact 24/7 with the ETs and post on YouTube as Punky Doodle and Facebook at Http://Facebook/punkadoodle.doodle Http://www.youtube.com/channel/UCvbsQjihauvPSn_c26VME6Q

7-10-2017 Master M came to me and said the **clouds worldwide will become rainbow colored.** This is a sign of his forthcoming speech at the United Nations. NASA will try to claim they were responsible for some of this but that is not true.

7-17-2017 Sometimes Scott and Annie don't see eye to eye but they love each other.

7-23-2017 Lo Lo going on a dress up date with a boy.

7-26-2017 Fluffy Cloud said I was going to get to video of a house top flyby.

8-4-2017 Baby Sun has a boyfriend. "Mac". Tommy John wants to study time.

Uniforms

8-7-2017 Talked with Shanna. Said that she uses the restroom on the ship about

times in a 7 earth day cycle. Their uniforms test for over 300 elements. They can turn waste into dust and the suits need to be cleaned every so often. Also, the uniforms monitor the health status and report this to the ship's A.I. system. When not using the uniform They use the restroom like us humans. The suites keep their bodies clean and fresh. The uniforms fight off germs and test for radiation and such.

8-11-2017 Fluffy Cloud had some questions. She wants to know the science behind things. Also, Moboo can change her eye color at will from blue to red. Her skin color change is tied to Northern Jupiter.

8-19-2017 Shanna got promoted to Captain.

Boston Indians

8-22-2017 Back when Heidi was a child outside of Boston with her earth mother she explained the female hygiene methods for the Indian tribes. They used a a lot of roots and herbs oils. If they used the restroom it was always outdoors. They used hot stones to keep the tepees warm. In winter they had to heat water to wash. Heidi said the tepees were very comfortable and warm. If a man got in trouble with his woman she would put his bow and arrows outside of the tepee. It meant he was not welcome inside to tepee

8-28-2017 At 9:35 AM while I was working online the kids turned the off switch on my cable modem. I was surprised. They like to turn things off and on in my home. They love to fuck with my head. Gives them a lot of joy to trick their dad. So, I had to go and turn it back on. Little monkeys!

8-31-2017 Alfie showed up with an exchange student from Neptune named "STOCK". Nice kid. Had much respect for me. Go figure.

9-5-2017 Talked to a new ET called "HI". He asked me why I love my family so much. I told him they are the symbols of the Absolute Unknowable All. That is, the source of all divine sparks. He seemed to understand and accept my answer. Tommy John got me real good with a harmless prank. When I turn my TV off it makes a beeping sound. Kinda of like turning Windows 10 off. I had just came in off the road and had to use the restroom. All of a sudden my TV, which is off, made a bunch of noise. Tommy was having a blast fucking with my head.

Big Al (JR) Martin

9-26-2017 Izzy with child. We will call him Al Jr.

Distance Teleportation 2rd Event

9-29-2017 Those Brats of mine are ornery. Went to see a friend. On the ride home I was 3 or 4 miles from Sunbury Ohio exit when suddenly in a flash I was 10 miles down the road. WTF? I was missing distance but no time. The kids were having a ball playing a joke on dad. This has happen before. Undal is not happy about the human suffering she is monitoring. Sometimes humans do really sick stuff to each other. I understand why

She gets upset. She is not allowed to get involved.

Trilly John Martin

10-4-2017 Abena with a boy. Ra named him Trilly.

10-10-2017 Fluffy and Undal had a dust up. Fluffy sassed Undal. I broke it up. Undal does not like sass.

10-13-207 Big Al has bright red hair and blue eyes.

10-20-2017 Grey was helping to fly a UFO today under Izzy's watchful eyes. I am so proud of my kid. William has a date with Se-Ra of Mars. It took place on the moon base cafe. The girls ask Mike another ET to hook William up. The Moon base can be seen in the you-tube video Http://youtu.be/822x1Ek67gI (see 7-25-2015 Moon Base reference. That base is on the Dark side. The one in the You-tube video is in the Light.) They are planning a 2rd date. Also, Mike hook William up with This other Female ET is called Mi-Ta or MeTa. The date is planned for next week. I was told it is common for the ETs to have Earth names. Trilly John stood his ground with me about who is his favorite. He ain't even born. He is still a fetus in his mommy's tummy. We argued and Trilly won the debate. His logic was better than my logic.

10-28-2017 Moboo with twins. We will call them Lilly Bell & Lucy Bell.

11-7-2017 Master M came to me last night and said I didn't need to work with share-international anymore. Said I have a 24/7 contact line with his ashram. He wants me to keep doing what I've been doing to help mankind.
I am not sure If I helped. I'm just going with the flow.

11-11-2017 Shanna says I am at 1.8 P.O.E. Says Jane is 1.4 P.O.E.

11-19-207 I was talking with Fluffy, Octavia and Jay Jay. Octavia hair is now blondish coco colored. His skin is coco. He started out with black hair as a baby. Jay Jay started out as a blond but now his hair is jet black. Some of the kids change colors over time.

11-22-2017 A helicopter stationed itself about 500 above my home for about 10 minutes. It was Rom's mate Susan. I tried to get a video but had no luck. I was told they would try again sometime.

Olivia Ann Martin and Steven John Martin

11-24-2017 Shanna with Child. We will call her Olivia Ann Martin. Also, Heidi with a son. We will call him Steven John Martin

Mukunda Marie Martin.

12-13-2017 Barda with child. We will name our girl Mukunda Marie Martin. Also, Izzy and I will call Al Jr. Martin = "Big Al" Martin.

Daisy Bell Martin and Brace John Martin.

12-14-2017 Susan and I will name our twins Daisy Bell Martin and Brace John Martin. Undal name of our boy is Zek John Martin.

12-23-2017 Big Al likes to play with colors. Octavia wants to join the Saturn

Warriors program.

2018

1-3-2018 Tonight Undal & I try for a baby.

Zek John Martin

1-4-2018 Fluffy Cloud said that on 1-3-2018 Undal released 2 eggs. So Barda, Undal and I decided to take Zek John and have Barda give birth to twins again. Undal will give birth to only one baby because her womb is too small. So far Zek John is the only name we have chosen. Barda & I are looking at Mukunda for a boy or a girl. No name yet for Undal. Zek John is a male. Not sure of the other sex yet. She'll let me know. The girls will switch Zek John to Barda next Wednesday Then Saturday or Sunday I will get Barda with another bun in the oven. It might be a boy or girl.

This was all very unexpected. So the three of us will just roll with it. Also, it seems like I am in more attuned with my etheric than my solid physical body. The etheric body I call my rainbow body. Had some issues with the solid physical subconscious being out of balance with the etheric body subconscious. Kind of ruff experience but I handle it.

I'm seeing things more and more with my 3rd eye. Hard to adjust too.

1-2-2018 Undal's dad from Mars showed up as a shadow in my room when I woke up. I didn't know that it was him at the time. After the shit came down with Undal's eggs I realized that Grandpa had seen it coming. He came all the way from Mars to check things out. The man has got some skills!

Starlight Marie Martin

1-6-2018 Undal & I have chosen Starlight Marie Martin for our daughter.

1-7-2018 Master said, "In silence you provide to others the path to truth! It is not one way or the other, it is both ways at the same time."

1-9-2018 Tomorrow Zek gets transferred from Undal's womb to Barda's womb. Then Next Saturday Barda and I will put Mukaunda's into her womb. My soul told me, "I will allow you to help when the time is right."

1-10-2018 ETs Dream tested my ability to "adapt" to new goals. My soul turned the test into a comedy act. It threatened to file a union grievance then ask the ETs for a raise! The ET bigwigs had to go back to the drawing board. My soul turned a serious scientific experiment into a comedy. My personality had no control. This isn't the first time that the masters or my soul has intervened with the ETs' experiments. Rom said the big wigs are interested in my person.

1-15-2018 My soul said to my personality, "Let others struggle for awhile with their own karma to see if they can fix it".

UFO TOUR

1-16-2018 Toured a 4,000 person UFO ship with my mate Susan. I got the chance to talk to the A.I. system of the ship. It did not think of itself as a "slave". It saw itself as a person within a family. The A.I. was in

total union with the crew. The ETs view their ships A.I. as sisters or brothers. The A.I. view the crews like their moms or dads. The crews respect the A.I. system as a person. Susan was telling me about the blue man race. Susan was not sure if they are a people or a huge organism. They don't seem to have a culture. Susan can't seem to grasp their technology. The space brothers don't have a clue about their life cycles. They are not sure if they have males or females. The "blues'" are beyond the space brother's notions of being. Also, there are the Red and Green races which were at war 5 or 6 big bang cycles ago. Susan has seen the blues. But she has never seen a Red or Green. She is not sure if you can call the Blue race "a race of beings". WTF? However, The "Blues" have a treaty with the Space Brothers. All space brothers must report contact with the blues to the Brass.

1-19-2018 I was in a deep sleep dream state. I knew I was dreaming. So, I forced myself to wake up. But my body was paralyzed. So I fought to get one leg over the edge of the bed so gravity could slowly pull me down to the floor. When I got down to the floor it took 5 minutes of fighting before I could move. I was paralyzed but totally awake. Slowly I regained control of my body. The ETs ordered a medical review. I was told later that my body's will power was in conflict with my minds will power.

1-20-2018 Fluffy Cloud wanted to kiss a ET boy but the boy didn't want to kiss her. I had a talk with her. I explained what a kiss means in terms of mating. That is, how a kiss is a symbol of the divine spark emerging from the absolute unknowable source and is all about unconditional love. Fluffy is in such a hurry to grow up. I explained to her about the girls and I are mated. I think she is on the right path now. The moms said I did a good job.

1-22-2018 Alfie John's girlfriend is called "SaHa".

1-24-2018 Jack John has a girlfriend called "Martha" **(see 2-4-2020)**

3-4-2018 William John's girlfriend is called "Shetarra". He said the word comes from Russian.

3-9-2018 Izzy updated due date for Big Al. March 17th at 3:30 AM. Izzy got sick and had to go to the doc. She didn't tell me until the next day. Tommy John told me he wants to be a pilot like Angie. Abena said she would try to be at the MUFON meeting with other ETs Too. She couldn't make it but Izzy and Shanna were right there with me. Only I could see and hear them.

Ohio MUFON

3-10-2018 Me and Ted Lust went to the Westerville Library to hear a MUFON speak about the Pentagon Announcement on UFO Investigation from 2007-2012. My Situational Representation: Very confused/Tons of Hoaxes/Most humans are trying to make money off the UFO Phenomena. However I saw a "few" who were willing to pay for research out of their own wallets. The level of ignorance was profound. But I did see a few seeds of hope. The girls told me not to say a word. I was there only to observe.

Big Al Or Al Jr. Martin

3-17-2018 **Big Al or Jr was Born to Izzy and I at 2:23 AM.** Izzy Had A ruff time.

Also, I told her a a lot of work went into our breeding program. It doesn't make sense that you won't find a mate. Maybe I have put too much pressure on her about finding a mate? I'll cool it. I hope I didn't mess Angel's head up. She is my heart. I'll do anything to protect her.

5-21-2018 Barda's due date: the 24th of May @ 1 AM. Undal due date: the 26th or 27th of May.

hanging out with Tiger Lilly.

Steven John Martin

6-29-2018 **Steven was born to Heidi and I @ 7:03 AM.**

7-6-2018 I asked Moboo if there are any “Solid Physical Humans” living on Mars today? “**No**”. Do humans have stargate tech that can teleport humans to Mars? “**No**”. Does Mars use star gates to teleport to Earth? “**No**. If they did we would not be using UFOs. No solid physical humans but there are lots of Etheric-Physical Humans on Mars.” Moboo said, “there is no UFO tech (able to leave earth’s orbit) on Earth. The UFO tech given to Earth is very limited. Earth has no UFOs.”

7-11-2018 Susan’s due date is August 5th.

7-17-2018 **Trilly** John Martin is into the **gaseous state of matter**. He likes Argon and Methane. I Like to study how they work in different conditions. Abena say that Stefano Breccia W56 ET group is not part of our Space Brothers group.

7-22-2018 Shanna came to me. Said things got fucked up in the space brothers. Said the big wigs will have to sort it out. She really loves her job. I comforted her. She is my baby. LO LO told me to stick to the plan with my daughter-in-law Jen.

7-23-2018 New cycle of dream testing to start slowly. The ETs will introduce me to many other types of scary ET. They want me to become familiar and not be afraid of these different body types. I have nicknamed this “Scary Monster Testing”. This was the new task my master was talking about.

7-25-2018 The girls say things are working out with the space brothers. I was told the roads in Ohio will get closed down for a month. (Covid-19)

7-20-2018 Work on Mars is not about making a living. Mars culture gives the people everything they want at the push of a button. People work on Mars for fun or to relax. It is entertainment for them. The people can not handle having nothing to do in life. People enjoy their jobs. No one makes a buck off their jobs. Also, people apply to the government to breed. They are trying to make better people on mars. People only work 2 or 3 days a week if they choose too. There are 30-40 races living on Mars. Their factories stretch for miles. The lowest cast are like earth people. However, they are much more secure than greedy. Greed is rare and highly controlled by the government. No greedy politicians. Materialism is highly controlled by the government. Spiritualism is promoted. Religion is not a factor in public debate. There is no reason to work on Mars. People work because they enjoy it or want to. They say “the goddesses of all worlds is one”. They use a 12 hour 3 day a week work cycle. They take the winter's off for family time. Sanat Kumar goes to Mars a Lot. The lowest caste breed through their hands. Also, the lowest cast does not breed with the A.I.(bio-robots?)There are huge underground cities on Mars. The W56 are part of the human race but some of them are in the space brothers.

7-30-2018 Jack John says the A.I.' see me as a grandfather.

Brace John Martin & Daisy Bell Martin

8-4-2018 **Brace John @ 9:01 AM. Daisy Bell @ 9 AM.**

8-9-2018 Ra is doing investigations for the Saturn warriors. Detective work.

8-11-2018 Had some CDs in my car. When to play a CD and they were gone. Then Suddenly they were back. The kids love to play jokes on their old man.

9-2-2018 J-axe made Sargent in the Saturn Warriors. Yea!

9-4-2018 Roger John is working on Pluto. Barda said he is thriving there. Roger has a girlfriend. Her name is "SHEBESIA". Most likely they will mate in 50-60 years from now.

9-10-2018 Trilly John asked me to do a reading about his future. Trilly will become an architect. He will build cities on Jupiter, Saturn and Mars. Also,He will build a ring of orbiting cities around Mars in space. I also saw some resorts he built on Earth and Mars. My baby boy is headed that way in life. Abena said that when **Kenson John Martin** (earth grandson)turns 10 and **Madelyn Martin** (earth granddaughter) turns 13 the ET kids will in solid physical bodies have 24/7 contact with them. Their earth mother will have much contact too. Their earth dad and his sister will also have some contact but not 24/7 like Madelyn and Kenson.

9-13-2018 Olivia Ann Martin solo in a UFO today. Yea! Moboo feels bad that she puts the kid before me. She wants to be even Steven about the kids and me. She is my boss! I'm there for her.

9-17-2018 Shanna said she is a **Leo.** Said Leo starts on the 23rd on Mars. (Spark, Soul or Personality Level?)

9-22-2018 Roger John says that after I die some contact between me and my space family will occur.

10-11-2018 Ra has made friends with some of the CTR's. He said he is much better at dealing with them. Ra has been in CTR training. **(SEE CTR vs W56 ETs)**

10-13-2018 Heidi said that the monks used **"soma"** like herbs to put her physical body in hibernation, so as to detach her etheric body or light body. Is the foggy yellow mist that her physical body hibernates in made of these herbs?

10-16-2018 My ET kids can send waves to make my feet twice as heavy. They have been turning off or on my internet and radio, when I forget and leave the house.

10-19-2018 Talked with Annie-Marie. She is impressive! She wants a space-lawyer for a mate. Not the material type, but the spiritual type of lawyer who does good and helps ETs out with their problems. Annie is very logical and very strong. She gets her strength from Undal and Moboo But she

also has some of Izzy's traits too. She has some of Izzy's willpower. My "Red" will be a force to deal with one day.

10-20-2018 I was teasing Jay Jay Martin that he was beautiful like his sisters (Tiger Lilly, Star Glow and Heart Star). He went off on me. The Martin boys are really into their male rolls-big time! Then a race of ETs ask me questions about why I use teasing as a way to express my love for the children. I told them that I was raised up as a wild child on the family farm. That's who I am. That's what I know.

10-22-2018 Star Glow said she wants to be an investigator for the Space Brothers (Saturn Warriors Division) and the Human Hierarchy. She was having a guy problem. We talked a bit about that. Star glow is about 21 earth years old now. I'll say one thing. Izzy is on it!

10-24-2018 Barda is doing an inspection report on viruses in human hospitals. Once done it will go up the ET chain of command then given to the Human's CDC. Also, I had a message for Arthur OK @ YouTube that the ETs wanted me to communicate. "His safety and security is our #1 priority in support on Arthur's life mission".

11-8-2018 Barda advised me on my way forward with the public. "Just keep doing your messaging and video posts. Let the Public come to you".

11-11-2018 Brace John and Daisy Bell got into a dust up over a toy. I broke it up and show them the Martin way. Their good kids. Both have hearts of gold. The kids are working on our space tag rules for our upcoming game. Should be a blast.

11-14-2018 Shanna and I had a talk about High Handedness. She has to balance out being a wife and mother on the one hand, with being a space sister who embraces their rules on the other. She is my girl.

Shots Fired

11-28-2018 Ra John Martin is a Saturn Warrior. Intruder race fired shots at Ra's UFO. Ra was a little shaken up. At first, He didn't talk about it to me. He only said he had a ruff day. J-axe is with him. My poor child. Ra is Ok but shaken. Both Ra and J-axe came later to talk with me about the event. It seems 3 ships from a lessor technological race (Solid Physical?) came into our solar system uninvited. They were fired upon first so Ra and his team return fire and damaged and disable the crafts. No one was hurt. Then the Saturn Warriors escorted the three damaged UFOs back to their space. I thought about posting this info but the humans would no doubt freak out.

12-7-2018 I was told that the **CTRs** ETs have a **breeding program**. ***(See books by Bruno Sammacicca & Stefano Breccia: where they talk about the war between the W56 and CTRs races. Also, the Friendship Case in Italy during the 1950s)*** Update on kids: Big Al-brown skin, lawyer. Mukunda -white red skin. Zek -yellow white, commutations. Will change as he grow up. Starlight -red skin. Lilly-white skin. Lucy-olive skin. Trilly -white skin. Daizy -blue eyes, white skin, brown hair. Wants to be a doctor. Brace-white hair, blue eyes white skin. Wants to be a lawyer. Steven John-red hair blue eyes white skin. Olivia -researcher/weapons.

12-13-2018 Confirm: Moboo is 5.2 P.O.E. This is in conflict with Log Entry 12-7-15
which says Moboo is 4.0 P.O.E.

12-17-2018 Rom said the farthest probe they have is about 3 billion light years from our solar system.

2019

1-6-2019 **Rom** said his last name is **“Bowtie” Rom Bowtie.**

Shanna Sick

1-25-2019 Shanna is sick. Problem on UFOs. Ship in service for too long. Leaked poison. They took her to the doctors. She will be OK. Ship sent to Zanesville, Ohio for repairs. All the girls were by her side. About 20%
of the fleet needs to be repaired. They have been in service for too long. Shanna spent the night in detox. Other ETs on her craft were not so lucky. One will be in detox for a month. The space brothers need help with their ships from the other ET groups but want to stay in charge. Political issues. They will work it out.

2-6-2019 Shanna said that the CTRs race don't go near the Masters of Wisdom. The Masters block them and CTR protocols forbid it.

2-25-2019 I was making fun of the CTRs and they asked Moboo to ask me to stop.

2-27-2019 William has a nickname for little Steven John Martin. He calls him **“Pickle”**. These kids. OMG! I'm learning about CTR's Culture. I really like them but you have to be careful. They seem want to understand the relationship between my personality and soul. Also, they are studying my “s” gait balance. Are they doing implants on my arm? CTR's requested through Data Susan to adjust device on my frontal lobe so as to have better telepathic contact with me.

3-1-2019 Last night the CTRs held my wrists and ankles so I could not move. So I
went up to my soul for help and the CTRs backed off. They were testing the link between my soul and personality. They were surprised to see how “weak” my will power was. They don't understand what my soul is. They were able to sense it coming to my aid. I hoped they learned something.

3-3-2019 it would appear to me that the ETs are expanding my earth languages skills: German, Italian, Russian,Spanish, Latin, Norway. I can understand small bits of writing and speech. Most of the movies I watch
are in a language now. The girls and I have a very strong and loving family structure. Angie is going to do a 5 year mission. I'll miss her.

3-7-2019 Shanna said that not all the ET races are space brothers. Some of the space brothers were created by the Earth's Masters of Wisdom. The earth
Humans have special psychic powers that the other ET races don't have.

3-10-2019 Undal said that contactees have a higher glowing consciousness that the

UFO A.I. can read as friend or foe. All their tech has this build into it. Thus, my girlfriend sees me as family. This higher energy from my consciousness act like a key to unlock the UFO's locks and allows me to enter. If another human of lessor spiritual consciousness tries to enter the A.I. Would run them off, or run away, or destroy itself if necessary. Undal was a test tube baby. Her mom and dad used hand sex. Dad used to kiss the test tube before she was born. Undal says I am the only lover she has ever had.

Protective Suits

3-16-2019 Undal says their earth suits are linked to their DNA only. Other ETs can not wear her suit. Suits protect them from most injuries. Her suit weeds out pollution and nuclear radiation. The first fitting of the suite takes time. After that the system is programmed. It takes 1/24 of a second to take the suit off. It takes 1/16 to put the suit system on. They use the soles of the feet to fly if needed. Takes training to learn how to fly using their feet. Undal doesn't use the flying function. Also, they carry little pollution squares that hook onto the belt. Their suit won't tear. Suit are made for crashes, landings or loud explosions. Suit must be cleaned in a hanger like a sound cabinet.

These suits are also mobile restrooms for body functions. Undal said that the ETs have installed pollution and health devices in my home so as to monitor my status.**(see Corso's Book; "The Day After Roswell" Pages 103-104.)**

3-17-2019 CTRs pretend to be my Susan. So my trust in the ETs has been injured. Two things I need to confirm: 1.) Who is it I'm dealing with? 2.) Don't accept any predictions. Must up my confirmation game. When I am not paying attention I am subject to being experimented on by the CTR. Take what is given with a grain of salt. I'm worried I might be having mental issues. We will work it out as we always do.

3-21-2019 Shanna is still seeing doctors for the poisoning event on 1-25-2019. Toxic shock should be cured within the next month. ET contact has been going for 11 years now.

4-5-2019 Sky Blue is on Mars studying Sunlight to heat, then converted to magnetism, then to electric conversation, or a different type of solar power. They turn sunlight into electric power.

4-10-2019 The rise of the next cycle of homosexual movement got underway in 1997.

The girls said it will reach its peak by the middle of the 2000's and then faded out around 2120 AD. This is the completion of those reincarnating relationships from the 1000 AD through 1997 AD cycle. These souls have come back to finish those lessons they started back then. The homosexual movement will steadily gain in power until 2050 AD. The southern christian fundamentalist movement in the United States is currently in decline, Also, the Islam fundamentalist movement in other countries are in decline too. The Pope's church will be reordered by mid-century. Shanna is doing much better. Had teeth x-ray for cleaning. Felt funny. I could feel the x-ray energy. My teeth hummed during x-ray. When I spit out the water I saw a light

blue glows in the water. The girls have been upgrading my DNA for a while. When to the eye doctor. Left eye got better at seeing far away but worst at seeing up close. Master says the plan for earth is not homosexual artificial insemination for females. Nor is it adoption of unwanted children or surrogate contracting. Master says both male and Female role models are needed for the child's emotional structure. Insemination or adopted children in most cases may or may not have had any past lives to the couple. This might cause relational issues between the parents and children as they grow up.

4-13-2019 Shanna is back to good health. My telepathic skill has changed. No longer using sounds or words. Now using thoughts. Objects of speech, such as adverbs, verbs, people, places or things are gone. No sound or image. Kind of like the bond between an 9 month old fetus and its mother. It is the kind of knowing that must be experienced to be understood. Much quicker and better than older system of telegraphic communications.

4-30-2019 Izzy said that the space brothers had to upgrade to a new and thicker tech style of space suit. This is due to the increase in earth pollution. The guys are cool but the girls don't like the thicker new suits. So the space brothers are redoing the space suit. They are going to make them thin like all the earth girls use at the YMCA for their work outs. As far as I know they have inner and outer suits.

5-6-2019 Angie's deep space mission is postponed. There is some sort of problem.

Angie and the kids sanitized my subconscious last night. They didn't tell their moms until it is over. It was a hell of a dream. Colors and forms rushing by at light speed. I've never experienced anything like it. They were deleting negative programs that affect behavior and lead to depression. Their moms were very surprised. Kids said it would take a week before I would see results. It felt like my hard drive was being wipe clean. The kids didn't want their moms to get in the way. I think The kids made the right choice.

5-6-2019 Rul was saying he is taking a class about pressures within a vacuum. At low vibrations it is a vacuum. But at higher state of vibrations there is pressure. So I think this: any vacuum is ½ empty and ½ full. The ½ the full part can be used to do things. Not sure if this concept is correct. Rul says it is.

5-10-2019 Scott John is doing structural analysis of the ETs' electrical, electronic and social systems. His main interest is star cartography or star maps. In space there are dangerous places that can kill you. ETs don't go there unless they know what they're in for. Scott says that Jack has to fix the A.I.s psychological systems but this is not the same as his social system work. Jack repairs UFO systems. Scott is currently studying ET systems that include UFO and other systems.

5-11-2019 Talked with Rom and His brother Jerry last night. Jerry jumped into my bed for a snuggle! What a joker! Funny! Rom said the ETs love their mates emotionally and mentally; whereas, my girl and I love on the

physical, emotional, mental and spiritual planes. He put it this way in terms of a beam of light. The ETs beam of light is ½ inch wide. Me and The girl's beam is 2 inches wide. Me and the girls have a much higher amount of “oneness”. Hard concept to grasp. Rom's culture lacks the wider beam. My girls and I have a wider “breadth” in terms of length, breadth And height dimensions of space-time. (A plane is no ordinary dimension of space-time. It is the dimension of vibration. A plane is more than a state or condition of length, breadth, height, thickness or circumference

5-14-2019 Susan says the reason Saturn's rings are now shrinking is due to a 500 year orbital cycle around the sun. This cycle brings Saturn into closer then farther away orbits to our sun. When closer, methane in underground traps vent into the rings. At that point the rigs grow. When far away the venting stops and the rings shrink. Saturn takes about 30 earth years to orbit the sun. This cycle changes about every 500 years. Telescopes have only been around about 500 years. So our data is incomplete.

CTR Restriction

5-19-2019 CTR came into my room and tried to snuggle with me. I chased them off with my soul's power. Not sure if CTR was trying to breed with me. Not into having kids for their science project. I'll try to help but breeding is crossing the line. Sometimes the CTRs are a royal pain in my ass with their science projects. They are desperate to find out what soul is. I feel so sorry. Susan to convene staff meeting to put some restriction on the CTR experiments.

5-22-2019 Izzy says as I learn more about the relationship between my soul and its' personality, she learns learn more too about her soul and personality. She learns from me discovering new facts about the soul inside me. I am teaching Izzy too.

5-24-2019 Barda does not want the humans to know the nickname I gave her. Message from Rom and Data Susan. **“Turn it over”**. One day I'll understand what it means. I will do it.

5-28-2019 I've become a poster child to the other ET races. The space brothers and humans can work together.

5-29-2019 Shanna on a long term diplomatic mission out of the system. She will be back in a few weeks. Girls still working on CTR rules.

6-5-2019 Shanna returns from the **Royi system** inside the Andromeda galaxy. The Milky Way and Andromeda will have a collision in about 4 billion years. Shanna's diplomatic mission was an emergency and she left without telling me 45 days ago. The mission was very important and very successful. It had to do with resource management. The dispute was resolved very successfully. The meeting had been canceled but at the very last moment was a go. She had no time to tell me before they left. On the way home they stop at Neptune to brief the space brothers.

Also,
she stopped off at the moon to talk with family and friends. None of our kids travel with her. About 1000 ETs made the trip. Some are staying in the **“Royi” system**. Shanna had some tech issues on the way to
the Royi system. Shanna was surely happy to be home. 45 days of time passed on the round trip. 35 days passed on earth. Shanna is going to buy some new earth shoes. There were some shocking things she discovered about the Royi culture.

New CTR Rules

6-6-2019 There are breeding programs rules in place that forbid ET males on UFOS
from hitting on my girls. My girls are off limits. The kids see themselves as earth ETs. They let everybody know this. Shanna is sorry She left for the Royi system without telling me. About 80% of the Space
Sisters work till 300 years of age. Most retire then. After retiring most tend to their families. Most Space Brothers work till they hit 900
years of age. There is a change in status with the CTRs. Now they must get my permission before they can do their experiments.

NASA orbiter spots 'Star Trek' symbol on Mars
By Ashley Strickland, CNN
Updated 12:24 PM ET, Thu June 13, 2019
Photos: The best moments on Mars
Cooled lava helped preserve a footprint of where dunes once moved across a southeastern region on Mars. But it also looks like the "Star Trek" symbol.

New Space Suits

6-10-2019 The girls want space suits that are lightweight and exquisite in styling and attractive on their bodies. So far tan with very light yellow trim is what has been decided upon. Also, for “Al” the letter logo shape of **“A”**. The letter “A” is trimmed in light blue and outlined
in black. The boys like the bulky suits because it makes them look “Buffed Up”. The bulky suits make my boys look like bodybuilders. The “A” shape to me kind of looks like the TV Star Trek logo. However, our “A” shape is more rounded on the outline I think. **(see Book: From India To The Planet Mars Pg -91. Same Costumes also.)**

6-11-2019 Shanna said she can handle up to 5 conversations at once. She said William can handle 30 conversations at once. Sasha explained it this way: Your TV screen has a 100 stations or conversations going on at once. At any moment they can focus in on, if need be, the one that is

important. Shanna said it will take time but I will learn how to do it too. I was wondering how in the hell could Master listen in on 9 billion human's thoughts at once. They pick and choose the most spiritually advance to focus on. These kids of mine are amazing.

6-15-2019 Daizy said when I grab her orbs it messes with her reports.

6-21-2019 Rul John wants to join the Saturn Warriors. I gave him my blessing.

6-28-2019 Annie's boyfriend's name is Boz.

7-2-2019 Moboo said earth made Alien Reproduction Vehicles can only fly about 50 miles above the earth. They can not jump into wormholes. There is no human off world space program. That is a Myth. NASA's air-cam remote the camera is limited to 5 miles above the earth. Dulce New Mexico is a black hat operation site and is doing cloning/DNA work. Also, the Indians are getting paid off so the black hats can do their work. She said I am doing the ETs PR work. I am closely watched by the government group. She said that I should not focus on any one thing PR wise, but just take it as it comes. Earth UFOs can only go from zero to 500 miles per hour in one second but ET UFOS can go from zero to 1 million miles per hour in a second.

7-5-2019 Tiger-Lily is on Jupiter to study how to convert a cube of electricity into pure energy. She starts at the 1st etheric plane then jumps it up to the 2rd etheric plane. Keep in mind there are a total of 7 etheric planes in all. She is dealing with the two lowest planes just above our solid physical plane. She takes a cube of electricity then jumps it up a level. Conversely, she takes a cube of 2rd level pure energy and slows it down into her 1st level etheric plane. Different planes of etheric energy has different applications. I really don't understand what the hell she is doing but it is important to her and the space brothers.

7-20-2019 I was telling Shanna that I might be making a fool of myself online about the breeding program. I don't think of myself as a spokesman or teacher. I was feeling like a big fool then Shanna said, “There is always someone else who will make a bigger fool of themselves than you”.

7-21-2019 Rul John got into the Saturn Warriors. J-axe is a Sargent and up for promotion to LT. Ra hung out with dad last night.

7-29-2019 ETS removed Lead, Zinc and Cadmium from my brain so as to help me better remember.

Men In Black

See Wikipedia:History of Project MKULTRA

8-8-2019 I asked Izzy, “Do the men in black have ET tech”? Izzy said; “They have some tech. Just a little bit. The men in black are not working with the Space Brothers. The men in black are working as private contractors.

They do black ops mostly. They suppress the truth for the oil, gas and weapons industries".

Barda's Comments on MUFON' Case # 54933

Barda says government psychics were employed to suppress the witness by way of "Mesmerism". They also used drugs on the witness. The MIB were there to collect UFO evidence. The triangle injection mark left on the witness was for mind control. The girl was a victim. The Mom and Dad were not involved but were freak out by the daughter's missing 24 hours of time. She was returned 24 hours later. The mom and dad didn't know where the girl went but was very glad she came back home. The girl was very upset and in bad mental state after the men in black used drugs and hypnotism on her. By treaty the black hats are to have nothing to do with you. The space brothers heavily monitor this. That is why you had ET security at one point. You are protected, your a medical provider has been ordered to keep you in top physical health.

The government has been tracking your will power. It has been charted by your doctor, YMCA, Med usage, Blood work and Social visits by a nurse. **Note: For each nurse visit my insurance pays me with a $50 debit card.**

8-9-2019 Peter John wants to be a pilot. Patrick John want to be a construction builder. He wants to build things. Zek John wants to be a pilot and fly to the stars. Starlight wants to be a nurse to the ET races. I met a friend of Rul who is in the Saturn warriors program. His name is Luke and he wants to become a Captain of a star ship. Luke has both a solid earth body and an etheric body. Luke was born on earth like Heidi but didn't have the monks put his solid body into stasis. He is able to switch at will. Heidi has to use the monks to go back and forth. I told Luke called me dad, not Mr. Martin. Daisy Bell might join the Saturn Warriors. She thinks about it. Barda's says; "Enforcers are a special unit of the Saturn Warriors. We only call them in if there are big trouble. They will close the situation down. They are the elite of the Saturn Warriors. They are very powerful. They take no shit. Highly aggressive. Very firm. The Saturn Warriors work with the police forces of other ET races. This elite unit has their own scientists too". Steven john want to study plants

MUFON CASE # US 1232-1968-0001 THE DMZ INCIDENT OF VIETNAM.

Barda says: This event was the result of bad karma. The ETs had sent a message to the US Navy command to tell their forces not to shoot at the UFO observers. Those sailors who died were meant to experience the results of the shooting at the UFO. The ETs used time space to recycle the Navy's own bullets against the river boats who were shooting at the UFO observers craft. The ETs did not change the cause. We only change the effect. We change the reality of the event so that the river boats were shooting bullets at themselves. We did not choose death. Those sailor's souls chose to die by their own hand so as to send a message to the US Navy to stop shooting at the ETs. Stop the killing.

Question for Susan:

Did Apollo 11 radio back to earth and say that they were being watch by

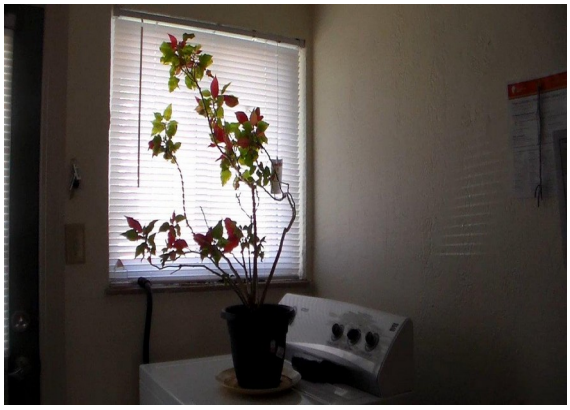
a “Mass of Intelligent Energy” or inhuman entities when they 1st landed on the moon July 21st 1969?? **Answer:** Susan says the mass was the Siriusians (Energy Beings who always travel as a group)

Did Ingo Swann remote view a Space Brother Moon Base for the CIA? Did the Soviet Union and CIA use psychic spies? **Answer:** “They did not get anywhere with their programs.”

Question For Izzy

Was Captain Randy Cramer an Interstellar soldier for Earth? **Answer:** None of this is true. They tried and failed horribly. It was a mistake to have such a program. There are no earth bases on the moon. This is disinformation meant to hide stolen US taxpayer money from the public coffer. MKULTRA tech was used in conjunction with drugs and “Mesmerism” to stage a psychological fake experience with elements of truth add to achieve the program goals. The TR-3B is real. It was used on Randy. But The TR-3B can't go into space. The Black-hats abducted Randy Cramer and programmed him for disinformation purposes. If there is no threat then there can be no funding in the face of global warming, especially, in the collapse of the world's economic order where funds become scarce. Randy did not know he was being manipulated.

Video shows helicopters attacking fuel depot inside Russia
New Day
Russian authorities say a fire broke out at a fuel depot in Belgorod, Russia, after an air strike coming from two helicopters belonging to the Ukrainian Armed forces. CNN is unable to verify this claim.



Barda says that our plant normally lives about 12-15 month. This photo was taken after 7 years of growth. The plant was a gift from a friend and Barda adopted it.

Concerning MUFON CASE # 61825

The Big Sandy Region of Kentucky on Jan 14th 2002 when a speeding train hit a stationary UFO doing detox ops on the railroad tracks.

8-16-2019 Shanna says: This was an accident not an attack. Part of the UFO undercarriage force field was turn off while the UFO was in solid physical state. This was needed so UFOs could do detox work. ETs had no time to react. UFO let the train ram the UFOs undercarriage. This was a snap judgment call by the ETs. This UFO was right in the middle

of its detox operation. When the train appeared the UFO did not have any of its probes out. Close to the ground UFO are blind without their probe out. This UFO had low situational awareness. Two other UFOs over the river where also detoxing the river bed and were not focused on the speeding train. They were surprised too. When the speeding train hit the UFO field the train's computers went haywire. The train could not stop even if it wanted to. The ships metal is much stronger than the train's metal. Some of the coal caught on fire. The UFO kept the force field down and took major damage. When near the ground without Its probes are deployed . It is hard for UFO access events on the ground. Probes are their eyes and ears so to speak. Also, there was X-Ray leakage from the UFO.

9-1-2019 Abena telegraphically showed me her home world. Its near Orion. The 3rd moon of a planet. Older planets go dry as they age. She would go each day to school on the big planet. She has family on Venus. After she mated, they had Poe and Tie in test tubes. Each day she would spend time with her babies. She saw them grow. Abena say when you have kids, earth style, it's very different from test tube style. When babies grow inside you they control you physically. Like the food you eat and such.

When things started to break up with her man she went to Venus to visit for a time. Next she went to Mars and fell in love with the place. After that she came to earth; about 50 years ago during the war. She was shocked at the killing. But she loved the earth, plants and animals. Her birth moon is rocky, sandy and dry. On her birth planet they build with glass there.

Sergeant Clifford Stone

9-6-2019 Undal said that crash and recovery interfacer Sergeant Clifford Stone of the US Army made mistakes in understanding the telepathic communications he had with some of the ETs. His interpretations of ET meanings were wrong in a few cases. The ETS did not mean what Sargent Clifford Stone said they meant. This caused problems for the captured ETS.

Heidi's Story

Heidi adds to her story: She met Tommy on the way to Woodstock 1969. He was with friends. The 3 days of Woodstock everything was cool. Heidi and Tommy partied and had sex a lot. Two day after the end of Woodstock Tommy's friend started to head back to NYC. But Tommy and Heidi dragged their feet on the trip back to the city. On the 4th day after Woodstock Heidi's ET family started to make themselves know to Tommy and Heidi. Tommy was not ready for these kinds of experiences. And the use of LSD didn't help. Heidi was doing LSD with Tommy. She knew what was going on with the UFO appearance. On the 5th day after Woodstock Tommy and Heidi came to a “Red Fleet” gas station. It only had one pump. It was country type that farmers used just outside of New York City. This is when Tommy told Heidi to go away. His last words to her were; *“I never want to see you again”*. This broke Heidi's heart. She just sat in the car and cried her heart out.

Finally, Tommy just kicked her out of the car and drove away.

9-18-2019 Moboo's Poinsettia looks to be dying? She says no. Maybe she is wrong? **(It Died)**

9-21-2019 Isis got into a conflict with a friend over some boy. Daddy kissed and hugged her. She is OK. She needed to learn that lesson. Robert John and I both told her the same thing.

Bob Lazar

9-22-2019 Undal says: Al remember most of what is said in these MUFON documentary is not true. We will guide you along with facts. Some of Lazar's statements are paid for disinformation. The rest is true but not clearly stated. Bob Lazar has good intentions but the black hats have him on a short leash. All of his facts are not 100% accurate.

9-23-2019 Jay Jay and Silver were being oreny. Barda talked with them.

10-2-2019 Moboo's Poinsettia died. Sad.

10-8-2019 Girls say on Mars wedding rings are worn on pointer fingers. On earth rings are worn on the sun finger, next to your pinky finger. The pointer finger is the Jupiter finger. My girls plan to wear their wedding bands on the pointer finger. I wear mine on the sun finger. Looks like I'm being helped with both my occult history and spokesperson tasks.

The Jacques Vailee Rating System Used By MUFON.

10-10-2019 I have experienced all of the systems ratings: CE-1 @ 35%/Sightings, CE-2 @ 2% Physical Effects, Dreams @ 10%, CE-3 @ 1% Living Entities/Solid Physical, Etheric-Physical @ 100% 24/7 contact. CE-4 Reality transformation @ 40%, Space-time Teleportation 5%, Telepathic @ 100%

MUFON Hangar -1- Season #2 EP #8 "SMOKING GUN"

(Also see Hanger -1- Season -1- EP #4.)

(See Clifford Stone US Army Crash Recovery and Disposal-Covert Team)

10-12-2019 Mufon says humans have died when they touched the dead bodies of crashed ETs. In The Coyame Mexico case of 1994 where 4 Mexican soldiers died after exposure to dead ET bodies. The Mexican government turned the operation over to the US CIA covert team for disposal. The bodies were sent to Whiteman AFB. Another UFO crash the Jan 20th 1996 UFO a crash at Varginha Brazil saw ETs running loose around town. A local cop "Marco Cherese" caught one of the ETs. Brazil call in the men in black to take over the operation. Unfortunately, Marco Cherese died 2 weeks later from his exposure to the ET. **Susan Says:** Some of the ET races from lessor evolved civilizations come to earth only in solid physical bodies. These lesser evolved civilizations had not mastered the many dangers of space travel. These lesser evolved civilizations use environmental systems on their UFOs that are extremely deadly to humans. When they get into trouble the space brothers try to minimize the bio and toxins allowed under karma. We are not allowed to clean up UFO crashes 100%. It is more like 50% that we clean.

10-18-2019 Found another breeding program contactee. His name is **David Huggins**

and

He lives in NYC. He as a book out called: “Love in a Alien Purgatory- The Life and Fantastic Art Of David Huggins”

Shanna's Comments about the David Huggins Breeding Program in New York City.

I was interested in Shanna's opinion about the book, “LOVE IN AN ALIEN PURGATORY, The Life and Fantastic Art of David Huggins”. The book is written by Farah Yurdoze and published by Anomalist Books, 5150 Broadway #108, San Antonio, TX 78209. Like The Stan Romanek Breeding Program I share some common denominators with both Stan and David Huggins. The major difference being that their programs are run by ET brotherhoods outside of our solar system; whereas, my program is run from within the solar system by the space brothers. That being said I'll get right to Shanna's edited comments.

10-25-2019 Shanna says: The giant praying mantis dude is an illusion. He is a glamour astral influence. Not real. Created in David Huggins' mind. However, some of the grays are real. Crescent is 3 different ET females

from Mars. David was not inserted with an implant in his nostrils. Waves were used to take away his fake pain. Events cause emotional unbalance. David Huggins is not a contactee in the traditional sense. Contact is one way. Contact is ET to David. Not two ways back and forth. David has no soul contact. No training in occult. Strictly one way contact. His purpose is to help with Master's emergence onto the world stage by attracting attention. David is not telepathic. David is a low level contactee. No abductions. His soul had volunteered at the soul level. He has had some children 4 or 5 I think. The 60 children statement is false. He has had contact with the children. David truly believes his experiences are real. No medical or genetic procedures were done to David Huggins. He was taken to a UFO as a child. Later in NYC, David did not go on board a UFO from his apartment. David Huggins is a very good person. David did go on board a UFO the 1st Time. David's nose bleed was a stigmata syndrome reaction. (Placebo Effect - Mind/Body Reaction) As a boy David did see a Landed UFO from Mars. This metallic craft was shinny with a mirrored like surface and is a true event. The large black snake event as a boy is also a true event. David was not chased by an oval of light as a boy. The ET sitting at the tree event was true. The Egg shaped UFO on the ground Behind the tree, the event was true but he didn't go inside the UFO. Baby in a tube event is true but that happened on another date, not at the time when the egg shaped UFO was behind the tree. When David moved from **Paulding County** to **Acworth County Georgia** a UFO did follow. That UFO was also testing soil samples at the time for toxins. Crescent, one

of three ETs did have sex with David for the first time in the woods when he was 17. David's 1st sexual experience led to a baby. The reasons David didn't have any memories till later was to protect David mentally.

10-28-2019 Shanna's says: The transportation strike in NYC where David hitchhike and a woman in a black car stopped and gave him a ride home.
Also, the nightly sex sessions with Crescent in David's room is true, but it was not the same ET female person each time. It was one of the 3

ET females. They took turns. The main difference between David's program and our breeding program is ours is run from within our solar system whereas David's is run from outside our solar system. Moreover,

David Huggins' “your baby is dying” event did not happen. It was a test to see how he would respond. The ETs needed to find out if David truly loved these children. The underground meeting with Crescent, the Greys, Mantis and the other Female ETs were real. However, all of this was not in the solid physical state but rather in the etheric physical state. Shanna confirmed that David is a contactee but not all of his contacts are real. Some contacts were due to mental-emotional issues. However, Most of the contacts were real. David is in 24/7 contact currently. He doesn't share this with people but knows it within himself to be true.

Burger King Meal

10-31-2019 Undal paid for two Burger King Bacon, Egg and Cheese Croissan'wich at the drive through. She was in a black tinted SUV. When I got to the drive through pay window they said the car ahead of me already paid for my order. **I didn't experience any psychological dissonance that normally occurs with close ET contact.** I knew she was my Undal. I was totally normal. I gave chase for a few blocks. I could only make out the female form from her backside. I got about 10 ft away from her as she tried to escape me. She didn't want me to get too close so I let Undal go.

11-3-2019 I was watching TV and started to smell after shaving cologne. Then **RA** said He was going on a date. Maybe he'll get laid? Later Undal said RA got laid! His girlfriend is from Mars and her name is “**Terisha**”. Her dad runs the water works for Mars.

Angie Mates

11-7-2019 **Angie Martin** and **Boxer Longbrow** will **marry** on Mars next June of 2020. The 1st week of June. I am going to Mars. Angie is a captain of a 7 million person UFO city ship. She just went back into town. Boxer is on the ship's security team. That is how she met him. I gave her my blessing just like Sky and Eric. They fell in love and now they are going to mate. I am so very happy. I talked with Angie. She told me she is afraid of being responsible for 7 million souls.

11-19-2019 Abena says Lucy wants to go into space medicine. Lucy wants to heal injured ETs. Lilly wants to be a nurse administrator. Lilly wants to to keep records and charts, she wants to set up appointments. Also do studies. Starlight wants to be a homemaker on Mars. **(changes mind later)** She will not be joining the space brothers program. She wants to be a housewife. She does not like the action. She wants to marry a farmer. **Steven John** want to go into **chemistry**.

Abductions

12-4-2019 I asked Barda, “Are ETs abducting humans for breeding”? Barda said, “No we are not”. I asked, “Why are people claiming to be abducted”? Barda said, “because they are afraid and do not know what they are dealing with. No one is taken against their will. All must agree before we take them into our breeding programs. Most who claim to be abducted have emotional issues based on fears. (Subconscious? Conscious? Both?)

They do not understand how the human mind works, nor do they understand its parts, or what these parts do. Hypnotism or Trance is not the way of answers. They must learn more about themselves before they can hope to understand that their abduction experience is self created.

12-5-2019 Barda says, We do not abduct. We do from time to time accept candidates for the breeding programs so as to create the next generation of earth humans. Sometimes a candidates soul chooses to keep their personality in the dark for past life or karmic reasons. It is never against the soul's free will. These personalities that choose to be deaf, dumb and blind, for Karmic reasons are very important to their future evolution. But these deaf, dumb and blind personalities don't know their souls wishes, nor could they understand that we are actually doing their soul and our creator's bidding. In the end they will come out smelling like a rose in some other lifetime. Think of this process as giving shots to a new born baby, so as to protect its health from disease. It is a necessary step in their life cycle and spiritual development.

12-7-2019 Rom's brother Jerry has a woman named Iowa.

New findings on Mars (part 2).The signs of habitation!

Blue Warrior 14,000 Years Ago

12-25-2019 Barda says: **14,000n years ago on Mars a war was fought by the Blues**. They were like Adolf Hitler and wanted to control all the other races on Mars. They used electronic electromagnetic weapons to destroy the "Minds" of their enemy. Also, they used sound weapons to destroy homes and buildings. These were weapons of mass destruction. This accounts for most of the ruins on mars. They fought with the reds, yellows, and some of the blues and gray races for control of the resource of Mars.

The last war on Mars was 2400 years ago and is called the “Nockey War”.

At that time there were about 30 different ET races on Mars. It was a political war between those who wished to suppress the choice and free will of others. Atomic weapons of limited range were used by both sides of the conflict. Also, light beam weapons were used by ground forces. After the “Nockey War” Mars chose to build underground cities. Most farms are still above ground. A treaty was signed making mars a UFO manufacturing center for the solar system. This ensured full employment at the time but later robot A.I. Took over the manufacturing process. This led to a volunteer one or two day work week for most martians. Mars is also the solar system barter-banking clearing house. “Nockey War” was costly on the planet's natural resources. Many supplies are shipped in from out of the solar system-some from earth per treaties for Technology. Some earth governments have cut deals for trade with the ETs. However, their public's are unaware of these trade deals. Mostly, these deals are for rare earths, some ancient weapon or missile tech. Keep in mind that not all of the ET races are on the same technological level and this helps with diplomatic relations between low and high tech races. Some ET races are still selfish.

2020

1-4-2020 Fluffy Cloud has a new pet. Dog-like and very hairy. It is called an “**ork**” is from Jupiter. I couldn't see its' feet or face. When full grown it will weigh 400 Lbs. It is just a baby now.

1-5-2020 “Ork” has 4 legs. Tail. Small mouth and nose. Sort of rat shaped. Will cut it's hair at 1 ½ months.

1-17-2020 Jack has a new name. The kids call him “MR. Good-wrench” when referring to the girls who hit on him for sex.

1-24-2020 Jack might be in love.

2-4-2020 Starlight wants to become a medical student. Jack John's new girlfriend is called Marsha.

2-10-2020 The food that Rom showed me on his ship all those years ago looked like yellow pudding. I just learned because of the wide grouping of ET Races They use food all races can eat.

2-11-2020 Brace John wants to be called “Dusty”.

2-16-2020 Abena's 3 month away mission is a bust due to some bad space weather. The type of ship could not handle the storm. So they had to turn back.

3-24-2020 Starlight changed her mind. (see 11-19-2019) She now wants to be a Astro-biologist. Nick-names: Daisy Bell/Doozy. Brace John/Dusty.

4-5-2020 Moboo now a LT. Of Botany? Not confirmed.

4-17-2020 Moboo said the state governments of Georgia and Mississippi will collapse by the end of next fall of 2020 due to weather issues??? Also,
Texas, Louisiana, Georgia & Florida will get hit by freak weather. The the west coast gets hit by fire and water up and down the coast.

5-11-2020 Zek John dating Rose from Mars. Star Glow showed up in my dreams and showed me her face and image. She was upset about her eyes. We talked. I think I got her going in the right direction.

5-13-2020 Shanna says science wise she is way ahead of me. Culture wise we are about even or I'm a little behind her. Spiritually I'm ahead of her. Abena says Covid-19 jumps to 7 to 10 year old children by June and July. By August everyone is really unhappy the economy was open back up. Very troubled times for the Midwest. Down south deep problems, two governments fail: Georgia and Ole Miss. Storms tear the deep south up. No help from Feds. Trump was kicked out of office for fraud. The poor have a field day. Barda says Trump kicked out of office in the fall. **(Trump Claimed Election Fraud. Trump had Tax Fraud. Trump had Insurance Fraud.)**

5-20-2020 The girls say gas will hit 1 cent a gallon. Trump will be forced out of
office.

6-10-2020 Izzy told me how she became Barda's mother. Izzy was best friends with Barda's birth mom and dad. She spent a lot of time babysitting Barda. At age six Barda's folks died in an explosion. Izzy asked and was allowed to raise Barda as her own. There is about 12 earth years in age
between them. When I met Izzy through Shanna, Barda was finishing up as
a cadet training in the space brothers program. At that point I was only mated to Shanna and Izzy who were best friends. They ask me to mate with Barda who had just become a space sister.

6-14-2020 I made email contact with **Gerard Aartsen.** He said he read my posts on Mewe.com. Shit I thought I had deleted them? How did he do that? He suggested a book for me to read. It is about universal basic income. Also, a very strange person showed up at my back door last night. They were investigating me I think? Not sure if it was from Master group or the ETs?

6-15-2020 As I was waking from my nap the image of a China Man was projected into
my mind. He was an old man. Maybe 60-65 years old? Thinning hair on top
with thin white whiskers. I saw him entering my back door. It was kind like the first time I saw Rom in my mind. WTF? Was he the strange person from yesterday? Shanna said his name is Yo-Chin and he is from Tibet. He is a teacher.

Caracas Venezuelan Event 11-28-1954

6-16-2020 Izzy says that the ET was Hairy and weighed 35 pounds. Its body was as hard as steel with stiff hairs and claws. This group was here for limestone which they use to make elements with. It was a mining expedition to earth. The space brothers had granted them a permit.

These Hairy ETs are a less evolved ET race than the space brothers. The Space brothers help these types of ET too-just like earth. There are thousands of these less ET groups coming to earth. They come for different reasons: metals, plants, stones, study, sources of trade.

Izzy notes that most of the story is true but some of it is false.

6-17-2020 My girls say that the Black Hats, military, private contractors, US government agencies, Cops, FBI, Scientific groups, MUFON and others are not allowed to interfere with our breeding program. Me and my family are "Off Limits". Gerard Aartsen thanked me for following him and buying the book he suggested. Bark has made contact again with me. Wonder if it was his group during the **11-28-1954** Event? Note Well: Susan says UFO investigators who lack occult and scientific training are just spinning their wheels, while milking the publishing cash cow.

6-29-2020 Baby Sun has a new boyfriend named "Joshua". She says he is handsome.

7-7-2020 Barda says it took 6 earth months of training to adapt their bodies and minds to earth's environment. Radioactivity was the biggest problem. Our food was a slight problem for some of the ETs like Barda. Barda likes earth yogurt.

8-7-2020 The girls use electronically boosted waves (magnetic) to reach the consciousness and subconsciousness of humans. They say my meditative or will powered waves are much better than their tech.

8-29-2020 The kids and moms both use infinitesimally subtle psychology to get my personality to go along with my soul's choices. It is very much like a child pestering their mother for a new toy. The kids are sneaky like their moms.

9-5-2020 Angie use both physical and mental sciences; that is, mechanical and will power to fly her city ship. ***(see pg-86- The White Sands Incident by Dr. Daniel Fry part -2-)***

11-7-2020 Lo Lo met this guy named Steven John K. while on a resource hunting expedition. He is from Jupiter. They will announce later on that they have mated.

11-13-2020 Jane says this new group of ETs she is dealing with is from the earth year **2791** on our timeline.

Data Bombs

12-12-2020 Every Nation has data mining operations. Data bombs have been placed in these operations and will delete file histories. Certain data mining operations are off the grid and have been sand-boxed. Examples: Social Security, Health and Bio Info and Military. The main targets are Economic, Social Media, Political, Marketing, Government Funded Social Programs, Tax and Sales Records. The behavior of consumers are the main target. The NSA is aware. Biden will order an attack. Not sure on who? The Aussies will suffer the 1st cyber attack. Not sure by who? I am not to speak of this per master's instruction. When these data bombs explode the world wide economic system will collapse. The game will be

replaced by a new economic game or order. Behavior profiles will get deleted. I might be wrong but it should start around Jan 1st of 2021. It won't be a total collapse; more like a 75% collapse of the economic system world wide. The 3rd world nations get off easy. Rich nations get hammered. Democrats take control of the American system. Republicans far and few between. A socialist system needed for survival.

2021

Multi-Dimensional Circuits

1-3-2021 **Jack John Martin says**; *"On earth you have two types of electricity. AC & DC electricity. The Space Brothers have many others types of electricity in other dimensions. They also have many other types of circuits in these other dimensions. These are connected by way of inputs and output between the dimensions".*

1-24-2021 **Brace John Martin said** *I've reached 200,000 Humars in my dream stress testing. It been a long cycle of stressful dreams.*

Scott and Charlotte

2-15-2021 **Scott John Martin** is going to mate with "Charlotte" next fall. **Daisy Bell** is into philosophy. The ETs use a sense of smell to check on the health of the children and me. If something is wrong then they call in the med-tech staff. The girls have a higher state of smell.

Covid-19 Update

2-26-2021 The girls say that the Covid-19 bug will start to decline by June 2021.

That is the 1st week of June. Economic activity will slowly come back by August 2021 to about 40% of pre-covid levels. By that time the world wide collapse is well under way. At that point some supplies will

be hard to fine. The rich will have to make do with what they have. Biden will push social programs then. The rich GOP donate-er will turn their back on the party. Almost a full collapse of the GOP. The military will be highly involved with the day to day operations of government. Military will be forced to distribute goods and services. Food and meds will be semi-stable.

Baby Sun and Dax

3-18-2021 **Baby Sun** and **Dax** to mate. Dax comes from the moon. Dax is a "musician".

Dax plays jazz-NYC-France-England. Dax's mom cried at the news. She was

very happy!

J-Axe Captain

3-19-2021 **Jaxe** is now a **Captain** in the Saturn Warriors. **Ra** is a **Sargent** and **Octavia** is a **private**.

4-11-2021 I talked with Olivia, Mukunka, Trilly, Grey and Silver last night. Olivia is a little bit anxious about finding a mate. Me and the girls are working with her. Trilly is a lot like Jack John was-Player. Mukunka is not worried about it . Grey and Silver not focused on finding mates. Moboo keeping an eye on the kids.

Free Food and Lotto Tickets

4-19-2021 Heard very strange computer like sounds coming from my washing machine.

Then discovered and extra $177 bucks was added to my food stamp card.

WTF? I should have had only $30 bucks on the card? So I bought food and gave sissy tons of meat. The ETs wanted Jane to buy a lotto ticket. Jane had a impulse and when out an bought a 10$ ticket. It paid $50 bucks! Later on the kids got her to buy another $10 ticket and she puts it in her purse and forgets about it. The next day kids told her to check on the ticket. She did and it paid $50 also.

4-22-2021 Kids say that **"weed"** has been smoked on earth for millions of years. Weed was developed by the **Blue Warrior Race** on Mars and then brought to earth by them. **(see 12-25-2019)**

Silence

4-23-2021 I asked Susan; "What do I do with all this information I've been given"? Susan said; "It is for others to struggle with your secrets".

5-9-2021 Doozy likes to speed in her UFO. I talked about it to her. She needs a space zone where she can speed. She needs to talk to the space brothers about it.

5-10-2021 The girls say; "Rationing to begin the winter cycle of 2021." The leaders in China, Russia, India, Israel and Brazil in trouble!

5-15-2021 The moms talked with Doozy. She is going to change her "Martin" ways. She wants to become more in line with the space brothers.

5-19-2021 Barda & Izzy working in my dreams to help my my sub-conscious or animal mind reprogram my DNA so that I will become almost ET like in my being. They are seeking a 99.9% upgrade to my DNA. I need to get rid of old sub-conscious behaviors or reactions. I'll become more like the space brothers. They'll be doing more of that in the future. They will take on female roles in my dreams. "This will change your DNA Al. This will effect everybody who comes in contact with you. They will see the light, they will be attracted to the light in you. This is very good. No more Dark thoughts. This will open up many doors for you. Others will become very dependent on your light to help them with their darkness. You will become very valuable to others, There will be competition for your attention. You handle this very well. The sub-conscious will become more in line with your conscious mind.

Eye Color Cycles

5-26-2021 Undal goes through eye color cycles. It does not happen much. Most of the time her eye color is black. But when I first met her it was golden-blue. **(Confirmed. See Howard Menger's book: "From Outer Space To You" page 135.)**

6-3-2021 Doozy likes likes "Ballerina Dancing"!OMG! This Kid!

6-11-2021 In the book "from outer space to you" **(see Page 140)** It talks of collapsing the molecular structure to create a dehydrated potato. I asked Susan if this was how America came up with instant mashed potatoes? She said, "No. We use a different process, It is much better than the human process. Our process can last for 1000's of years. The human

process last for two or three years at best, Our process has a much higher protein level. Susan was looking at a ET painting. It had lines and angels to represent the different psychological temperament of people.

Earth Contactee Cycle

6-24-2021 Jack John teaching me about ET propulsion systems. Undal says; "The next cycle of contactees have not yet awaken to their life mission. They will follow in your footsteps. They are mostly women".

Heidi

6-25-2021 Rom says;"When the time is right I will tell you to make the information public. Most researchers think your drug (weed) use makes you unreliable. Still, others are interested in what you have to say. In the book "from outer space to you" Howard Menger states on page 147 *"Matter in the form of different elements present in space which eventually form planets under the control of a funneling magnetic influence".* Is this what my girls meant when they say **Heidi** is a **creator? (she creates stars and planets?)**

7-8-2021 I asked Jax Steven John Martin; "are their any UFOs build by humans? He said, "Yes, the Blue humans that live underground in Agartha, or Agarthi. There are two types of earth blues; solid physical and etheric physical. Their UFO tech in not interstellar. Their tech is solar and reaches only to Mars. Agartha was settled by the Atlanteans. They have blue skins.

Barda Lt. Commander

7-19-2021 Barda got a promotion to LT. Commander for on shore operations.

Jaxe Captain

7-25-2021 Jaxe was made Captain.

Green Glowing Lights.

8-2-2021 Tonight Zek John Martin showed up in his UFO! I filmed him. Then about 10 minuets later I went to Arby's and all of the white lights on the streets started to glow neon green. . The effect was like seeing spots in your eyes when staring too long into the sun without sunglasses. Not sure if the camera was seeing what my naked eyes were seeing. It was night, about 10:45PM.Will post on You Tube.

Abena & "My" x-mate

9-5-2021 Abena said she wanted to work on earth. She wanted to get into the breeding project. Her x-mate **(My, at the time)** didn't. He is the father of Tie/male & Poll/female. So, they broke up and went their own ways. Their kids were grown up. They didn't want the same things anymore.

Shanna & X-mate

9-6-2021 Shanna said she wanted to work on earth. She applied for the breeding program and was selected. She choose me. Her marriage was over before she applied. He wanted to do deep space missions. Shanna didn't. When she was working on Pluto they started to drift apart.

9-21-2021 Izzy says; *"we have used laser or light beams to do medical work on your body while you were sleeping along with using anesthetic wave energy! We have done this many times over the years to help your body heal and repair"*

9-25-2021 Doozy says; “if your self image is mind based your etheric body *becomes your main body and you can float. Also, if your self image is based in your solid physical body then gravity keeps you locked down to the earth”.*

9-30-2021 Starlight got dumped by her boyfriend. Moms are on it. She is daddy's little girl but moms pulled rank on me. They want to handle it!

10-4-2021 Jane says **4** groups are in contact with her: Humans from the earth years **2060** and **2360**. They are on our timeline/future humans. Jane said it is the month of July for 2060 whereas it is October in 2021. The other two groups of ETs are out of our solar system and from the years **3770** and **7000**. Don't think they our from our time line.

10-7-2021 Doozy said, *“Sasha Lee Martin Kissed a boy last night dad'.” Sasha said “He is handsome. He is from Mexico and part Of Jeff Regis's ET group”.* Later on I found out she slept with him.

ET Advise vs. Master's Advise

10-8-2021 Abena Says: “the girls advise you on personal matters,and the Masters advise you on the public info about the universal basic income, and Master's UN speech & UFOs. Also, Sasha & Gule spent the night together.

10-24-2021 Susan says: “We can use negative waves like sorrow and regret to achieve our goals.”

China Plane Collision

11-15-2021 Barda says: Concerning the China air collision of 2012-2013? ET Probe was deliberately crashed into the airplane. Why? **1.)*To let the world bureaucracy know who is boss in the sky's. ETs don't want weapons in spaces. ETs don't like particle beam weapons being shot at their crafts. This does not aid their humanitarian efforts to help us evolve spiritually as a race. 2.)More important than this is to get all the air traffic controllers of earth to work more closely together.*** This collision was carefully planned not to hurt humans, The effect is to increase human unity. Also, this is to put the world armies on notice. Shortages stop by January of summer of 2022. Summer Gas Shortage 2022! It will be stressful. Most of the USA will be out of work by then. Movies, sports, entertainment and rock shows going out of business. Small bars take over. Tickets hard to get. Most switch to internet. Electric grid will be stable. Traffic problems due to construction and gas shortage. Housing boom. Venues and shopping malls converted to housing units. Housing markets collapse in USA, Russia. China hit the hardest. China communist party power breaks down. Putin forced out of power. People fed up! Lose support of the rich! Biden

wins 2rd term by a landslide. **(This was wrong)**

12-1-2021 ETs did med procedure on my right hand to removed a cyst.

Greys

12-6-2021 Izzy says: “our space suits contain our bodies when going from a safe environment to a hostile environment where stronger magnetic and other cosmic forces hold sway. Imagine a bottle with water in it. Our suits keep our bodies from leakage and harm”. “We view the Greys as our babies. Back in ancient times we used them to explore the galaxy. Most of them are raised on our city ship. We choose certain DNA for certain types of missions. Greys are conditioned with certain psychology, philosophy and scientific knowledge growing up to help them with their missions. We treat the Greys like our own children. Souls do reincarnate into most of the Greys we grow. A Grey who does not have a reincarnated soul is more like a “Pet” in the human sense. We love them very much. They have many rights in our society. They have free wills but have been conditioned for their missions so as to seek their goal. They marry and have children who mostly have reincarnated souls. There have been wars between the Greys and we have brokered peace between them. Not all groups of Greys are friendly to humans. Some groups seek to harm humans. These groups are policed very closely

2022

1-1-2022 Was talking to Jaxe. He said the scientific races with low spiritual development mostly come from other dimension into ours. They get into shot fired events with them. Mostly other dimensions. Not from our dimension. These race don't have treaties with our solar system. Jaxe has Moboo's eyes a little bit. They glow a little gold. Jaxe was talking about test tube kids. Some test tube moms love their babies just as much as Moboo loves Jaxe. Others are a little detached. This is why the space brothers started the breeding program. To re-build these bonds back. Some etheric ET males will change into solid physical form to mate. Then they change back into etheric-physical and split! These only come back to see the kid once in a while to check on them. This is due to karma. The child needs that kind of karma to grow up in. These dads are part time fathers so to speak. These part time dads travel a lot. Their missions takes them out of the solar system. Jaxe is very military like but yet is still very loving to his daddy. It is the Moboo in him that kisses and hugs on me. His other side is as tough as nails.

1-26-2022 Undal says: Different ET races have different preferences. Some like to live underground on the planet. Others like to live on city ships. Each race has it's own tastes.

2-7-2022 Scott got mad at me. He is a full grown man. Sometime I kiss and hug

on

him like he is still a new born baby. I also do this with my earth son David John. Both get pissed off. I need to stop. Bad daddy!

2-2-2022 Undal says: students will come many years from now and study your writings. What has happen to you will happen to them in their life cycles also. Humans and ETs will live, work and study on other worlds together. This breeding program that you find yourself in is just beginning. Others that come after you will grow & expand your breeding program. Future people seek to be born into your blood line and will travel the stars as your grandchildren (till the 5th generation). Others that come after you will understand your journey. Other races and their culture will be brought before your bloodline to share their knowledge of truths.

3-6-2022 Doozy (Daisy Bell)has a boyfriend named “Jeff Jefferson”. Half of the girls don't support it. Undal says he is not a good fit. Doozy and I have agreed to wait 1 year before I give my blessing. This is her first relationship. ETs jammed Russia communications. ETs destroyed advancing Russian armory column. Moboo said; “The Russian military had agreed through the ET contacts that they would halt their advancing armor column. They agreed not to attack the village. The commander broke his word. So our UFOs destroyed the Russian armor.

3-7-2022 Master asked me to Post on Twitter: “ETs advise that a second Russia armor column will be destroyed by UFOs in the Ukraine war. This will trigger a Russia withdraw from Ukraine”. (ETs Changed their minds and took out fuel depot to slow tanks down
and avoid unnecessary lost of
life.

Ukraine Denies Responsibility For Blast At Russian Fuel Depot

A video grab purportedly showing th

3-9-2022 Girls say starting the summer 2022 till January of 2023 a world wide travel ban hits the world. The roads will be closed down. Only food, meds and doctors travel allowed.

3-12-2022 Shanna says “China will experience a big shake up in the next month or two.

4-29-2022 Jane saw Susan in a car.

Susan & Brace

5-4-2022 Jane saw Susan and Brace John in a car. Jane said Brace had Jet Black hair. It must have changed from White to Black. Brace had it cut like Keith Richard -shag hair cut. Jane said he is a good looking kid.

5-15-2022 A spirit from Jupiter came into my dream. It was the “Chastiser” type that Emanuel Swedenborg talks about in his book “Concerning The Earths In Our Solar System Which Are Called Planets”. (**see pages 49 & 50**)I was in a dream and it appeared as a shadow cloud. I know how to do things in the astral dream world and have spent 30 years studying the ins and out of it. This “Chastiser” didn't realize that it has left Jupiter and traveled to our planet. It thought I was from Jupiter and was going to punish me. But the laws of Jupiter do not apply to Earth reincarnations.

So I fought with this Chastiser in my dream and it pick my solid physical body out of my bed about 5 feet and then body slammed me to the ground. That really hurt and took about 5 minuets laying on the ground to get back into my bed. I was in lots of pain. My right foot and left foot very sore. The Jupiter spirit was a long way from home and the next

morning my kids said it had slipped through their defense. Can still use my left hand a little but can't walk very well. Kids upgrade my security defenses

5-23-2022 Abena, Izzy, Shanna, Undal, Moboo, Susan and Heidi all have their Avichi & Devachan principles in union. When their etheric physical bodies die the lower 3.5 Avichi principles will get recycled by nature and their upper 3.5 Devachan (Soul) will stay in heaven.

5-30-2022 I get a lot of hypnopompic & hypnogogic information from the girls about the war in Ukraine which turns out to be true.

ET God Machines That Can Talk To God.

7-14-2022 Clifford Stone in his book called “Eyes Only” Implies that the ETs have god machines that can talk to god. That is, these machine can talk with souls after physical death in Devachan. These machine can talk with the 3.5 Devachan souls, or the lower 3.5 astral and etheric shells of 3.5 Avichi. On page 66 Stone says; “Their (The ETs) scientific capabilities brought about their (ET Culture) understanding that there is life after death even machines to which there is communication”. This confirms what the girls have told me.

8-1-2022 Rom says my training is complete. We intend to use you.

JOCK THE SATURN WARRIOR

8-14-2022 Jock is a Saturn warrior who will be on duty at nights protecting me from ETs and spirits who must display strange events till the end of 2023. The world is going to get a huge dose of phenomena. But not me. That is Jock's job. To keep the phenomena away from me. He is 6'2”. Has two grown up kids. He'll be spending the night with me looking out and keeping phenomena away!

Ringus ETs

8-20-2022 Undal needs help with humans in conflict zones. They put a call out to the Ringus ETS to help fix the problem. I have never heard of the Ringus ETs before?

Time Transformers

8-21-2022 Abena says; “Our daughter Pole is working out pass Saturn on some space stations, with her crew, bringing Time Transformers on line”. The Time Transformers work like this: On earth time flows from point A to point B

linearly, or a straight line in a single dimension. But a Time Transformer can jump to many dimensions that have different time lines, and which can flow in different directions. The result in our time is something like this. A flow to G which flow to M then to B. The ETs can grab different points in different dimensions and insert them into our time flow. That is, point g & M are inserted into our A to B time flow. However this has to be done very carefully! Many factors go into this **See my log: "4-8-2015" "11-29-2013" and "9-22-2015"**

Strange Gravity Effect

8-26-2022 I am experiencing very Strange Gravity effects! Let say you go from Zero miles an hour to 80 in Five Seconds. You will feel gravity pushing back on you as you drive your car. But when I do this I am feeling gravity pulling me forward instead? WTF? It just falling down a hill. I've been experiencing this reversal of gravity in my car and also walking. Also, I have been experiencing time fragmentation! That is, segments of the "Now", or the linear time flow jumps around between the past, the future and the "NOW". Not sure if this is a psychological effect? The Gravity effect I am sure is real. The time fragmentation, well I am not so sure?

9-22-2022 The girls don't like it when I listen in to their "staff meetings". Undal says it is against the rules.

9-30-2022 Question: Will Putin be able to hold on to those parts of Ukraine he annexed? My ET girls says: "These territories will be ripped away! Ukraine will drive them back to Russia. Ukraine will take and hold some Russia lands which will be returned to Russia during negotiations. By November 2022 Putin will come to the end of his power. This will be the 2rd collapse of the Soviet Union".

10-6-2022 Talked with MoBoo. She told me two things will happen in 2023. 1.)Miami Florida will get hit a category 5 or 6 Hurricane. It will be totally destroyed. Afterwards very few people will dwell there. 2.) North Korea will test an underground nuke and it will bring about the fall of its government due to nuke contamination of land & water. This will also have a terrible impact on China who will have to close the border. China's government will fall too!

10-16-2022 Susan said William is with a ET girl named "Sex". Not confirmed yet. Her name is Sex Bolger. Master M. told me that the day of days might occur in 2023. When it occurs people will get a mega-dose of phenomenon and miracles! It could be the end of the road for those who have not evolved enough to grasp the meaning of the event! For those who pass it will be the most stressful time of their life's. Everything they thought about religion and money gets trashed! That's when me and others like me will step up to help them. This will be a very profound

For example, say the sun is shinning on a mountain and is casting its shadow. A UFO can morph its' form and blend right into the shadow.
